## Contents

**Introduction** .......................................................................................................................... 1

### Section I  Theory, Method, and Explanation in Human Ecology

**Explaining Indonesian Forest Fires: Both Ends of the Firestick** .......... 17  
Andrew P. Vayda

**On the Notions of Mother Nature and the Balance of Nature and Their Implications for Conservation** ..................... 37  
Dennis E. Jelinski

**Hunter–Gatherers Optimize Their Foraging Patterns Using Lévy Flights** ............................................................... 51  
Clifford T. Brown, Larry S. Liebovitch, and Rachel Glendon

**What is Biocultural Diversity? A Theoretical Review** ......................... 67  
Michelle Cocks

**The Conservation Catch-22: Indigenous Peoples and Cultural Change** ........................................................................ 79  
Flora Lu

**Does Environmental Talk Equal Environmental Knowledge? An Example from Newfoundland** .............................. 89  
Craig T. Palmer and Reed L. Wadley

### Section II  Dynamics of Local Food Procurement Systems

**Tracking the Carbon Footprint of Paleolithic Societies in Mediterranean Ecosystems** ......................................................... 109  
Mary C. Stiner and Steven L. Kuhn
Contents

Burning and Hunting in Australia’s Western Desert
Douglas W. Bird, Rebecca Bliege Bird, and Christopher H. Parker

The Wild Yam Question: Evidence from Baka Foraging in the Northwest Congo Basin
Hirokazu Yasuoka

Life Without Pigs: Decisions, Community Action, and Subsistence Changes Among the Irakia Awa, Papua New Guinea
David J. Boyd

Food Security and Pastoralism in the Northern Sahel
Jon Pedersen and Tor A. Benjaminsen

Section III Agricultural Intensification and Large-Scale Population Dynamics

Labor Productivity and Agricultural Development: Testing Boserup
Robert C. Hunt

Following Netting: The Cultural Ecology of Viliui Sakha Households in Post-Soviet Siberia
Susan Crate

Adaptive Responses to Environmental and Sociopolitical Change in Southern Zambia
Lisa Cliggett, Elizabeth Colson, Rod Hay, Thayer Scudder, and Jon Unruh

Social and Environmental Impacts of the Rise and Fall of Flue-Cured Tobacco Production in the Copán Valley
William M. Loker

Does Climate Change Affect War Frequency? The Case of Eastern China
David D. Zhang, Jane Zhang, Harry F. Lee, and Yuan-qing He

Section IV Common Property Management, Conservation, and Development

Local Knowledge and Changing Subsistence Strategies in James Bay, Canada
Claude Peloquin and Fikret Berkes
Contents

After the Cochabamba Water War of 2000:
A Common Pool Resource Institution in the Urban Andes ......................... 297
Amber Wutich

Gender, Social Difference and Coastal Resource
Management in Lowland Philippine Fishing Communities ....................... 317
James F. Eder

Causes of Deforestation in Central Maine, USA ..................................... 331
James M. Acheson and Jon McCloskey

Environmental and Economic Costs of Biofuels .................................. 349
David Pimentel, Alison Marklein, Megan A. Toth,
Marissa N. Karpoff, Gillian S. Paul, Robert McCormack,
Joanna Kyriazis, and Tim Krueger

Editors’ References .................................................................................. 371

Index ........................................................................................................ 373
Human Ecology
Contemporary Research and Practice
Bates, D.G.; Tucker, J. (Eds.)
2010, XIV, 377 p. 23 illus., Hardcover
ISBN: 978-1-4419-5700-9
