## Contents

1 **Introduction** ........................................................................................................... 1  
Rong-Fu Wang

2 **The Role of NKT Cells in the Immune Regulation of Neoplastic Disease** ............... 7  
Jessica J. O’Konek, Masaki Terabe, and Jay A. Berzofsky

3 **γδ T Cells in Cancer** ............................................................................................... 23  
Lawrence S. Lamb, Jr.

4 **Toll-Like Receptors and Their Regulatory Mechanisms** .......................................... 39  
Shin-Ichiroh Saitoh

5 **Cytoplasmic Sensing of Viral Double-Stranded RNA and Activation of Innate Immunity by RIG-I-Like Receptors** .......... 51  
Mitsutoshi Yoneyama and Takashi Fujita

6 **Innate Immune Signaling and Negative Regulators in Cancer** ........................... 61  
Helen Y. Wang and Rong-Fu Wang

7 **Dendritic Cell Subsets and Immune Regulation** .................................................... 89  
Meredith O’Keeffe, Mireille H. Lahoud, Irina Caminschi, and Li Wu

8 **Human Dendritic Cells in Cancer** ............................................................................. 121  
Gregory Lizée and Michel Gilliet

9 **Regulatory T Cells in Cancer** .................................................................................... 147  
Tyler J. Curiel

10 **Relationship Between Th17 and Regulatory T Cells in the Tumor Environment** .......... 175  
Ilona Kryczek, Ke Wu, Ende Zhao, Guobin Wang, and Weiping Zou
11 Mechanisms and Control of Regulatory T Cells in Cancer .................. 195
Bin Li and Rong-Fu Wang

12 Myeloid-Derived Suppressor Cells in Cancer ................................. 217
Wiaam Badn and Vincenzo Bronte

13 Myeloid-Derived Suppressive Cells and Their Regulatory
Mechanisms in Cancer .......................................................................... 231
Ge Ma, Ping-Ying Pan, and Shu-Hsia Chen

14 Cell Surface Co-signaling Molecules in the Control
of Innate and Adaptive Cancer Immunity ........................................ 251
Stasya Zarling and Lieping Chen

15 Negative Regulators of NF-κB Activation and Type I
Interferon Pathways ............................................................................... 267

16 Role of TGF-β in Immune Suppression and Inflammation .......... 289
Joanne E. Konkel and WanJun Chen

17 Indoleamine 2,3-Dioxygenase and Tumor-Induced
Immune Suppression ............................................................................. 303
David H. Munn

18 Myeloid-Derived Suppressor Cells in Cancer:
Mechanisms and Therapeutic Perspectives ....................................... 319
Paulo C. Rodríguez and Augusto C. Ochoa

19 Human Tumor Antigens Recognized by T Cells
and Their Implications for Cancer Immunotherapy ....................... 335
Ryo Ueda, Tomonori Yaguchi, and Yutaka Kawakami

20 Cancer/Testis Antigens: Potential Targets
for Immunotherapy ................................................................................ 347
Otavia L. Caballero and Yao-Tseng Chen

21 Tumor Antigens and Immune Regulation
in Cancer Immunotherapy .................................................................... 371
Rong-Fu Wang and Helen Y. Wang

22 Immunotherapy of Cancer ................................................................. 391
Michael Dougan and Glenn Dranoff

23 Current Progress in Adoptive T-Cell Therapy of Lymphoma ......... 415
Kenneth P. Micklethwaite, Helen E. Heslop, and Malcolm K. Brenner

24 Adoptive Immunotherapy of Melanoma ........................................ 439
Seth M. Pollack and Cassian Yee

Index ................................................................................................................ 467
Innate Immune Regulation and Cancer Immunotherapy
Wang, R.-F. (Ed.)
2012, X, 478 p., Hardcover
