Contents

1 Biopsychosocial Approaches to Understanding Chronic Pain and Disability ................................................................. 1
   Robert J. Gatchel, Robbie Haggard, Christina Thomas, and Krista J. Howard

Part I Communication and Pain

2 Pain and Intercultural Communication ................................................................. 19
   James Hallenbeck

3 Truth Telling and Palliative Care ........................................................................ 35
   Lidia Schapira and David P. Steensma

4 Communication and Palliative Care: E-Health Interventions and Pain Management ................................................................. 43
   Gary L. Kreps

5 Educating Patients and Caregivers About Pain Management: What Clinicians Need to Know ................................................................. 53
   Micke Brown, Amanda Crowe, and Stefanie Cousins

Part II Assessment

6 Pain Assessment Tools in Palliative Cancer Care ................................................ 71
   Marianne Jensen Hjermstad, Dagny Faxvaag Haugen, Michael I. Bennett, and Stein Kaasa

7 Quality Indicators for Pain in Palliative Care ......................................................... 95
   Sydney Dy and Hsien Seow

8 Palliative Care Clinical Trials: Generalizability and Applicability in Hospice and Palliative Care Practice ................................................. 109
   David C. Currow and Amy P. Abernethy
9 Dynamic Pain Assessment: An Application of Clinical Infometrics to Personalized Pain Treatment and Management ........................................... 121
Chih-Hung Chang

10 Assessing Pain and Unmet Need in Patients with Advanced Dementia: The Role of the Serial Trial Intervention (STI) ........................................... 131
Christine R. Kovach

Part III Common Pain Conditions

11 Pediatric Chronic Pain .................................................................. 147
Thomas R. Vetter

12 Pain in the Older Person ................................................................ 169
Bill H. McCarberg and B. Eliot Cole

13 Pain After Traumatic Brain Injury ........................................... 177
Jason K. Ough and Devi E. Nampiaparampil

14 Pain in the Battlefield Injured .................................................. 195
Anthony Dragovich and Steven P. Cohen

15 Pain, Whiplash Disorder and Traffic Safety ...................................... 213
Michele Sterling

16 Chronic Low Back Pain ........................................................... 231
Stephen May

17 Adult Cancer-Related Pain .............................................................. 247
Sean Ransom, Timothy P. Pearman, Errol Philip, and Dominique Anwar

Part IV Mechanisms

18 Neuroanatomy of Pain and Pain Pathways ........................................ 273
Elie D. Al-Chaer

19 Acute to Chronic Pain: Transition in the Post-Surgical Patient ............ 295
Roland T. Short III and Thomas R. Vetter

20 Pain and the Placebo/Nocebo Effect ............................................. 331
Antonella Pollo and Fabrizio Benedetti

21 Sex Differences in Pain Across the Life Course .................................. 347
Edmund Keogh

22 Stress and Pain ........................................................................... 367
Catherine M. Stoney

23 Hope in the Context of Pain and Palliative Care .................................. 383
Richard T. Penson, Lynette Su-Mien Ngo, and Gillianne Lai

24 Temporomandibular Disorders and its Relationship with Fibromyalgia .............. 399
Ana Mirian Velly, Hong Chen, João R. Ferreira, and James R. Fricton

25 Phantom Limb Pain ..................................................................... 417
Jens Foell and Herta Flor
Contents

26 Pharmacogenetics of Pain: The Future of Personalized Medicine............................... 431
   Lynn R. Webster

27 Pain Imaging ...................................................................................................................... 439
   Magdalena R. Naylor, David A. Seminowicz, Tamara J. Somers, and Francis J. Keefe

Part V Interventions

28 Evidence-Based Pharmacotherapy of Chronic Pain...................................................... 471
   Howard S. Smith, Sukdeb Datta, and Laxmaiah Manchikanti

29 Chronic Pain and Opioids ................................................................................................ 497
   Regina P. Szucs-Reed and Rollin M. Gallagher

30 Nerve Blocks, Trigger Points, and Intrathecal Therapy for Chronic Pain .................. 525
   Zirong Zhao and Doris K. Cope

31 Neurosurgical Interventions for the Control of Chronic Pain Conditions .............. 565
   Brittany L. Adler, Mark Yarchoan, and John R. Adler Jr.

32 Rehabilitation Treatments for Chronic Musculoskeletal Pain .................................. 583
   Nalini Sehgal, Frank Falco, Akil Benjamin, Jimmy Henry, Youssef Josephson, and Laxmaiah Manchikanti

Part VI Psychosocial, Complementary and Alternative (CAM) and Spiritual Approaches for the Control of Symptoms

33 Pain, Depression, and Anxiety in Cancer ....................................................................... 615
   Kristine A. Donovan, Lora M.A. Thompson, and Paul B. Jacobsen

34 Support Groups for Chronic Pain ................................................................................... 639
   Penney Cowan

35 CAM in Chronic Pain and Palliative Care ..................................................................... 649
   Jean S. Kutner and Marlaine C. Smith

36 Spiritual Dimensions of Pain and Suffering .................................................................. 697
   Amy Wachholtz and Suzana Makowski

Part VII Perspectives on Pain from the Humanities and Social Sciences

37 Suffering, Hope, and Healing ......................................................................................... 717
   Jack Coulehan

38 Narrative and Pain: Towards an Integrative Model ...................................................... 733
   David B. Morris

39 Representations of the Body in Pain: Anthropological Approaches ......................... 753
   Nora L. Jones

40 The Art of Pain: The Patient’s Perspective of Chronic Pain ........................................ 763
   Yvonne Palermo
Part VIII  Ethical Issues and Future Directions

41  Disparities in Pain Management and Palliative Care .................................................... 795
    Carmen R. Green

42  The Delineation and Explication of Palliative Options of Last Resort ....................... 809
    Ben A. Rich

43  Recognition and Resolution of Ethical Barriers to Palliative Care Research ............. 825
    Perry G. Fine

44  How Health Care Reform Can Improve Access to Quality Pain and Palliative Care Services ................................................................. 839
    Amber B. Jones and Diane E. Meier

Index ........................................................................................................................................... 849
Handbook of Pain and Palliative Care
Biobehavioral Approaches for the Life Course
Moore, R.J. (Ed.)
