

CONTENTS

Preface	xxvii
Introduction	xxix

Part One

Section 1 Education in the Information Society	3
<i>Section Editor: Ronald E. Anderson</i>	

1.1 Implications of the Information and Knowledge Society for Education	5
<i>Ronald E. Anderson</i>	

The Information Society	5
The Knowledge Society	5
Information vs. Knowledge	6
Knowledge Societies in Education	6
Implications of the Knowledge Society for Learning Priorities	7
ICT	8
The Twenty-First Century Skills Movement	9
Parallels in Education and Management	10
Some Knowledge-Based Models in Education	11
The Emerging Pedagogical Practices Paradigm	12
Student Knowledge Framework	12
Knowledge-Related Skills	13
Knowledge-Related Task Phases	14
Knowledge Capabilities and ICT Tools	15
Knowledge Societies and Cooperative Work	18
Knowledge Societies and Learning to Learn	19
Implications for Education in the Era of Knowledge Societies	20

1.2 New Literacies for the Knowledge Society	23
<i>David Mioduser, Rafi Nachmias, and Alona Forkosh-Baruch</i>	
Introduction	23
The Knowledge Society	24
The “New Literacies”	26
Basic Issues Underlying Our Discussion of the “New Literacies”	27
Seven Literacies for the Knowledge Society	29
Epilogue	38
1.3 Theoretical Perspectives Influencing the Use of Information Technology in Teaching and Learning	43
<i>Chris Dede</i>	
Overview	43
Behaviorist Instructional Technologies	46
Cognitivist Instructional Technologies	48
Constructivist Instructional Technologies	50
“Next-Generation” Pedagogical Media	53
Illustrative Historic Controversies About Technology and Pedagogy	54
Conclusion	59
1.4 Students in a Digital Age: Implications of ICT for Teaching and Learning	63
<i>John Ainley, Laura Enger, and Dara Searle</i>	
Introduction	63
ICT Use: Access and Confidence	63
Behavioural Engagement	70
Emotional Engagement	73
Cognitive Engagement	75
ICT and Learning	76
Conclusion	78
Note	79
1.5 Traditional and Emerging IT Applications for Learning	81
<i>J. Enrique Hinostroza, Christian Labbé, Leonardo López, and Hans Iost</i>	
Introduction	81
General Background: IT in Education	82
Potential Impacts of IT	84
Factors Affecting the Use of IT for Learning	86
Trends in Emerging Technologies and Learning	90
Conclusions	93

1.6 Driving Forces for ICT in Learning	97
<i>Alfons ten Brummelhuis and Els Kuiper</i>	
Introduction	97
Conceptual Framework	97
Example of a Contrasting Position in Instructional Practices: Teacher or Student as Regulating the Learning Process	104
Discussion: Technology Push vs. Educational Pull	107
Section 2 IT and Curriculum Processes	115
<i>Section Editor: Joke Voogt</i>	
2.1 IT and Curriculum Processes: Dilemmas and Challenges	117
<i>Joke Voogt</i>	
A Curricular Perspective on IT in Education	117
Rationales for IT in Education	118
Learning to Use IT	118
Using IT to Learn	120
Current Use of IT in the Curriculum	121
Realizing the Potential of IT in the Curriculum	122
Innovative IT-Supported Pedagogical Practices	124
The Attained Curriculum: Student Outcomes from Learning with IT	127
Conclusions	128
2.2 Impact of IT on Science Education	133
<i>Mary Webb</i>	
Introduction	133
The Use and Impact of IT on Science Learning in Schools	134
Evidence for <i>How</i> IT Enables Science Learning	134
Pedagogies with IT in Science	140
IT Use and the Nature of the Science Curriculum	143
Implications for Teachers and Curriculum Developers	143
Conclusions: Ways Forward for Science Education with IT	144
2.3 The Potential of IT to Foster Literacy Development in Kindergarten	149
<i>Judy Van Scoter</i>	
Introduction	149
Literacy Development	150
IT and Literacy Development	150
Word Processing	151
Hypertext and Reading Potential in the Classroom	152
Integrated Learning Systems and Drill and Practice	153
Integrating IT in the Kindergarten Classroom	154
Print-Rich Environment	155

