Contents

1 Introduction: Challenges in Reducing Disparities in Reproductive and Perinatal Outcomes Through Evidence-Based Public Health ........................................ 1
   Arden Handler

2 Methodological Approach to Assessing the Evidence ..................................................... 7
   Joan Kennelly

3 Evidence-Based Public Health: Origins, Assumptions, and Cautions .......................... 21
   Luis A. Avilés and Dani Filc

4 Access to Family Planning and Induced Abortion ........................................................ 39
   Julie Chor, Ashley Dyer, and Bryna Harwood

5 Preconceptional Health Promotion ............................................................................. 65
   Merry-K. Moos and Amanda C. Bennett

6 Infertility Status and Infertility Treatment: Racial and Ethnic Disparities ................. 93
   Sylvia Guendelman and Laura Stachel

7 Public Health Interventions for Perinatal HIV and STI Screening in Pregnancy .............................................................. 119
   Whitney B. You, Ann E.B. Borders, Beth F. Pellettieri, and Patricia M. Garcia

8 What is the Role of Prenatal Care in Reducing Racial and Ethnic Disparities in Pregnancy Outcomes? ......................................................... 151
   Hannah Holcombe Walford, Sonya Trinh, Anna Wiencrot, and Michael C. Lu

9 Current Approaches to Reducing Premature Births and Implications for Disparity Elimination ........................................................................................................ 181
   Vijaya K. Hogan, Meghan E. Shanahan, and Diane L. Rowley

    L. Michele Issel, Jaime C. Slaughter, and Sarah G. Forrestal

11 Behavioral Treatment Methods for Pregnant Smokers: The Evidence Base for Prenatal Care Programs and Professional Practice ................................................. 239
    Richard Windsor
