Contents

Part I  Introduction

1  Noise and Marine Life: Progress From Nyborg to Cork in Science and Technology to Inform Decision Making ................................................................. 3
Brandon L. Southall

2  Listening Backward: Early Days of Marine Bioacoustics............................................ 11
William N. Tavolga

Part II  Sound Detection by Aquatic Animals

3  Effects of Underwater Noise on Marine Mammals ...................................................... 17
Christine Erbe

4  Psychophysical Studies of Auditory Masking in Marine Mammals: Key Concepts and New Directions ................................................................................. 23
Colleen Reichmuth

5  On the Relationship Between Environmental Noise, Critical Ratios, and Comodulation Masking Release in the Bottlenose Dolphin (Tursiops truncatus) .......................................................................................................... 29
Brian K. Branstetter, Jennifer S. Trickey, and James J. Finneran

6  Direct Measurements of Subjective Loudness in a Bottlenose Dolphin................. 33
Carolyn E. Schlundt and James J. Finneran

7  High Auditory Time Resolution in Bottlenose Dolphins Is Effective Protection Against Reverberation ................................................................. 37
Gennadi Zaslavski

8  Frequency Selectivity in the Bottlenose Dolphin Auditory System ............................. 41
Gennadi Zaslavski

9  Auditory Brain Stem Responses Associated with Echolocation in an Atlantic Bottlenose Dolphin (Tursiops truncatus) .................................................. 45
Songhai Li, Paul E. Nachtigall, and Marlee Breese

10 Hearing, Noise, and Echolocating Odontocetes ......................................................... 49
Paul E. Nachtigall, Alexander Y. Supin, and Marlee Breese
11 Evoked Potential Audiometry in Aquatic Mammals .................................................... 53
   Alexander Y. Supin

12 Prediction of a Mysticete Audiogram via Finite Element Analysis of the Middle Ear ................................................................. 57
   Andrew Tubelli, Aleks Zosuls, Darlene Ketten, and David C. Mountain

13 Reverse Engineering the Cetacean Ear to Extract Audiograms ................................. 61
   Aleks Zosuls, Seth O. Newburg, Darlene R. Ketten, and David C. Mountain

14 Validation of a Vibroacoustic Finite Element Model Using Bottlenose Dolphin Experiments ........................................................................ 65
   Petr Krysl, Vanessa Trijoulet, and Ted W. Cranford

15 Acoustic Function in the Peripheral Auditory System of Cuvier’s Beaked Whale (Ziphius cavirostris) .................................................... 69
   Ted W. Cranford and Petr Krysl

16 Auditory Evoked Potential Measurement of Hearing Sensitivity in Pinnipeds .............. 73
   Jason Mulsow, Colleen Reichmuth, Dorian Houser, and James J. Finneran

17 Hearing in Birds: What Changes From Air to Water ................................................ 77
   Robert J. Dooling and Sara C. Therrien

18 Amphibious Hearing in Sea Turtles .......................................................................... 83
   Wendy E. Dow Piniak, David A. Mann, Scott A. Eckert, and Craig A. Harms

19 Hearing Capabilities of Loggerhead Sea Turtles (Caretta caretta) Throughout Ontogeny ........................................................................... 89
   Ashley L. Lavender, Soraya M. Bartol, and Ian K. Bartol

20 Are Sharks Even Bothered by a Noisy Environment? ................................................ 93
   Brandon M. Casper, Michele B. Halvorsen, and Arthur N. Popper

21 Optimal Auditory Sensitivity Under Variable Background Noise Conditions: A Theoretical Model ................................................................. 99
   Marco Lugli

22 A Critical Reevaluation of the Role of Acoustic Pressure in Source Localization by Fish .................................................................................. 101
   Peter H. Rogers, James S. Martin, and John R. Bogle

23 Vibration of the Otoliths in a Teleost ......................................................................... 105
   Carl R. Schilt, Ted W. Cranford, Petr Krysl, Robert E. Shadwick, and Anthony D. Hawkins

24 Hearing Sensitivity of the Painted Goby, Pomatoschistus pictus ................................. 109
   Marta Bolgan, Silvia S. Pedroso, Raquel O. Vasconcelos, Joana M. Jordão, M. Clara P. Amorim, and Paulo J. Fonseca

25 Acoustic Communication in Pomatoschistus spp.: A Comparison Between Closely Related Species ........................................................................ 113
   Silvia S. Pedroso, Marta Bolgan, Joana M. Jordão, Paulo J. Fonseca, and M. Clara P. Amorim

26 Importance of Hearing for Survival of Danio rerio (Zebrafish) in an Experimental Predator/Prey Environment ................................................. 117
   Rikke Agner Jørgensen, Christian Brandt, Magnus Wahlberg, and Jakob Christensen-Dalsgaard
27 Lateral Line Canal Morphology and Noise Reduction ................................................ 121
Adrian T. Klein and Horst Bleckmann

28 Potential for Sound Sensitivity in Cephalopods ............................................................ 125
T. Aran Mooney, Roger Hanlon, Peter T. Madsen, Jakob Christensen-Dalsgaard,
Darlene R. Ketten, and Paul E. Nachtigall

29 Listening in Noise ............................................................................................................. 129
Richard R. Fay

