## Contents

### Part I  Ecohealth: The Ecosystem Approach to Human Health

1 **Exploring the Linkages Between Ecosystems and Human Health** ........................... 3
   1.1 Introduction ........................................ 3
   1.2 Ecosystem Services and Human Health .................. 7
   1.3 Land Fragmentation and Health .......................... 9
   1.4 Water Resource Development and Health ............... 10
   1.5 Urbanization and Health ................................. 12
   1.6 Modern Food Production Systems and Health .......... 13
   1.7 Climate Change and Health .............................. 14
   1.8 Wars, Conflicts and Health ............................. 16
   1.9 Conclusion ............................................. 16
   References ............................................... 17

2 **Evolution Towards an Ecosystem Approach to Public Health** .............................. 21
   2.1 Introduction ........................................... 21
   2.2 “Old” Public Health and the Biomedical Approach ...... 22
   2.3 The “New” Public Health and Ecological Approaches .... 25
   2.4 Integrated Approaches to Natural Resource Management .... 27
   2.5 Making the Links with Sustainable Development .......... 29
   2.6 Modeling Human Health from an Ecosystem Perspective ... 30
   2.7 Towards Critical Public Health .......................... 33
   2.8 Conclusion ............................................. 34
   References ............................................... 34

3 **Ecosystem Approaches to Human Health: Key Concepts and Principles** ................ 37
   3.1 Introduction ........................................... 37
   3.2 The Concept of Human Health ............................ 40
   3.3 The Concept of Ecosystem ............................... 41
   3.4 Assessing the Health of Ecosystems ..................... 43
3.5 The Ecosystem Approach to Human Health: Key Issues  
3.6 The Ecohealth Research Framework  
3.6.1 Integrating Transdisciplinary, Indigenous, and Stakeholder Perspectives  
3.6.2 Making use of Collaborative and Inclusive Processes  
3.6.3 Taking Heterogeneity and Difference into Account  
3.6.4 Historicizing Environment and Health Problems  
3.6.5 Infusing Critical Social Theory into Ecohealth Research  
3.7 Conclusion  
References  

Part II Methodological Approaches and Processes for Conducting Ecohealth Research  

4 Community-Based Participatory Research for Ecohealth  
4.1 Introduction  
4.2 Participatory Action Research  
4.3 Being Critical About Participatory Research Approaches  
4.3.1 Being Critical About “Community”  
4.3.2 Being Critical about “Participation”  
4.3.3 Being Critical About “Empowerment”  
4.4 Conclusion  
References  

5 The Process of Conducting an Ecohealth Research Project: A Participatory Action Research Approach  
5.1 Introduction  
5.2 Gaining Entry into the Research Community  
5.3 Forming a Transdisciplinary Research Team  
5.4 Recruiting Research Participants  
5.5 Data Gathering Processes  
5.6 Focus Group Discussions  
5.7 Follow-up and In-depth Individual Interviews  
5.8 Strategic Planning for a Healthy Community  
5.9 Steps to Planning for a Healthy Community  
5.9.1 Step 1: Mapping Out a Vision for a Healthy Community  
5.9.2 Step 2: Analysing Underlying Obstacles and Barriers to Achieving a Healthy Community  
5.9.3 Step 3: Identifying Appropriate Strategic Directions for a Healthy Community  
References
5.9.4 Step 4: Identifying Systematic Actions and Assessing Community Capacity 82
5.9.5 Step 5: Developing an Implementation Schedule and Carrying Out Proposed Actions 82
5.10 Site Visits 83
5.11 Secondary Data Sources 83
5.12 Data Management and Analysis 83
5.13 Conclusion 84
References 85

Part III Case Studies: Application of the Ecohealth Approach

6 Applying an Ecosystem Approach to Community Health Research in Ghana: A Case Study 89
6.1 Introduction 89
6.2 Health and Environment Challenges of the Study Community 91
6.3 Making Use of an Ecosystem Approach to Community Health Research 93
6.4 Forming a Transdisciplinary Research Team and Setting the Research Agenda 94
6.5 Findings of the Study 95
6.5.1 Community Members’ Perceptions of Health and Poor Health 95
6.5.2 Indicators of Good Health and Poor Health 97
6.5.3 Identifying Major Community Health Problems 98
6.5.4 Examining the Underlying Causes of Poor Health in the Community 100
6.6 Analysing Participants Responses from a Political Ecology of Health Perspective 102
6.7 Conclusion 106
References 106

7 Planning for a Healthy Community: A Case Study – Phase II 109
7.1 Introduction 109
7.2 Mapping Out A Vision for a Healthy Community 111
7.3 Identifying Obstacles to Achieving a Healthy Community 114
7.4 Assessing Our Strengths and Resources 117
7.5 Identifying Strategic Directions and Systematic Actions for a Healthy Community 118
7.5.1 Building Community Capacity to Manage Local Environments Sustainably 119
7.5.2 Strengthening Intersectoral Collaboration 120
## 7.5.3 Broadening the Concept of Community Participation

7.5.4 Communicating Environment and Health Information Effectively

7.5.5 Building on Local Knowledge Systems

### 7.6 Building Community Capital: Integrating the Strategic Directions

### 7.7 Drawing up an Implementation Plan

### 7.8 Conclusion

### 8 Challenges and Ethical Dilemmas in Conducting Participatory Ecohealth Research

#### 8.1 Introduction

#### 8.2 Gaining a Second Entry into the Community

#### 8.3 Establishing Equal Partnerships Between Participants and the Research Team

#### 8.4 Participatory Ecohealth Research as Transformative and Empowering?

#### 8.5 To Be or Not To Be: Insider – Outsider Relations

#### 8.6 Dealing with Vulnerability in Focus Group Discussions

#### 8.7 Are all Voices and Knowledges Captured through Group Processes?

#### 8.8 Conclusion

### References

---

### 9 Ecosystem Approaches to Indigenous Health

#### 9.1 Introduction

#### 9.2 Indigenous Peoples and Communities

#### 9.3 Indigenous Conceptions of Health and Links to “Country”

#### 9.4 Colonized and Politicized Indigenous Ecosystems: Implications for Human Health

#### 9.4.1 Mercury Poisoning in Grassy Narrows First Nations

#### 9.5 Climate Change and Indigenous Health

#### 9.6 Examining Indigenous Health Problems from a Political Ecology of Health Perspective

#### 9.7 Ecosystem Approaches to Indigenous Health

#### 9.8 Conducting Research with Indigenous Communities: Some Considerations

#### 9.9 Conclusion
