
Contents

1 Nutrition, Aging, and Chronic Low-Grade Systemic Inflammation in Relation to Osteoporosis and Sarcopenia	1
Robin M. Daly	
2 Interactions of Dietary Patterns, Systemic Inflammation, and Bone Health	19
Adrian D. Wood and Helen M. Macdonald	
3 Weight Loss and Physical Activity in Obese Older Adults: Impact on Skeletal Muscle and Bone	31
Dylan R. Kirn and Roger A. Fielding	
4 The Hormonal Milieu in Obesity and Influences on the Trabecular, Cortical, and Geometric Properties of Bone	43
Sue A. Shapses and Deeptha Sukumar	
5 Emerging Nutritional and Lifestyle Risk Factors for Bone Health in Young Women: A Mixed Longitudinal Twin Study	61
Jemma J. Christie, Caryl A. Nowson, Suzanne M. Garland, and John D. Wark	
6 Dietary Fat Composition and Age-Related Muscle Loss	71
Ailsa A. Welch	
7 Relationships Between Body Fat and Bone Mass	83
Ian R. Reid	
8 Acid–Base Homeostasis and Skeletal Health: Current Thinking and Future Perspectives	93
Helen Lambert, Claire Huggett, Richard Gannon, and Susan A. Lanham-New	
9 When Is Low Potential Renal Acid Load (PRAL) Beneficial for Bone?	99
Thomas Remer, Danika Krupp, and Lijie Shi	
10 The Effect of Alkaline Potassium Salts on Calcium and Bone Metabolism	109
Deborah E. Sellmeyer	

11	The Effects of Protein Supplementation on Bone Mass in Chinese Postmenopausal Women.	119
	Qian Zhang, Feitong Wu, Xiaoqi Hu, Ying Liu, Cuixia Wang, Richard Prince, and Kun Zhu	
12	The Negative Effect of a High-Protein–Low-Calcium Diet . . .	125
	Peter Burckhardt	
13	Prebiotics, Probiotics, Polyunsaturated Fatty Acids, and Bone Health.	133
	Marlena C. Kruger and Magdalena Coetzee	
14	Comparison of Natural Products for Effects on Bone Balance.	147
	Connie M. Weaver and Emily E. Hohman	
15	Citrus Flavanones and Bone Health.	157
	Marie-Noëlle Horcajada and Elizabeth Offord	
16	Intake of B Vitamins and Carotenoids in Relation to Risk of Hip Fracture in Elderly Chinese.	171
	Zhaoli Dai, Renwei Wang, Li-Wei Ang, Jian-Min Yuan, and Woon-Puay Koh	
17	Dietary Anthocyanidins and Bone Health.	177
	Claire J. Macdonald-Clarke and Helen M. Macdonald	
18	Chapter Relative Effects of Vitamin D₃ and Calcifediol.	189
	Heike A. Bischoff-Ferrari	
19	Physical Performance, Muscle Strength, Falls, and Vitamin D.	197
	Paul Lips and Natasja M. van Schoor	
20	Vitamin D Status in Relation to Veiling, Obesity, and Milk Intake in Saudi Women.	203
	Khulood Sami Hussein, Hanan Ahmad Alkadi, Susan A. Lanham-New, and Mohamed Saleh Ardawi	
21	Serum 25(OH)D and Calcium Intake Predict Changes in Hip BMD and Structure in Young Active Men.	213
	Jeri W. Nieves, Marsha Zion, Jamie Ruffing, Susan Tendy, Patricia Garrett, Robert Lindsay, and Felicia Cosman	
22	The Comparative Effects of Vitamin D₂ Versus Vitamin D₃ Supplementation in Improving Serum 25(OH)D Status: A Review of the Evidence.	219
	Laura Tripkovic and Susan A. Lanham-New	
23	Vitamin D Supplementation and Changes in Vitamin D and Bone Metabolites in Children.	227
	Richard D. Lewis and Emma M. Laing	

24	Determinants of the 25-Hydroxyvitamin D Response to Vitamin D Supplements	237
	Bess Dawson-Hughes	
25	Strategies for Improving Vitamin D Status: Focus on Fortification	247
	Timothy J. Green, Wangyang Li, and Susan J. Whiting	
26	Vitamin D and Calcium Absorption: Toward a New Model	261
	Robert P. Heaney	
27	Do Desirable Vitamin D Levels Vary Globally?	273
	Ghada El-Hajj Fuleihan, Maya Rahme, and Darina Bassil	
28	Sexual Dimorphism in Bone and Body Composition in Rural Gambian Prepubertal Children Habituated to a Low Calcium Intake	301
	Landing M.A. Jarjou, Kate A. Ward, Gail R. Goldberg, Yankuba Sawo, and Ann Prentice	
29	The Likely Importance of Specific Dairy Foods in Relation to Bone Health: Current Knowledge and Future Challenges	307
	Shivani Sahni, Douglas P. Kiel, and Marian T. Hannan	
30	Galacto-oligosaccharides: Prebiotic Effects on Calcium Absorption and Bone Health	315
	Corrie M. Whisner and Connie M. Weaver	
31	The Relationship of Weight-Bearing Physical Activity and Dietary Calcium Intake with Bone Mass Accrual in the Bone Mineral Density in Childhood Study Cohort	325
	Joan Lappe, Patrice Watson, Vicente Gilsanz, Heidi J. Kalkwarf, Thomas N. Hangartner, Sharon E. Oberfield, John Shepherd, Babette S. Zemel, and Karen K. Winer	
32	Preventing Malnutrition to Reduce Fracture Risk in Aged Care Residents. A Dairy-Based Protein, Calcium, and Vitamin D Supplement Reduce Falls and Femoral Neck Bone Loss in Aged Care Residents: A Cluster Randomized Trial	335
	Sandra Iuliano	
33	Effects of Vitamin D and Calcium Supplementation on Heart Rate and Blood Pressure in Community-Dwelling Older Individuals	343
	Michael Pfeifer	
34	Calcium Metabolism in Mexican American Adolescents	351
	Cristina Palacios and Connie M. Weaver	

35	Calcium Is Not Only Safe but Important for Health	359
	Connie M. Weaver	
36	Cardiovascular Safety of Calcium Supplements.	365
	Ian R. Reid	
37	Blueberry in Calcium- and Vitamin D-Enriched Fermented Milk Is Able to Modulate Bone Metabolism in Postmenopausal Women	373
	Marie-Jeanne Davicco, Caroline Puel, Patrice Lebecque, and Véronique Coxam
