Contents

Series Preface ................................................................. v
Preface ........................................................................ vii
Contributors ................................................................. xv

Section 1  Basic Concepts of Molecular Pathology

Chapter 1  Genes, Gene Products, and Transcription Factors  ................. 3
Philip T. Cagle

Chapter 2  Receptors, Signaling Pathways, Cell Cycle, and DNA Damage Repair ................................. 11
Philip T. Cagle

Chapter 3  Cell Adhesion Molecules .............................................. 22
Timothy Craig Allen and Philip T. Cagle

Chapter 4  Apoptosis and Cell Death: Relevance to Lung ...................... 40
Pothana Saikumar and Rekha Kar

Chapter 5  Roles of Mutation and Epimutation in the Development of Lung Disease .................................. 53
William B. Coleman

Section 2  Techniques and Experimental Systems in Molecular Pathology

Chapter 6  Bioinformatics and Omics .............................................. 65
Timothy Craig Allen and Philip T. Cagle

Chapter 7  General Approach to Molecular Pathology .......................... 70
Gregory L. Blakey and Daniel H. Farkas

Chapter 8  Applications of Molecular Tests in Anatomic Pathology .......... 78
Jennifer L. Hunt and Sanja Dacic

Chapter 23  Environmental Agents in Lung and Pleural Neoplasms ................................. 233
  Steven R. Blumen and Brooke T. Mossman

Chapter 24  Viral Oncogenesis .......................................................... 240
  Cindy Noel Berthelot and Stephen K. Tyring

Section 4  Molecular Pathology of Pulmonary and Pleural Neoplasms: Specific Histologic Types

Chapter 25  Adenocarcinoma and Its Precursor Lesions ................. 251
  Helmut H. Popper

Chapter 26  Molecular Pathology of Squamous Cell Carcinoma and Its Precursors .................. 270
  Soon-Hee Jung, Bihong Zhao, Li Mao, and Jae Y. Ro

Chapter 27  Molecular Pathology of Large Cell Carcinoma and Its Precursors .................... 279
  Jennifer A. Eleazar and Alain C. Borczuk

Chapter 28  Small Cell Carcinoma ..................................................... 293
  Elisabeth Brambilla

Chapter 29  Neuroendocrine Carcinomas and Precursors ................. 301
  Elisabeth Brambilla

Chapter 30  Pulmonary Lymphomas .................................................. 307
  Candice C. Black, Norman B. Levy, and Gregory J. Tsongalis

Chapter 31  Posttransplantation Lymphoproliferative Disorder .......... 315
  Aamir Ehsan and Jennifer L. Herrick

Chapter 32  Unusual Benign and Malignant Neoplasms of Lung:
  Molecular Pathology .......................................................... 334
  Dongfeng Tan, Guoping Wang, and Sadir Alrawi

Chapter 33  Primary Versus Metastatic Cancer: Gene Expression Profiling ......................... 341
  Jaishree Jagirdar and Philip T. Cagle

Chapter 34  Diffuse Malignant Mesothelioma: Genetic Pathways and
  Mechanisms of Oncogenesis of Asbestos and Other Agents
  That Cause Mesotheliomas .................................................. 347
  Françoise Galateau-Sallé and Jean Michel Vignaud

Chapter 35  Molecular Pathology of Pediatric Tumors of
  the Lung ................................................................. 358
  Josefine M. Heim-Hall
Section 5 Molecular Pathology of Pulmonary Infections

Chapter 36 Basis of Susceptibility to Lung Infection 369
Frank C. Schmalstieg and Armond S. Goldman

Chapter 37 Molecular Pathology of Viral Respiratory Diseases 382
Geoffrey A. Land

Chapter 38 Molecular Pathology of Rickettsial Lung Infections 397
J. Stephen Dumler

Chapter 39 Bacteria 407
Nabin K. Shrestha and Gary W. Procop

Chapter 40 Immunopathology of Tuberculosis 419
Jeffrey K. Actor, Robert L. Hunter, Jr., and Chinnaswamy Jagannath

Chapter 41 Molecular Pathology of Fungal Lung Infection 429
Michael R. McGinnis, Michael B. Smith, and Abida K. Haque

Chapter 42 Parasites 442
Juan P. Olano

Section 6 Molecular Pathology of Other Nonneoplastic Pulmonary Diseases: General Principles

Chapter 43 Inflammation 459
Armando E. Fraire

Chapter 44 Oxidants and Antioxidants 470
Hanzhong Liu and Gary A. Visner

Chapter 45 Epithelial Repair and Regeneration 476
Steven L. Brody and Jeffrey J. Atkinson

Chapter 46 Fibrogenesis 490
John S. Munger and William N. Rom

Chapter 47 Stem Cells in Nonneoplastic Lung Disorders 500
Dani S. Zander

Chapter 48 Gene Therapy in Nonneoplastic Lung Disease 510
Timothy Craig Allen and Philip T. Cagle

Section 7 Molecular Pathology of Other Nonneoplastic Pulmonary Diseases: Specific Entities

Chapter 49 Smoking-Related Lung Diseases 527
Manuel G. Cosio and Helmut H. Popper
Contents

Chapter 50 Heritable α1-Antitrypsin Deficiency .......................... 541
Richard N. Sifers

Chapter 51 Asthma ....................................................... 549
David B. Corry and Farrah Kheradmand

Chapter 52 Cystic Fibrosis ............................................. 577
Annick Clement, Harriet Corvol, and Brigitte Fauroux

Chapter 53 Pulmonary Organogenesis and Developmental Abnormalities ........ 584
Timothy Craig Allen and Philip T. Cagle

Chapter 54 Genetic Abnormalities of Surfactant Metabolism .................. 590
Lawrence M. Nogee and Susan E. Wert

Chapter 55 Usual Interstitial Pneumonia .................................. 607
Marco Chilosi, Bruno Murer, and Venerino Poletti

Chapter 56 Sarcoïdosis: Are There Sarcoïdosis Genes? ................. 616
Helmut H. Popper

Chapter 57 Histiocytic Diseases of the Lung ............................... 627
Carol Farver and Tracey L. Bonfield

Chapter 58 Pulmonary Arterial Hypertension .............................. 634
Wim Timens

Chapter 59 Immunopathology of Pulmonary Vasculitides .................. 644
Steven N. Emancipator, Philip T. Cagle, and Abida K. Haque

Chapter 60 Asbestosis and Silicosis .................................. 658
Philip T. Cagle and Timothy Craig Allen

Index ................................................................. 663
Molecular Pathology of Lung Diseases
Zander, D.S.; Popper, H.; Jagirdar, J.; Haque, A.; Barrios, R. (Eds.)
2008, XXII, 682 p. 150 illus., 49 illus. in color., Hardcover
ISBN: 978-0-387-72429-4
