Politics and Political Elites in Latin America

Challenges and Trends

- Explores data gathered by 9,000 personal interviews with Latin American parliamentary representatives conducted since 1994 with special attention to gender
- Examines parliamentary elites' attitudes towards issues such as political ambition, political trust, satisfaction with democracy, clientelism and the quality of democracy
- Analyzes how Latin American parliamentary elites see the influence of China and the United States in their countries' national politics
- Presents in-depth studies of seven national cases which are representative of regional heterogeneity: Brazil, Chile, Costa Rica, Guatemala, Mexico, Panama and Uruguay

This book presents in-depth analyses of the data gathered for 26 years by the Political Elites of Latin America project (PELA), the most comprehensive database about the topic in the world. Since 1994, PELA has conducted around 9,000 personal interviews with representative samples of the Legislative Powers of 18 Latin American countries, generating a unique resource for the study of political elites in a comparative perspective. Now, this contributed volume brings together studies that dig into the data gathered by PELA to discuss important topics related to the challenges faced by representative democracy in Latin America. After an introductory chapter that presents the potential of the PELA database, the book is structured in two parts. The first addresses in eight chapters important aspects of representative democracy such as political ambition, political trust, satisfaction with democracy, clientelism and the quality of democracy. It then discusses three relevant issues in Latin American political dynamics such as executive-legislative relations, women's participation as representatives, and the meaning of China and the United States in national politics.