Technology Center	155
IT and the Classroom Reading Corner	155
Connection with Real Worlds	156
Products and Presentations	156
Technology and Literacy in the Inclusion Classroom	156
Implementation Concerns	157
Technology as a Benign Addition	158
2.4 Innovative Pedagogical Practices Using Technology: The Curriculum Perspective	163
<i>Rafi Nachmias, David Mioduser, and Alona Forkosh-Baruch</i>	
Introduction	163
ICT, Curriculum and Innovation	165
Curricular Issues in ICT-Based Innovations: Secondary analysis of SITESm2 cases	167
Epilogue	176
2.5 Changing Assessment Practices and the Role of IT	181
<i>Ola Erstad</i>	
Introduction	181
Teaching, Learning, and Assessment	182
Assessment Practices, IT, and Change	183
Different Conceptions of IT and Assessment	184
Conclusion: Are We Changing Practices?	190
2.6 Information Technology Tools for Curriculum Development	195
<i>Susan McKenney, Nienke Nieveen, and Allard Strijker</i>	
Curriculum Development Aided by Technology	195
Three Cases of IT Support for Curriculum Development	200
Future Directions	206
Section 3 IT and the Learning Process	213
<i>Section Editor: Kwok-Wing Lai</i>	
3.1 ICT Supporting the Learning Process: The Premise, Reality, and Promise	215
<i>Kwok-Wing Lai</i>	
Introduction	215
The Learning Process and ICT Use	216
Research on ICT Effects	217
ICT and Learning Environments	218
Computer-Supported Learning Environments	220
Conclusion	227

3.2 Interactive Learning Environments: Review of an Old Construct with a New Critical Twist	231
<i>Mark Brown</i>	
Introduction	231
Origin of Interactive Learning Environments	231
What is the Domain of Interactive Learning Environments?	233
What Assumptions Underpin Instructional Design?	235
Digging a Little Deeper	237
Connecting the Metaphors	239
Cleaning Up a Messy Construct	240
Mind Tools for Instruction	242
Mind Tools for Construction	243
Mind Tools for Inquiry	243
Mind Tools for Community	244
Interaction for What Kind of Future	244
Conclusion	245
3.3 Online Learning Communities in K-12 Settings	249
<i>Seng Chee Tan, Lay Hoon Seah, Jennifer Yeo, and David Hung</i>	
Introduction	249
Defining Online Learning Communities	250
Theoretical Foundations of Learning in Online Communities	253
Review of Studies on Online Learning Communities in K-12 Settings	254
Knowledge Building Community	254
Quest Atlantis	256
Virtual Math Team (VMT) Project	256
The Web-Based Inquiry Science Environment (WISE)	257
Comparison of the Four Online Learning Communities	258
Pertinent Research and Implementation Issues	261
Conclusion	263
3.4 Collaborative Learning and Computer-Supported Collaborative Learning Environments	267
<i>Maarit Arvaja, Päivi Häkkinen, and Marja Kankaanranta</i>	
Introduction: Collaboration Defined	267
Research Traditions on Collaborative Learning	269
What is Computer-Supported Collaborative Learning?	270
Challenges of CSCL	272
Structuring Collaboration to Overcome Challenges in CSCL	273
Methodological Issues with CSCL Research	274
Conclusions	275

3.5 Computer Contexts for Supporting Metacognitive Learning	281
<i>Xiaodong Lin and Florence R. Sullivan</i>	
Common Metacognitive Learning Outcomes	281
Recall and Memory	282
Content and Domain Subject Learning	284
Social Interactions as Learning Mechanisms	290
Conclusion	295
3.6 Collaborative Inquiry and Knowledge Building in Networked Multimedia Environments	299
<i>Carol K.K. Chan and Jan van Aalst</i>	
Introduction	299
Changing Theories and Metaphors of Learning	300
Views of Learning Underpinning Multimedia and Networked Learning Environments	302
Classroom Innovations in Networked Multimedia Environments	305
Theoretical, Pedagogical, and Methodological Issues	310
Section 4 IT Competencies and Attitudes	319
<i>Section Editors: Gerald Knezek and Rhonda Christensen</i>	
4.1 The Importance of Information Technology Attitudes and Competencies in Primary and Secondary Education	321
<i>Gerald Knezek and Rhonda Christensen</i>	
Introduction	321
Role of Attitudes	322
Requirements of Competency	322
Verification Through Standards and Tests	323
Concerns About Overstandardization	323
The Need for Asking Good Questions	324
Theoretical/Conceptual Foundations	324
Formal Models of Attitudes and Achievement	326
Self Report and Observation Measures for Determining Attitudes and Competencies Toward Technology	327
Summary and Conclusions	328
4.2 Information, Communications, and Educational Technology Standards for Students, Teachers, and School Leaders	333
<i>Lajeane G. Thomas and Donald G. Knezek</i>	
Rationale for Information and Communication Technology Standards	333
Establishing New Learning Environments Supported with Technology	335
ICT Standards for Students	335