30 Discovery of Sound in the Sea: An Online Resource .................................................... 135
Kathleen J. Vigness-Raposa, Gail Scowcroft, James H. Miller, and Darlene Ketten

Part III Sound Production by Aquatic Animals

31 Whistles of Bottlenose Dolphins: Group Repertoires and Geographic
Variations in Brazilian Waters........................................................................................ 141
Lisa S. Hoffmann, Elton Ferlin, Pedro F. Fruet, Rodrigo C. Genovês,
Fernanda P. Valdez, Juliana Di Tullio, Glaucu Caon, and Thales R. Freitas

32 Detection and Classification of Vocalizations for the Study of Marine
Mammal Distributions in the Chukchi Sea ................................................................... 145
David Hannay

33 Acoustic Ecology and Behavior of Minke Whales in the Hawaiian
and Marianas Islands: Localization, Abundance Estimation,
and Characterization of Minke Whale “Boings” ............................................................. 149
Thomas Norris, Stephen Martin, Len Thomas, Tina Yack, Julie N. Oswald,
Eva-Marie Nosal, and Vincent Janik

34 What You See Is Not What You Hear: The Relationship Between
Odontocete Echolocation Click Production and Hearing ............................................. 155
Laura N. Kloepper, Paul E. Nachtigall, and Marlee Breese

35 Sound Production and Reception in Southern Sea Otters
(Enhydra lutris nereis) ........................................................................................................ 157
Asila Ghoul and Colleen Reichmuth

36 Nocturnal Acoustic Activity in the Shallow Waters of the WWF-Miramare
Natural Marine Reserve (Trieste, Italy) ............................................................................ 161
Antonio Codarin, Marta Picciulin, Linda Sebastianutto, Giuliana Calcagno,
Maurizio Spoto, and Enrico A. Ferrero

37 Acoustic Ecology of the California Mantis Shrimp
(Hemisquilla californiensis) .............................................................................................. 165
Erica R. Staaterman, Christopher W. Clark, Austin J. Gallagher,
Thomas Claverie, Maya S. deVries, and Sheila N. Patek

38 Influence of Turbidity on the Incidence of Sound Production in Atlantic
Croaker (Micropogonias undulatus) in Pamlico Sound, North Carolina ......................... 169
Cecilia S. Krahforst, John P. Walsh, Mark W. Sprague, Devon O. Eulie,
D. Reide Corbett, and Joseph J. Luczkovich

39 Propagation of Lusitanian Toadfish Sounds in Estuarine Shallow Waters ............... 173
Andreia Ramos, M. Clara P. Amorim, and Paulo J. Fonseca
40 Sound Production in Some Physostomous Fish Species and Effects of Biological Sounds on Fish ................................................................. 177
   Michail Y. Kuznetsov and Yury A. Kuznetsov

41 Is Biological Sound Production Important in the Deep Sea? ............... 181
   Rodney A. Rountree, Francis Juanes, Clifford A. Goudey, and Kenneth E. Ekstrom

42 Unusual and Unexpected Biological Noisemakers in the Irish Sea and St. George’s Channel ................................................................. 185
   Rodney Coates, Gillian A. Coates, Rachel Porter, Andrew Davies, and Dylan Evans

Part IV  Physiological Effects of Sounds

43 Noise-Induced Hearing Loss: From Animal Models to Human Trials .......... 191
   Colleen G. Le Prell

44 Auditory Effects of Underwater Noise in Odontocetes ............................ 197
   James J. Finneran

45 Implementation of Acoustic Dosimeters With Recoverable Month-Long GPS/TDR Tags to Interpret Controlled-Exposure Experiments for Large Whales ................................................................. 203
   Bruce R. Mate

46 Marine Mammal Auditory System Noise Impacts: Evidence and Incidence .... 207
   Darlene R. Ketten

47 Effect of Broadband Sounds on the Auditory Evoked Potential Thresholds in the Beluga Whale ................................................................. 213
   Vladimir V. Popov and Alexander Y. Supin

48 The ESME Workbench: Simulating the Impact of Anthropogenic Sound on Marine Mammals ................................................................. 217
   David C. Mountain, David Anderson, Andrew Brughera, Matthew Cross,
   Dorian S. Houser, Nael Musleh, Michael Porter, and Martin Siderius

49 Using EarLab to Study Masking Due to Anthropogenic Sound .................. 221
   David C. Mountain, David Anderson, and Andrew Brughera

50 Portable Auditory Evoked Potential System to Assess Odontocete Hearing .......... 225
   Aude F. Pacini, Paul E. Nachtigall, and Laura N. Kloepper

51 Barotrauma in Fish and Barotrauma Metrics ........................................ 229
   Thomas J. Carlson

52 Assessment of Barotrauma Injury and Cumulative Sound Exposure Level in Salmon After Exposure to Impulsive Sound ............................ 235
   Michele B. Halvorsen, Brandon M. Casper, Thomas J. Carlson,
   Christa M. Woodley, and Arthur N. Popper

53 Shipboard Assessment of Hearing Sensitivity of Tropical Fishes Immediately After Exposure to Seismic Air Gun Emissions at Scott Reef .................. 239
   Mardi C. Hastings and Jennifer Miksis-Olds

54 A Lack of Correlation Between Air Gun Signal Pressure Waveforms and Fish Hearing Damage ................................................................. 245
   Robert D. McCauley and Chandra Salgado Kent
