2 CTNA Conceptual Foundations: A Brief History  
  of Psychological and Neuropsychological Assessment  
  Feedback ............................................................... 23  
  Background of Neuropsychological Test Feedback ............... 23  
    Luria’s Neuropsychological Investigation ...................... 23  
    Recommendations for Giving Neuropsychological Test Feedback ......................................................... 25  
    Psychological Testing as a Therapeutic Intervention .......... 26  
    Collaborative Individualized Assessment ....................... 28  
    Therapeutic Assessment ......................................... 29  
    Summary of Psychological Testing as a Therapeutic Intervention ......................................................... 30  
  Contemporary Applications of Therapeutic Assessment and Neuropsychology .......................................... 31  
    Therapeutic Neuropsychological Assessment  
      (Gorske, 2008) ................................................... 31  
  Pilot Study Results .................................................. 33  
    Collaborative Neuropsychological Assessment ................. 35  
    The Neuropsychology Case Conference ........................ 37
### 3 A Collaborative Therapeutic Neuropsychological Assessment Model
- Basic Assumptions of CTNA

### 4 The Initial Interview: Collaborative Information Gathering
- Conducting the Initial Interview
  - Understanding the Problem
  - Understanding the Emotional Experience of the Problem
  - The Central Cognitive-Emotional Complaint
  - Understanding the Patient’s Wishes for the Assessment, Results, and Outcomes
  - Summary and Moving to the Assessment

### 5 The CTNA Feedback Session
- CTNA Feedback Conceptual Basis
- Therapeutic/Individualized Models of Psychological Assessment
- Neuropsychological Test Feedback Recommendations
- Motivational Interviewing Principles (Miller and Rollnick, 2002)
- The Feedback Process in MI
- Evidence for the Effectiveness of Brief Feedback
- The Format of a CTNA Feedback Session
  - Step 1: Setting the Agenda and Introducing the Feedback Report
  - Step 2: Develop Life Implications Questions
  - Step 3: Determining a Personal Skill Profile
  - Step 4: Individual Test Results: Feedback About Personal Strengths and Weaknesses
  - Step 5: Summarizing the Relationship Between Tests Results, Life Areas, and Patient Questions
  - Developing a Change Plan and Providing Recommendations

### 6 Putting It All Together: Two CTNA Case Examples
- Case #1. Dementia or Pseudodementia?
- Case #2: Brian’s Brain

### 7 Applications of CTNA Methods
- General Clinical Practice
- Rehabilitation Methods
- Teaching
- Future Research
- CTNA and Cultural Issues