Barriers to Adoption of Standards for Students	335
New Skill Sets for Teachers	337
ISTE National Educational Technology Standards for Teachers	339
ICT Standards for School and School-System Leaders of K-12 Education	341
Preparation of Specialists for Leadership in ICT	344
Essential Conditions to Support ICT in Educational Environments	345
Potential for Catalytic Change	345
Summary and Conclusions	347
4.3 Self-Report Measures and Findings for Information Technology Attitudes and Competencies	349
<i>Rhonda Christensen and Gerald Knezek</i>	
Introduction	349
Self-Report and Survey Research	349
Self-Report vs. Observation	350
Assessing the Magnitude of Self-Report Findings	351
Findings	352
Student Attitudes and Competencies	357
Discussion	359
Summary and Conclusions	359
4.4 Observation Measures for Determining Attitudes and Competencies Toward Technology	367
<i>Renate Schulz-Zander, Michael Pfeifer, and Andreas Voss</i>	
Introduction	367
Observation as an Approach to Researching IT Competencies and Attitudes	368
A Synthesis of Empirical Research Results	372
Conclusions	377
4.5 Computer Attitudes and Competencies Among Primary and Secondary School Students	381
<i>Martina Meelissen</i>	
Introduction	381
Measuring Computer Attitudes	382
Students' Computer Attitudes	384
The Influence of the Social Environment	386
Students' Computer Competencies	390
Summary and Prospects for Future Research	391

4.6 Characteristics of Teacher Leaders for Information and Communication Technology	397
<i>Margaret Riel and Henry Jay Becker</i>	
Introduction	397
Teacher Leadership and Professional Engagement	398
Describing a Route to Teacher Leadership	400
Teachers Leaders Represent the Highest Level of Professional Engagement	403
Variation in Professional Engagement: Findings from the TLC Study	404
Teacher Leaders’ Beliefs About Teaching and Learning	405
Leadership-Inspired Instruction	406
Teacher Leaders’ Use of Computers: TLC Study Findings	408
Studies of Teacher Leadership Among Technology-Expert Teachers	410
Dimensions of Teacher Technology Leadership	412
Toward a Culture of Teacher Leadership with Technology	414
Section 5 IT, Pedagogical Innovations, and Teacher Learning	421
<i>Section Editor: Nancy Law</i>	
5.1 Teacher Learning Beyond Knowledge for Pedagogical Innovations with ICT	425
<i>Nancy Law</i>	
Introduction	425
ICT as a “Disruptive” Force in Pedagogical Innovations	427
Teacher Learning for Pedagogical Innovation with ICT: Beyond Knowledge	429
Teacher Learning Through Innovations – Conceptualization of Support for Teacher Learning Beyond Knowledge	431
5.2 Benchmarks for Teacher Education Programs in the Pedagogical Use of ICT	435
<i>Paul Kirschner, Theo Wubbels, and Mieke Brekelmans</i>	
Introduction	435
The Pedagogy and Effects of Teacher Education	436
Benchmarks	438
Discussion	444
5.3 Factors Affecting Teachers’ Pedagogical Adoption of ICT	449
<i>Bridget Somekh</i>	
Insights from Socio-Cultural Theory	449
The Processes of Pedagogical Adoption of ICT	451
Examples of Transformative Pedagogies with ICT	453

