Contents

Preface ................................................................. ix
Acknowledgments .................................................... xi
List of Contributors .................................................. xvii

Basic Sciences

The Developmental Regulation of Wake/Sleep System ................. 3
*Pingfu Feng*

Basic Mechanisms of Circadian Rhythms and their Relation
to the Sleep/Wake Cycle ........................................... 19
*Martha U. Gillette and Sabra M. Abbott*

The Neuroendocrine Loop Model Revisited: Is It Valid
or Even Relevant? .................................................. 41
*Vincent M. Cassone*

Biological Rhythms in Neuroendocrinology .......................... 59
*Daniel P. Cardinali and Ana I. Esquifino*

Biological Clock Control of Glucose Metabolism – Timing
Metabolic Homeostasis ............................................. 87
*Marieke Ruiter, Ruud M. Buijs, and Andries Kalsbeek*

Molecular Mechanisms of Melatonin Action: Targets in Sleep
Regulation ........................................................... 119
*Lennard P. Niles*

Serotonin and Neuroendocrine Regulation: Relevance
to the Sleep/Wake Cycle ........................................... 137
*James W. Crane and Louis D. Van de Kar*

Locus Coeruleus and Adrenergic Modulation of Rapid Eye
Movement Sleep .................................................... 163
*Birendra Nath Mallick, Vibha Madan and Dinesh Pal*

Neuroendocrine Outcomes of Sleep Deprivation in Humans
and Animals .......................................................... 179
*Deborah Suchecki and Sergio Tufik*

Sleep-Inducing Substances in the Regulation of Sleep ............. 201
*Vijay Ramesh, Navita Kaushal and Velayudhan Mohan Kumar*
The influence of Orexin on Sleep and Wakefulness ........................................ 221
Christopher M. Sinton and Jon T. Willie

Clinical Sciences

The Development and Regulation of Expressed Rhythmicity in Infants ................................................................. 243
Scott A. Rivkees

Sleep and Circadian Rhythm of Melatonin in Smith-Magenis Syndrome .............................................................. 259
Hélène De Leersnyder

Melatonin in Circadian Rhythm Sleep Disorders ......................... 269
V. Srinivisan, M.G. Smits, L. Kayumov, S.R. Pandi-Perumal,
Daniel P. Cardinali, and M.J. Thorpy

The Role of Melatonin in Sleep Regulation .............................. 295
Nava Zisapel

Sleep and Circadian Rhythms in the Blind .............................. 311
Jonathan S. Emens and Alfred J. Lewy

Disturbances of Hormonal Circadian Rhythms in Shift Workers .. 325
Diane B. Boivin

Melatonin, the Pineal Gland, and Headache Disorders .................. 355
Mario F. P. Peres

The Role of Peptides in Disturbed Sleep in Depression .................. 369
Axel Steiger

Neuroendocrine correlates of Sleep in Premenstrual, Pregnant, Postpartum and Menopausal Depression ......................... 391
Charles J. Meliska, Eva L. Maurer, L. Fernando Martinez,
Diane L. Sorenson, Gina G. Zirpoli, Ana M. Lopez, Neal Basavaraj,
and Barbara L. Parry

Neuroendocrine and Behavioral Correlates of Sleep Deprivation: a Synthesis of Neurobiological and Psychological Mechanisms .... 413
Mehmet Yucel Agargun and Lutfullah Besiroglu

Endocrine Changes in Male Patients with Obstructive Sleep Apnea .. 423
Rafael Luboshitzky

Sleep-Disordered Breathing and Hormones .................................. 437
Tarja Saaresranta and Olli Polo
Autonomic Nervous System Activity during Sleep in Humans
Heart Rate Variability during Sleep ................................. 471
Gabrielle Brandenberger and Antoine U. Viola

Neuroendocrine Correlates of Infectious Disease: Implications for Sleep .............................................. 487
Linda A. Toth and Jennifer M. Arnold

Neuroendocrine Correlates of Restless Legs Syndrome .......... 499
Thomas C. Wetter and Stephany Fulda

Neuroendocrine and Neuroimmune Correlates of Narcolepsy ..... 513
Michele L. Okun and Mary Coussons-Read

Sleep Disorders and Neuroendocrine Investigations:
An Arctic Perspective. ..................................................... 529
Trond Bratlid

Role of Pro-Inflammatory Cytokines in Sleep Disorders ............ 537
Paolo Prolo, Francisco J. Iribarren, Negoita Negaos
and Francesco Chiappelli

Sleep and Circadian Neuroendocrine Function in Seasonal Affective Disorder ........................................... 553
A.A. Putilov, S.R. Pandi-Perumal and T. Partonen
Neuroendocrine Correlates of Sleep/Wakefulness
Cardinali, D.P.; Pandi-Perumal, S.R. (Eds.)
2005, XXI, 627 p., Hardcover
ISBN: 978-0-387-23641-4
