|   |    |
|---|----|
| <b>1 Measurement in Human Service Enterprises: History and Challenges</b> ..... | 1  |
| Differences Between Measurement in Science and Commerce.....                    | 3  |
| The History and Definition of Measurement.....                                  | 6  |
| Problems that Result from the Development of Measures by Normal Science .....   | 7  |
| Measurement as Communication .....  | 8  |
| Communication Theory and Measurement .....                                      | 9  |
| Communimetrics and the Philosophy of Science.....                               | 11 |
| Organization of the Book .....  | 18 |
| <b>2 Measurement as Communication</b> .....                                     | 19 |
| A Brief Review of Current Theories of Measurement .....                         | 19 |
| Classical Test Theory .....   | 19 |
| Item Response Theory.....   | 22 |
| Clinimetrics .....  | 23 |
| Comparison of Communimetrics to Psychometrics and Clinimetrics .....            | 25 |
| Input Processes in Measurement .....  | 25 |
| The Output Process in Measurement.....  | 26 |
| The Relationship of Input and Output Process.....                               | 28 |
| Input and Output Processes in Human Service Enterprises .....                   | 29 |
| Principles of Communimetrics.....   | 30 |
| Each Item Has Implications for Differential Action .....                        | 30 |
| Levels of Items Translate Immediately to Action .....                           | 31 |
| Considering Context.....  | 33 |
| Measurement is Descriptive .....  | 37 |
| Use of Time Frames (Windows of Observation).....                                | 38 |
| Information Integration .....   | 39 |
| Exploring Myths in Measurement.....   | 42 |

**3 Designing a Communimetric Measure**..... 45

Phase 1. Defining the Objectives..... 46

Phase 2. Determine the Audiences: Those Participating  
in the Communication Process..... 48

Phase 3. Selecting Items..... 50

Phase 4. Create Action Levels for the Items ..... 51

Phase 5. Develop Anchored Definitions of Action Levels  
for Each Item..... 53

    Danger to Self..... 53

    Antisocial Behavior (Compliance with Society’s Rules)..... 54

Phase 6. Share Draft Items for Feedback  
from Audience Representatives ..... 55

Phase 7. Test the Tool in a Field Application..... 56

Phase 8. Implement ..... 57

    Immediate Widespread..... 57

    Planned Incremental..... 58

    Individual/Gradual..... 59

    Working the Organization ..... 59

    Super User Programs..... 60

Phase 9. Repeat the Processes in Phases 1 to 6 During  
the Course of Service Delivery ..... 61

    Building Decision Models..... 62

Summary ..... 65

**4 Defining a “Good” Communimetric Measurement Tool:  
Reliability and Validity Considerations** ..... 67

Reliability ..... 67

    Internal Consistency ..... 68

    Test–Retest ..... 70

    Inter-rater..... 71

Audit Reliability ..... 73

Validity ..... 74

    Utility Validity ..... 76

    Relevance to the work ..... 77

    Transparency ..... 77

    Multiple purposes..... 78

    Correspondence to sociopolitical considerations ..... 79

Indicators of Utility Validity ..... 80

    Respondent satisfaction..... 80

    Relationship to subsequent action..... 80

    Use penetration..... 81

    Impact evaluation ..... 81

Decision Validity ..... 83

    Enhancing the Reliability and Validity Through Training ..... 86

Field audit..... 87

Enhancing the Reliability and Validity Through Use..... 87

The Convergence of Communimetric and Psychometric  
Approaches with the Use of Aggregate Item Analyses..... 88

Comparing Versions ..... 89

Severity and Complexity ..... 90

**5 The Child and Adolescent Needs and Strengths ..... 93**

A Developmental History..... 93

Measurement Characteristics of the Child and Adolescent  
Needs and Strengths ..... 102

Reliability ..... 102

Validity ..... 103

Scoring Options..... 104

Psychometric Scale Properties ..... 104

Rasch Modeling the Child and Adolescent Needs and Strengths ..... 106

Decision Support for Level of Care and Intensity of Services..... 110

CANS and Level of Care Recommendations ..... 113

Using CANS Scores to Assess Change Overtime:  
Outcome Applications..... 121

Implementation Experiences ..... 124

Matching Child Needs to Specific Providers ..... 127

**6 The Intermed..... 135**

Development of the INTERMED..... 138

Design of the INTERMED..... 139

History..... 140

Biological Domain ..... 140

Psychological Domain..... 140

Social Domain ..... 140

Health Care Domain..... 140

Current State..... 141

Biological Domain ..... 141

Psychological Domain..... 141

Social Domain ..... 141

Health Care Domain..... 141

Prognosis ..... 141

Biological Domain ..... 141

Psychological Domain..... 142

Social Domain ..... 142

Health Care Domain..... 142

Establishing Action Levels..... 142

Reliability and Validity..... 144

Training and Use ..... 145

- 7 The Entrepreneurial League System Assessment** ..... 147
  - The Entrepreneurial League System Assessment ..... 148
  - Item Structure ..... 149
  - Recommended Assessment Process ..... 150
  - Psychometric Characteristics of the ELSA ..... 151
    - Impact Analysis ..... 152
    - Qualitative Analyses ..... 155
  
- 8 The Future of Measurement in Human Services Settings**..... 157
  - An Integrative Model of Measurement ..... 157
  - Understanding Transformational Offerings..... 159
  - Academic and Field Collaborations ..... 159
  - Mass Collaboration and Measurement Design, Development, and Use ..... 160
  - Increasing the Use of Measurement in Human Services Enterprises..... 165
    - The Application of Information Technology ..... 165
    - Creating Innovative Applications of Measurement ..... 166
    - Creating Consumers of Information ..... 168
  
- References** ..... 169
- Appendix** ..... 177
- Index** ..... 221