The Shaping of ICT-Mediated Pedagogies by National Culture	455
Providing a Context that Supports the Pedagogic Adoption of ICT	457
Integrating Research with the Pedagogic Adoption of ICT	458
5.4 Models and Practices in Teacher Education Programs for Teaching with and about IT	461
<i>Anne McDougall</i>	
Introduction	461
Goals, Purposes and Aims of Teacher Education Programs	462
Structures and Strategies	466
Evaluation of Teacher Education and Professional Development Programs	471
Conclusion	472
5.5 Multimedia Cases, Teacher Education and Teacher Learning	475
<i>Ellen van den Berg, John Wallace, and Erminia Pedretti</i>	
Introduction	475
Cases, Teacher Learning and Knowledge	475
A Typology of Multimedia Cases: Primary, Secondary and Tertiary Use	480
Anchoring Multimedia Cases in Teacher Education Programs	483
Conclusions	485
5.6 Communities of Practice for Continuing Professional Development in the Twenty-First Century	489
<i>Chee-Kit Looi, Wei-Ying Lim, and Wenli Chen</i>	
Challenges that Teacher Professional Development Face	489
Community of Practice as an Effective Professional Development Strategy	490
CoPs for Continuing Professional Development in the Twenty-First Century	492
Online Community of Practice for Teachers' Professional Development	493
Design Tenets for Building CoPs in the Twenty-First Century	494
Technology Architecture Supporting Establishment of CoPs	498
Teacher Professional Identity Formation in CoPs	501
Conclusion	502
5.7 How May Teacher Learning Be Promoted For Educational Renewal with IT?	507
<i>Niki Davis</i>	
Introduction	507
A Global Perspective	508
Schools' Local Area as an Ecology	510

A School Perspective	511
The IT Coordinator	512
A Teacher Innovating with IT	513
Simultaneous Renewal of Preservice Teacher Education and K-12 Schools	515
Summary and Conclusions	516

Part Two

Section 6 IT in Schools	541
<i>Section Editor: Sara Dexter</i>	

6.1 Leadership for IT in Schools	543
<i>Sara Dexter</i>	

Introduction	543
Dimensions and Aims of IT Leadership	543
IT Leadership to Set Direction	545
IT Leadership to Develop People	546
IT Leadership to Make the Organization Work	548
Roles and Responsibilities in IT Leadership Teams	549
Conclusion	551

6.2 Framing IT Use to Enhance Educational Impact on a School-Wide Basis	555
<i>Peter Twining</i>	

Introduction – Importance of Consistent Understandings	555
Frameworks for Thinking About IT in Education	556
Achievement Frameworks	557
Cognitive Frameworks	559
Software Frameworks	559
Pedagogical Frameworks	563
Evolutionary Frameworks	568
Conclusions	574

6.3 Quality Support for ICT in Schools	579
<i>Neal Strudler and Doug Harrington</i>	

Introduction	579
Need for and Aspects of ICT Support	580
Teacher Professional Development	583
Staffing for ICT Support	585
Support Staff	588
Conclusions	593

6.4 Distributed Leadership and IT	597
<i>Nigel Bennett</i>	
Introduction	597
Analysing the Elements of ‘Leadership’	597
Moving on from ‘Top–Down’ Leadership	602
Distributed Leadership	603
So What? Distributed Leadership and IT in Schools	610
6.5 Total Cost of Ownership and Total Value of Ownership	615
<i>Kathryn Moyle</i>	
Introduction	615
Policy Contexts	616
Data-Driven Decision-Making	618
Measuring Data	619
Cost, Value and Impact	622
Conclusion	628
6.6 The Logic and Logic Model of Technology Evaluation	633
<i>Yong Zhao, Bo Yan, and Jing Lei</i>	
Introduction	633
A Critical Appraisal of the Evaluation Literature	635
Where Are We Now?	642
A Proposal for Moving Forward: A Logic Model for	
Evaluating Technology	644
Conclusion	651
Section 7 IT and Distance Learning in K-12 Education	657
<i>Section Editors: Roumen Nikolov and Iliana Nikolova</i>	
7.1 Distance Education in Schools: Perspectives and Realities	659
<i>Roumen Nikolov and Iliana Nikolova</i>	
Introduction	659
Defining the Area	660
The Phenomenon of ICT-Based Distance Education	
in K-12 Schools	661
The ICT-Driven Educational Reform	662
Virtual Learning Environments for ICT-Based DE	665
Pedagogical Dimensions for VLEs in ICT-Based Distance	
Education in K-12 Education	667
Effectiveness of ICT-Based Distance Education	669
The Future of ICT-Based Distance Education	670
Conclusions	672

