Contents

1 Introduction ............................................................................. 1
Alex R. Piquero and David Weisburd

Part I-A Descriptive Approaches for Research and Policy: Innovative
Descriptive Methods for Crime and Justice Problems

2 Crime Mapping: Spatial and Temporal Challenges ....................... 5
Jerry Ratcliffe

3 Look Before You Analyze: Visualizing Data in Criminal Justice ........ 25
Michael D. Maltz

4 Group-Based Trajectory Modeling: An Overview ....................... 53
Daniel S. Nagin

5 General Growth Mixture Analysis with Antecedents
and Consequences of Change ..................................................... 69
Hanno Petras and Katherine Masyn

6 Spatial Regression Models in Criminology: Modeling Social
Processes in the Spatial Weights Matrix ....................................... 101
George E. Tita and Steven M. Radil

7 Mixed Method Research in Criminology: Why Not Go Both Ways? ........ 123
Shadd Maruna

Part I-B Descriptive Approaches for Research and Policy: New Estimation
Techniques for Assessing Crime and Justice Policy

8 Estimating Costs of Crime ..................................................... 143
Mark A. Cohen and Roger Bowles
9 Estimating Treatment Effects: Matching Quantification to the Question ................................................................. 163
   Thomas A. Loughran and Edward P. Mulvey

10 Meta-analysis ................................................................................................................................. 181
    David B. Wilson

11 Social Network Analysis .............................................................................................................. 209
    Jean Marie McGloin and David S. Kirk

12 Systematic Social Observation in Criminology ............................................................. 225
    Stephen D. Mastrofski, Roger B. Parks, and John D. McCluskey

Part II New Directions in Assessing Design, Measurement and Data Quality

13 Identifying and Addressing Response Errors in Self-Report Surveys .......... 251
    James P. Lynch and Lynn A. Addington

14 Missing Data Problems in Criminological Research ........................................ 273
    Robert Brame, Michael G. Turner, and Ray Paternoster

15 The Life Event Calendar Method in Criminological Research ..................... 289
    Jennifer Roberts and Julie Horney

16 Statistical Power .......................................................................................................................... 313
    Chester L. Britt and David Weisburd

17 Descriptive Validity and Transparent Reporting in Randomised Controlled Trials ................................................................. 333
    Amanda E. Perry

18 Measurement Error in Criminal Justice Data ............................................................ 353
    John Pepper, Carol Petrie, and Sean Sullivan

19 Statistical Models of Life Events and Criminal Behavior .......................... 375
    D. Wayne Osgood

Part III-A Estimation of Impacts and Outcomes of Crime and Justice:
Topics in Experimental Methods

20 An Introduction to Experimental Criminology .............................................................. 399
    Lawrence W. Sherman

21 Randomized Block Designs ................................................................................................. 437
    Barak Ariel and David P. Farrington

22 Construct Validity: The Importance of Understanding the Nature of the Intervention Under Study ................................................................. 455
    John S. Goldkamp
## Contents

### Part II: Estimation of Impacts and Outcomes of Crime and Justice: Experimental Approaches to Explaining Crime and Justice Outcomes

23 **Place Randomized Trials** .............................................................. 481
   *Robert Boruch, David Weisburd, and Richard Berk*

24 **Longitudinal-Experimental Studies** .................................................. 503
   *David P. Farrington, Rolf Loeber, and Brandon C. Welsh*

25 **Multisite Trials in Criminal Justice Settings: Trials and Tribulations of Field Experiments** ............................................... 519
   *Faye S. Taxman and Anne Giuranna Rhodes*

### Part III-B Estimation of Impacts and Outcomes of Crime and Justice: Innovation in Quasi-Experimental Design

26 **Propensity Score Matching in Criminology and Criminal Justice** ................ 543
   *Robert J. Apel and Gary Sweeten*

27 **Recent Perspectives on the Regression Discontinuity Design** .................... 563
   *Richard Berk*

28 **Testing Theories of Criminal Decision Making: Some Empirical Questions about Hypothetical Scenarios** ............................................. 581
   *M. Lyn Exum and Jeffrey A. Bouffard*

29 **Instrumental Variables in Criminology and Criminal Justice** .................... 595
   *Shawn D. Bushway and Robert J. Apel*

### Part III-C Estimation of Impacts and Outcomes of Crime and Justice: Non-Experimental Approaches to Explaining Crime and Justice Outcomes

30 **Multilevel Analysis in the Study of Crime and Justice** ............................. 615
   *Brian D. Johnson*

31 **Logistic Regression Models for Categorical Outcome Variables** .................. 649
   *Chester L. Britt and David Weisburd*

32 **Count Models in Criminology** ......................................................... 683
   *John M. MacDonald and Pamela K. Lattimore*

33 **Statistical Analysis of Spatial Crime Data** ...................................... 699
   *Wim Bernasco and Henk Elffers*

34 **An Introduction to Statistical Learning from a Regression Perspective** .......................................................... 725
   *Richard Berk*

35 **Estimating Effects over Time for Single and Multiple Units** .................... 741
   *Laura Dugan*

Index ........................................................................................... 765
Handbook of Quantitative Criminology
Piquero, A.R.; Weisburd, D. (Eds.)
2010, XIII, 787 p. 94 illus., Hardcover
