V REUNIÓN ARGENTINA DE GEOQUÍMICA DE LA SUPERFICIE

V RAGSU

La Plata, June 12 to 14, 2019

I CIRCULAR

We are pleased to invite you to participate in the V Reunión Argentina de Geoquímica de la Superficie (V RAGSU) that will take place from June 12 to 14, 2019 in La Plata (Buenos Aires, Argentina). The meeting place will be the Centro Científico Tecnológico CONICET, 8th Street between 62 and 63 of La Plata City.

The Argentine Surface Geochemistry meetings are scientific events that take place regularly every two and three years since 2009, having been held in different cities of the country (Córdoba, Bahía Blanca, Mar del Plata and Puerto Madryn). The objective of the meeting is aimed at disseminating the scientific advances that have been generated in the field of surface geochemistry not only in our country but also in the world.

The topics to be developed include different areas of exogenous geochemistry:

- Soil geochemistry
- Geochemistry of marine environments
- Geochemistry of fluvial and lacustrine environments
- Geochemistry of groundwater and surface water
- Geochemistry of saline environments
- Organic geochemistry
- Environmental geochemistry
- Biogeochemistry
- Geochemistry of atmospheric processes
- Geochemistry of mineral deposits associated with exogenous processes
- Isotope geochemistry
- Experimental geochemistry

ACTIVITIES

Within the scope of the V RAGSU the following activities are planned:

- Oral presentations and posters.
- Exhibition of keynote lectures given by specialized guests in the different thematic areas proposed.
- Short update courses.
