# TABLE OF CONTENTS

**PREFACE** ix

**INTRODUCTION** 1

Part A: The Historical Question 1

1. Gallileo’s Challenge 1

2. The Correspondence 2

3. Hooke’s Programme 10

Part B: The Historiographic Difficulty 12

4. Hooke vs. Newton 12

5. The Genius vs. The Mechanic 14

**CHAPTER 1: INFLECTION** 17

Introduction: The Bad Ending 17

Part A: The Novelty 19

1. Hooke’s Programme 19

2. Setting the Question Right 22

Part B: Employing *Inflection* 33

3. Inflection 34

4. Application as Manipulation 35

Part C: Producing *Inflection* in the Workshop 42

5. Construction 44

6. Implementation 53

7. Tentative Conclusion 57

**1ST INTERLUDE: PRACTICE** 59

1. Introduction – Methodological Lessons 59

2. Hacking 63

3. The Realism Snare 69

**CHAPTER 2: POWER** 83

Part A 83

1. Introduction 83

2. De Potentia Restitutiva, or: Of Spring 86
CONTENTS

Part B
3. Horology 102
4. The Spring Watch 108
5. Springs and Forces 121

Part C
6. The Origins of the Vibration Theory 127
7. Of Spring again 131
8. Springs as a Topos 137

2ND INTERLUDE: REPRESENTATION 143
1. Rorty 143
2. 'Knowledge Of' and 'Knowledge That' 152
3. Hacking and Rorty 159

CHAPTER 3: NEWTON'S SYNTHESIS 165
1. Introduction 165
2. Newton Before and After 168
3. Hooke's Programme Revisited 200

NOTES 207
Introduction 207
Chapter 1: Inflection 207
1st Interlude: Practice 210
Chapter 2: Clocks, Pendulums and Springs 211
2nd Interlude: Representation 213
Chapter 3: Newton's Synthesis 214

BIBLIOGRAPHY 219
