

# JOURNAL OF PARASITIC DISEASES

Official Publication of Association of Microbiologist of India

## Advertisement Tariff 2011

**Description:** - The Journal of Parasitic Diseases is the official publication of Indian The primary constituency of the *Journal of Parasitic Diseases* is parasitology. It publishes original research papers (pure, applied and clinical), which contribute significantly to any area of parasitology.

About the society:- **The Indian Society for Parasitology (ISP)** has the major objectives of bringing parasitologists of different disciplines under one umbrella to advance knowledge in this vital area concerning human and animal health. Over the years, the Society has carved a niche for itself by providing a common platform to research scientists, clinicians, field biologists, academicians and all others involved in parasitology or tropical medicine to share and exchange their knowledge and observations. The Society is affiliated with the World Federation of Parasitologists and has over 600 life members at present