7.2 Pedagogical Principles, Problems, and Possibilities in Online Global Classrooms	675
<i>Malcolm Beazley, Julie McLeod, and Lin Lin</i>	
Introduction	675
Pedagogical Principles	676
Problems	683
Possibilities	689
Concluding Remarks	691
7.3 Virtual Schools: Redefining “A Place Called School”	695
<i>M.D. Roblyer</i>	
Introduction: Virtual Schools as Defining Initiative	695
Background on Virtual Schooling	696
Current Virtual School Issues	701
Research on Virtual School Implementation and Impact	704
Challenges for the Future of Virtual Schools	706
Conclusion	709
7.4 Distance Learning – Enrichment: A Pacific Perspective	713
<i>John H. Southworth, Curtis P. Ho, and Shigeru Narita</i>	
Introduction	713
DL-E Applications in the 1970s	715
New Developments in the 1980s and 1990s	716
DL-E Projects in the Twenty-First Century	717
Fostering Cultural Awareness	719
Techniques for Classroom Technology Integration Using DL-E	720
Assessment of Added Value of DL-E	722
Concluding Remarks	722
7.5 Technology and Open Learning: The Potential of Open Education Resources for K-12 Education	725
<i>Neil Butcher and Merridy Wilson-Strydom</i>	
Introduction	725
Distance Education and Open Schooling	726
Open Learning	729
Technology and Open Learning	733
Open Education Resources (OER)	735
OERs in Action: A Practical Example from the K-12 Sector	741
Conclusion	742

7.6 Online Professional Development for Teachers	747
<i>Márta Turcsányi-Szabó</i>	
Introduction	747
Teacher Training in Europe and Beyond	749
Virtual and Distance Learning for Teachers	750
Trends in Knowledge Delivery	751
Lessons Learned in Asia and The Pacific Region	753
The Case of Hungary	754
Conclusion	758
Section 8 IT and the Digital Divide	763
<i>Section Editors: Thérèse Laferrière and Paul Resta</i>	
8.1 Issues and Challenges Related to Digital Equity	765
<i>Paul Resta and Thérèse Laferrière</i>	
Introduction	765
Conceptual Framework	766
Issues and Challenges	768
Conclusion	775
8.2 Gender and Information Technology	779
<i>E. Dianne Looker</i>	
Introduction	779
Identifying the Issues – The Developed World	779
Identifying the Issues – The Developing World	780
Why is This Important?	781
Educational Interventions	782
Conclusion	785
Further Research	786
8.3 Meeting the Learning Needs of All Learners Through IT	789
<i>Jutta Treviranus and Vera Roberts</i>	
Introduction	789
Assistive Technologies	789
Guidelines and Specifications	790
Accessibility Guidelines of the World Wide Web Consortium	790
Metadata	792
Matching the Resource to the Needs of the Learner Through Metadata	793
Transformation	795
Reusable Learning Resources	796
Content-Free Activity Templates	798

Accessibility in Practice	799
Challenges	800
Conclusions	800
8.4 Critical Success Factors in Moving Toward Digital Equity	803
<i>Joyce Pittman, Robert T. McLaughlin, and Bonnie Bracey-Sutton</i>	
Introduction	803
Example Cases: Initiatives that Have Made Progress in Moving Toward Digital Equity in Different Global Contexts	804
Success Factors for Moving Toward Digital Equity	812
Future Trends and Challenges in Moving Toward Digital Equity	814
8.5 The Relationship of Technology, Culture, and Demography	819
<i>Loriene Roy, Hsin-liang Chen, Antony Cherian, and Teanau Tuono</i>	
Introduction	819
Historic Information on Incorporation of Technology by Indigenous Peoples	819
What Are the Relations Between IT and Indigenous Cultures?	822
A Final Word: Cultural Protocol and Balancing Local Control and Access to Intellectual Content	829
8.6 Global Partnerships Enhancing Digital and Social Equity	833
<i>Ian W. Gibson</i>	
Shrinking World: Global Responsibility	833
The Potential of Technology in Redefining Access to Learning Opportunities	834
Benefits of International Participation: An Example	836
Preparing Teachers for the Future: A Focus on Teacher Education	840
Benefits and Conclusions	842
Section 9 Emerging Technologies for Education	847
<i>Section Editors: Cathleen Norris and Elliot Soloway</i>	
9.1 An Instructional Model That Exploits Pervasive Computing	849
<i>Cathleen Norris and Elliot Soloway</i>	
Introduction	849
The Current Situation: Limited-Access Computing	850
The Transition to Pervasive Computing: Predicting a Disruption	850
The Elements of a Pervasive Computing Infrastructure	851
Pervasive Computing Enables Project-Based Learning	852

