Contents

**Preface** ................................................................. v
Steven Chu

**Introduction** .................................................... 1
Oliver Inderwildi and Sir David King

**Part I Energy**

**Foreword**
Sir Chris Llewellyn Smith

Iain C. Conn

**The Anomalous Age of Easy Energy** .............................. 29
C. J. Campbell

**Peak Oil Futures: Same Crisis, Different Responses** .......... 55
Jörg Friedrichs

**Bioenergy Innovation and Sustainable Mobility: Deployment Feedstock Full Potentials** ......................... 77
Weber Antonio Neves do Amaral, Guilherme Ary Plonski
and Eduardo Giuliani

**Energy Security in an Emission-Constrained World:**
**The Potential for Alternative Fuels** ............................. 95
Tara Shirvani
Electricity, Mobility and the Neglected Indirect Emissions  ....... 115
Alexander R. Williams

The Future of Mobility in a Resource-Constrained World:
An Overview and Solutions ........................................... 135
Stéphanie Jacometti and Jack Jacometti

Hydrogen: An End-State Solution for Transportation? ............ 143
Asel Sartbaeva, Stephen A. Wells, Vladimir L. Kuznetsov
and Peter P. Edwards

Part II Road

Foreword
James Smith

Pathways to Sustainable Road Transport: A Mosaic of Solutions .... 167
Mark Gainsborough

Meeting 2050 CO₂ Emissions Reduction Targets: The Potential
for Electric Vehicles .................................................. 181
Julia King and Eric Ling

Using Electric Vehicles for Road Transport ........................ 223
Malcolm D. McCulloch, Justin D. K. Bishop and Reed T. Doucette

Rechargeable Batteries for Transport and Grid Applications:
Current Status and Challenges ..................................... 253
Clare P. Grey

Fuel Cell Technology .................................................... 273
Aaron Holdway and Oliver Inderwildi

Fuel Taxes, Fuel Economy of Vehicles and Costs of Conserved
Energy: The Case of the European Union .......................... 285
David Bonilla

Toward a Global Low Carbon Fuel Standard for Road Transport ... 303
Daniel Sperling and Sonia Yeh
Part III  Urban Mobility

Foreword
David Banister

Personal Urban Mobility for the Twenty-First Century
Christopher E. Borroni-Bird

Delivering Sustainable Transport in London
Michèle Dix and Elaine Seagriff

Sustainable Urban Mobility
Debra Lam and Peter Head

Road Use Charging and Inter-Modal User Equilibrium:
The Downs-Thompson Paradox Revisited
Michael G. H. Bell and Muanmas Wichiensin

Part IV  Aviation

Foreword
Andrew Haines

Aviation Policy and Governance
Lourdes Q. Maurice and Carl E. Burleson

Sustainable Aviation Alternative Fuels: From Afterthought
to Cutting Edge
Richard L. Altman

The Potential Impact of Propulsion Technology on Emissions
and Energy Security
Peter Ireland

Aviation Technology: Aerodynamics, Materials,
and Other Options
Christian Carey

The Role of Air Traffic Control in Improving Aviation’s
Environmental Performance
Ian Jopson

Strategy and Organisation at Singapore Airlines: Achieving
Sustainable Advantage Through Dual Strategy
Loizos Heracleous and Jochen Wirtz
Uncovering the Real Potential for Air–Rail Substitution: An Exploratory Analysis .................................. 495 Moshe Givoni, Frédéric Dobruszkes and Igor Lugo

No Third Runway? The Thames Estuary Option ................. 513 Christian Carey

Part V Sea, Rail and Cargo
Foreword
Brian Collins

Reducing Energy Consumption and Emissions in the Logistics Sector ........................................ 521 Alan C. McKinnon

Low Carbon Ships and Shipping ............................... 539 T. W. P. Smith

Energy for Railways ............................................. 561 Roderick A. Smith

Does Britain Need High Speed Rail? ........................... 577 Chris Stokes

Part VI Finance and Economics
Foreword
James Cameron

I Want to Ride My Bicycle! Financing Sustainable Transport .......................... 599 Julie Hudson

Economics and the Future of Transport ..................... 633 Phil Goodwin

Deciding What Transport is for: Connectivity and the Economy .... 663 Bridget Rosewell

Global Consequences of the Bioenergy Greenhouse Gas Accounting Error ...................................... 679 Tim Searchinger

Conclusion .............................................................. 713 Oliver Inderwildi and Sir David King
Energy, Transport, & the Environment
Addressing the Sustainable Mobility Paradigm
Inderwildi, O.; King, S.D. (Eds.)
2012, VIII, 713 p. 195 illus., 36 illus. in color., Hardcover
ISBN: 978-1-4471-2716-1
