
Contents

1	Introduction	1
1.1	What Are Wavelets?	1
1.2	Why Use Wavelets?	2
1.3	Why Wavelets in Statistics?	11
1.4	Software and This Book	13
2	Wavelets	15
2.1	Multiscale Transforms	15
2.2	Haar Wavelets (on Functions)	28
2.3	Multiresolution Analysis	37
2.4	Vanishing Moments	40
2.5	<code>waveThresh</code> Wavelets (and What Some Look Like)	41
2.6	Other Wavelets	45
2.7	The General (Fast) Discrete Wavelet Transform	50
2.8	Boundary Conditions	55
2.9	Non-decimated Wavelets	57
2.10	Multiple Wavelets	66
2.11	Wavelet Packet Transforms	68
2.12	Non-decimated Wavelet Packet Transforms	75
2.13	Multivariate Wavelet Transforms	76
2.14	Other Topics	78
3	Wavelet Shrinkage	83
3.1	Introduction	83
3.2	Wavelet Shrinkage	84
3.3	The Oracle	85
3.4	Test Functions	88
3.5	Universal Thresholding	88
3.6	Primary Resolution	96
3.7	SURE Thresholding	96
3.8	Cross-validation	98

3.9	False Discovery Rate	100
3.10	Bayesian Wavelet Shrinkage	101
3.11	Linear Wavelet Smoothing	109
3.12	Non-Decimated Wavelet Shrinkage	110
3.13	Multiple Wavelet Shrinkage (Multiwavelets)	118
3.14	Complex-valued Wavelet Shrinkage	120
3.15	Block Thresholding	128
3.16	Miscellanea and Discussion	130
4	Related Wavelet Smoothing Techniques	133
4.1	Introduction	133
4.2	Correlated Data	133
4.3	Non-Gaussian Noise	138
4.4	Multidimensional Data	140
4.5	Irregularly Spaced Data	143
4.6	Confidence Bands	150
4.7	Density Estimation	155
4.8	Survival Function Estimation	158
4.9	Inverse Problems	163
5	Multiscale Time Series Analysis	167
5.1	Introduction	167
5.2	Stationary Time Series	169
5.3	Locally Stationary Time Series	174
5.4	Forecasting with Locally Stationary Wavelet Models	192
5.5	Time Series with Wavelet Packets	197
5.6	Related Topics and Discussion	198
6	Multiscale Variance Stabilization	201
6.1	Why the Square Root for Poisson?	202
6.2	The Fisz Transform	203
6.3	Poisson Intensity Function Estimation	206
6.4	The Haar–Fisz Transform for Poisson Data	207
6.5	Data-driven Haar–Fisz	217
6.6	Discussion	227
A	R Software for Wavelets and Statistics	229
B	Notation and Some Mathematical Concepts	231
B.1	Notation and Concepts	231
C	Survival Function Code	235
	References	237
	Index	253
