Contents

Part I  Introduction

1 Translating Research on Inhibitory Control for the Prevention of Drug Abuse .................................................. 3
   Elizabeth M. Ginexi and Elizabeth B. Robertson

Part II  Neurobehavioral Approaches for Understanding Inhibitory Control

2 Animal Models of Behavioral Processes that Underlie the Occurrence of Impulsive Behaviors in Humans .............. 13
   Jerry B. Richards, Amy M. Gancarz, and Larry W. Hawk, Jr.

3 Monoaminergic Regulation of Cognitive Control in Laboratory Animals ............................................................. 43
   J. David Jentsch, Stephanie M. Groman, Alex S. James, and Emanuele Seu

4 Genetic and Environmental Determinants of Addiction Risk Related to Impulsivity and Its Neurobiological Substrates .... 63
   Michelle M. Jacobs, Didier Jutras-Aswad, Jennifer A. DiNieri, Hilarie C. Tomasiewicz, and Yasmin L. Hurd

5 Impaired Inhibitory Control as a Mechanism of Drug Abuse .................................................................................. 85
   Mark T. Fillmore and Jessica Weaver

6 Neuroimaging, Adolescence, and Risky Behavior .......................................................... 101
   John C. Churchwell and Deborah A. Yurgelun-Todd
## Part III  Translating Research on Inhibitory Control to At-Risk Populations

7  **Inhibitory Control Deficits in Childhood: Definition, Measurement, and Clinical Risk for Substance Use Disorders**  125  
   Iliyan Ivanov, Jeffrey Newcorn, Kelly Morton, and Michelle Tricamo

8  **Impulsivity and Deviance**  145  
   Donald R. Lynam

9  **Impulsivity and Adolescent Substance Use: From Self-Report Measures to Neuroimaging and Beyond**  161  
   Matthew J. Gullo, Sharon Dawe, and Meredith J. McHugh

10  **A Functional Analytic Framework for Understanding Adolescent Risk-Taking Behavior**  177  
    Laura MacPherson, Jessica M. Richards, Anahi Collado, and C.W. Lejuez

11  **Peer Influences on Adolescent Risk Behavior**  211  
    Dustin Albert and Laurence Steinberg

## Part IV  Translating Research on Inhibitory Control to Prevention Interventions

12  **The Effects of Early Adversity on the Development of Inhibitory Control: Implications for the Design of Preventive Interventions and the Potential Recovery of Function**  229  
    Philip A. Fisher, Jacqueline Bruce, Yalchin Abdullaev, Anne M. Mannering, and Katherine C. Pears

13  **Early Risk for Problem Behavior and Substance Use: Targeted Interventions for the Promotion of Inhibitory Control**  249  
    Nathaniel R. Riggs, Mark T. Greenberg, and Brittany Rhoades

14  **Designing Media and Classroom Interventions Targeting High Sensation Seeking or Impulsive Adolescents to Prevent Drug Abuse and Risky Sexual Behavior**  263  
    Rick S. Zimmerman, R. Lewis Donohew, Philip Palmgreen, Seth Noar, Pamela K. Cupp, and Brenikki Floyd

15  **Self-Regulation and Adolescent Drug Use: Translating Developmental Science and Neuroscience into Prevention Practice**  281  
    Thomas J. Dishion, Joshua C. Felver-Gant, Yalchin Abdullaev, and Michael I. Posner
Part V Conclusion

16 Implications for Translational Prevention Research: Science, Policy, and Advocacy ......................................................... 305
   Anthony Biglan and Diana H. Fishbein

17 Future Directions for Research on Inhibitory Control and Drug Abuse Prevention ................................................................. 317
   Michael T. Bardo, Richard Milich, and Diana H. Fishbein

Index ............................................................................................................................................................................. 331
Inhibitory Control and Drug Abuse Prevention
From Research to Translation
Bardo, M.T.; Fishbein, D.H.; Milich, R. (Eds.)
2011, XIV, 335 p., Hardcover
ISBN: 978-1-4419-1267-1