An Example of Virtual Learning Environment to Support Project-Based Learning	854
Concluding Remarks	859
9.2 M-Learning in Africa: Doing the Unthinkable and Reaching the Unreachable	861
<i>Tom H. Brown</i>	
Introduction	861
Why M-Learning in Africa?	862
Overview of Current M-Learning Activities in Africa	863
Examples of M-Learning in Africa	864
Premises for M-Learning in Africa: Lessons Learnt from Pilot Studies at the University of Pretoria	867
Conclusion	870
9.3 Personal, Mobile, Connected: The Future of Learning	873
<i>Mark van't Hooft</i>	
Introduction	873
Rethinking Teaching, Learning, and Technology	875
Rethinking Teaching	875
Rethinking Learning	876
Rethinking Technology	877
An Example	878
Conclusion	879
9.4 Use of Wireless Mobile Technology to Bridge the Learning Divide	883
<i>Mohamed Ally</i>	
Introduction	883
Capabilities of Wireless Mobile Technology	884
The Design of Learning Materials for Wireless Mobile Technology Devices	884
Use of Wireless Mobile Technologies in Practice	886
Conclusion	887
9.5 Information Technologies for Informal Learning in Museums and Out-of-School Settings	891
<i>Sherry Hsi</i>	
Introduction	891
IT Transforming Informal Learning Institutions	892
IT Extending the Museum Experience (Pre- and Post Activities)	893
IT for Distant Learners and Browsers of Museum Experience	894
Informal Learning Transforming IT Activities	896
Trends for the Future	898

9.6 Emerging Technologies for Collaborative, Mediated, Immersive Learning	901
<i>Jody Clarke, Chris Dede, and Ed Dieterle</i>	
Introduction	901
How Collaborative Mediated Immersion Helps Teaching and Learning	902
Multi-user Virtual Environments	903
Augmented Reality	905
Conclusion	907
9.7 Three-Dimensional Computer-Based Online Learning Environments	911
<i>James G. Jones and Scott J. Warren</i>	
Introduction	911
3D Computer-Based Multiuser Online Environments	911
Educational Environments	913
Cognitive Scaffolding	916
Educational Affordances	916
The Future of and Barriers to Educational Integration	917
9.8 Trace Theory, Coordination Games, and Group Scribbles	921
<i>Charles M. Patton, Deborah Tatar, and Yannis Dimitriadis</i>	
Coordination in Learning	921
Group Scribbles	922
Group Scribbles and Coordination: Key Aspects of Design	
Enable a Focus on Coordination	925
Using Trace Theory to Describe and Specify Coordination	
Structures in Group Scribbles	927
Alternative Versions of the Jigsaw Pattern	930
Summary, Conclusions, and Future Research	932
9.9 One-to-One Educational Computing: Ten Lessons for Successful Implementation	935
<i>Kyle Peck and Karl Sprenger</i>	
Introduction	935
Lesson One: Focus on an Expanded Educational Vision	936
Lesson Two: Expand Participation and Commitment	936
Lesson Three: Think Software, THEN Hardware	937
Lesson Four: Embrace Professional Development	938
Lesson Five: Re-assess Infrastructure Needs	938
Lesson Six: Focus on Functionality and an “Always Up”	
Learning Environment	939
Lesson Seven: Minimize the Number of Vendors	939
Lesson Eight: Have an Insurance Plan	939
Lesson Nine: Be Prepared to Add Technical Support Staff	940

