## PART I. IN VITRO SYSTEMS FOR STUDYING ASPECTS OF THE INFLAMMATORY RESPONSE AND TESTING ANTIINFLAMMATORY DRUGS

1. Key Stages in the Acute Inflammatory Response and Their Relevance as Therapeutic Targets: Introduction to Part I
   **Paul G. Winyard** ...................................................................................................... 3

2. IκB Kinase and NF-κB Signaling in Response to Pro-Inflammatory Cytokines
   **Mireille Delhase** .................................................................................................... 7

3. Screening for Inhibitors of Transcription Factors Using Luciferase Reporter Gene Expression in Transfected Cells
   **Deborah Phippard and Anthony M. Manning** ........................................................ 19

4. Adhesion Molecule Expression on Cytokine-Stimulated Human Endothelial Cells
   **Susan L. Cuvelier and Kamala D. Patel** .............................................................. 25

5. Phagocytosis by Inflammatory Phagocytes: Experimental Strategies for Stimulation and Quantification
   **M. Rachel Morris, Sharon Dewitt, Iraj Laffafian, and Maurice B. Hallett** ............... 35

6. Cytosolic Ca²⁺ Measurement and Imaging in Inflammatory Cells
   **Sharon Dewitt, Iraj Laffafian, M. Rachel Morris, and Maurice B. Hallett** ............... 47

7. Detection and Visualization of Oxidase Activity in Phagocytes
   **Maurice B. Hallett, Caroline Cole, and Sharon Dewitt** ........................................... 61

8. Measurement of Complement Activation
   **Tom Eirik Molnes** .................................................................................................. 69

   **Linda Troeberg and Hideaki Nagase** .................................................................... 77

Contents

22. Models of Coronary Artery Occlusion and Reperfusion for the Discovery of Novel Antischemic and Antiinflammatory Drugs for the Heart
   Nicole S. Wayman, Michelle C. McDonald, Prabal K. Chatterjee, and Christoph Thiemermann ........... 199

23. Assessment of Anticolitic Drugs in the Trinitrobenzene Sulfonic Acid (TNBS) Rat Model of Inflammatory Bowel Disease
   Brendan J. R. Whittle, Maryan Cavicchi, and Dominique Lamarque ............................................... 209

24. An In Vivo Model of Ischemia/Reperfusion and Inflammation of the Kidneys of the Rat
   Prabal K. Chatterjee and Christoph Thiemermann ................................................................. 223

25. In Vivo Models of Inflammation: Immune Rejection and Skin Transplantation In Vivo
   Isabelle Binet and Kathryn J. Wood .................................................. 239

26. Wound Healing: A Model of Dermal Wound Repair
   Annette Tomlinson and Mark W. J. Ferguson .......................................................... 249

PART III. PHARMACODYNAMIC ENDPOINTS IN EXPERIMENTAL MODELS AND IN CLINICAL STUDIES IN HUMANS

27. An Iconoclastic Approach to Pharmacodynamics in Model Systems: Their Relevance to Humans: Introduction to Part 3
   David R. Blake and Gordon J. Taylor .................................................. 263

28. A Reply to “An Iconoclastic Approach to Pharmacodynamics in Model Systems: Their Relevance to Humans”
   Derek A. Willoughby ................................................................. 269

29. Quantifying Inflammation In Vivo Using Radiolabeled Antibodies and Leukocytes
   Diane Marshall and Dorian O. Haskard .................................................. 273

30. Immunoperoxidase Histochemistry for the Detection of Cellular Adhesion Molecule, Cytokine, and Chemokine Expression in the Arthritic Synovium
   Zoltan Szekanecz and Alisa E. Koch .................................................. 283

31. Roles of Nitric Oxide and Superoxide in Inflammation
   Daniela Salvemini, Harry Ischiropoulos, and Salvatore Cuzzocrea ........................................... 291

32. Analysis of Nitrite and Nitrate in the Study of Inflammation
   Claire A. Davies, Sophie A. Rocks, Meg C. O’Shaughnessy, David Perrett, and Paul G. Winyard .................................................. 305
33. In Vivo Assays for COX-2
   Chi-Chung Chan .......................................................... 321

34. Measurement of 8-epi-PG_{2\alpha} as a Marker of Lipid Peroxidation
   In Vivo by Immunoaffinity Extraction
   and Gas Chromatography-Mass Spectrometry
   Nitin K. Gopaul and Erik E. Ånggård ............................. 329

35. Laboratory Assessment of the Acute Phase Response:
   Using CRP as a Model
   Robert F. Ritchie and Thomas B. Ledue ......................... 343

36. Assays of Matrix Metalloproteinases (MMPs) and MMP Inhibitors:
   Bioassays and Immunoassays
   Applicable to Cell Culture Medium, Serum, and Synovial Fluid
   Jon B. Catterall and Tim E. Cawston ............................. 353

Index .................................................................................. 365
Inflammation Protocols