Lesson Ten: Assess Morale and Prepare for Turbulence	940
Conclusion	941
9.10 Making the Most of One-to-One Computing in Networked Classrooms	943
<i>William R. Penuel</i>	
Potential of Classroom Networks	943
Which Way the Future?	947
9.11 Graphing Calculators: Enhancing Math Learning for All Students	951
<i>Jeremy Roschelle and Corrine Singleton</i>	
Introduction	951
Features of Graphing Calculators	952
Alignment of Graphing Calculators with Standards and Practices	953
Pedagogical Affordances of Graphing Calculators	954
Research on Graphing Calculators	955
Discussion and Conclusion	957
Section 10 Researching IT in Education	963
<i>Section Editor: Margaret J. Cox</i>	
10.1 Researching IT in Education	965
<i>Margaret J. Cox</i>	
Introduction	965
Evolution of IT Resources	966
Uptake of IT in Education	970
Measuring Learning and Motivation	971
Teachers' Beliefs and Practices	972
National and International Contexts	974
Complexity of Researching IT in Education	976
Conclusions	977
10.2 Research Methods: Their Design, Applicability and Reliability	983
<i>Gail Marshall and Margaret J. Cox</i>	
Introduction	983
Research Goals	984
To Measure the Impact of IT on Learning	985
Uptake of IT by Schools and Teachers	985
Effects of IT on Learning Strategies and Processes	986
Effects of IT on Collaboration and the Learning Context	986
Attitudes Towards Computers in Education	986
Effects of IT on Pedagogies and Practices of the Teachers	987

Computer Use by Girls vs. Boys	987
Contribution of IT to Enhancing Access and Learning for Special Needs	987
Total Operating Costs and Cost Effectiveness	988
Epistemological Theories and Research Design	988
Standards for Research	992
Formative and Summative Studies	994
Critical Factors	997
Conclusions	997
10.3 Measuring the Impact of Information Technology on Students' Learning	1003
<i>Rachel M. Pilkington</i>	
Introduction	1003
Impact of IT on Learning – Experimental Research Designs	1003
Impact on Learning – Survey-Based Approaches	1006
Impact on Learning – Case Studies and Meta-Analyses	1008
Future Schools: Making Progress and Managing Change	1012
Revisiting Learning Theory: Issues for Design	1013
Conclusions	1015
10.4 Large-Scale Studies and Quantitative Methods	1019
<i>Yuen-Kuang Cliff Liao and Yungwei Hao</i>	
The Meta-analysis Research Method	1019
Review of Studies of Meta-analysis on Information Technology in Education	1022
Evidence Outcomes Achieved Through Meta-analysis on Information Technology in Education	1028
Meta-Analysis on Information Technology in Education: To Use, or Not to Use?	1031
10.5 Evaluation of the Design and Development of IT Tools in Education	1037
<i>Thomas C. Reeves</i>	
Evaluation of the Design and Development of IT Tools in Education	1037
Background	1038
Formative Evaluation	1038
Summative Evaluation	1040
Contemporary Approaches to Evaluating IT Tools in Education	1041
A Decision-Oriented Rationale for Evaluation	1042
Primary Components of an Evaluation Plan	1044
Evaluation Reporting	1046
The Future of Evaluation of IT Tools in Education	1046

10.6	Methods for Large-Scale International Studies on ICT in Education	1053
	<i>Willem Pelgrum and Tjeerd Plomp</i>	
	Introduction	1053
	Historical Sketch of ICT-Related WISCEAs	1055
	Questions Underlying ICT-Related WISCEAs	1056
	Conceptual Frameworks	1057
	Design Issues	1058
	Potential Outputs of ICT-Related WISCEAs:	
	The Example of SITES 2006	1063
	Recommendations for Future ICT-Related WISCEAs	1064
	Reflections	1065
Section 11	International and Regional Programs and Policies	1069
	<i>Section Editor: Jef Moonen</i>	
11.1	Evolution of IT and Related Educational Policies in International Organisations	1071
	<i>Jef Moonen</i>	
	Evolution of IT and its Potential Impact on Educational Policy	1071
	An Overview of Policy Support by International Organizations	1073
	A Framework to Categorize Educational Policies in Relation to the Introduction of IT	1076
11.2	Comparative Analysis of Policies for ICT in Education	1083
	<i>Robert B. Kozma</i>	
	International Significance of ICT Policy	1083
	The Rationale for Strategic Policy for Educational ICT	1084
	Strategic Educational ICT Policy Rationales	1085
	Operational Components of ICT Policies	1089
	Policy Recommendations	1091
11.3	ICT and Educational Policy in the European Region	1097
	<i>Claudio Delrio and Claudio Dondi</i>	
	Socioeconomic, Educational and Cultural Context	1097
	Rationales and Influencing Factors for a Policy About ICT in Education	1099
