## Contents

1. Why We Need This Book                                    1  
   James K. Min, Jonathon Leipsic, and Daniel S. Berman

2. Transcatheter Aortic Valve Implantation:  
   Review of Current Evidence                                3  
   Philippe Genéreux and Martin B. Leon

3. Transcatheter Aortic Valve Replacement:  
   Current Evidence from Large Multicenter Registries        19  
   Shikhar Agarwal and Samir Kapadia

4. Transcatheter Aortic Valve Replacement: An Interventionist’s View     39  
   Melanie Freeman and John G. Webb

5. Transcatheter Aortic Valve Replacement: A Surgeon’s View          53  
   Gregory P. Fontana, Carlos E. Ruiz, and Chad Kliger

6. Transcatheter Aortic Valve Replacement (TAVR):  
   A Clinician’s Perspective Aortic Stenosis:  
   Natural and Unnatural (Treated) History                    65  
   Blase A. Carabello

7. Transcatheter Aortic Valve Replacement:  
   What the Near-Term Future Holds and What Evidence Is Needed?  71  
   Hasan Jilaihawi, Tarun Chakravarty, and Raj Makkar

8. Structural Design of Transcatheter Aortic Valves:  
   General Concepts Related to Imaging                       85  
   Jeffrey J. Popma, Alexandra Almonacid, Diana Litmanovich,  
   and George Gellert

9. Native and Prosthetic Valve Stenosis                      115  
   Pei-Hsiu Huang and David P. Faxon

10. Low-Flow and Low-Gradient Aortic Stenosis Consideration in the Context of TAVR   129  
   Alper Ozkan and Paul Schoenhagen

11. Pathologic Findings in Aortic Stenosis                    145  
    Elena Ladich, Mastataka Nakano, and Renu Virmani

12. Echocardiographic Evaluation of Aortic Stenosis           157  
    Robert R. Moss

13. CT Evaluation of Aortic Stenosis                         171  
    Gudrun Feuchtner, Fabian Plank, and Hatem Alkadhi
14 MRI Evaluation of Aortic Stenosis .......................... 179
   Eric Larose

15 Positron Emission Tomography Evaluation of Aortic Stenosis ........... 189
   Mark R. Dweck, James H.F. Rudd, and David E. Newby

16 Coronary Artery Disease and Aortic Stenosis .......................... 197
   Jean-Michel Paradis and Susheel K. Kodali

17 Common Cardiac Pathologies Associated with Aortic Stenosis ........... 203
   Yasmin Siddiqui, Sean Moore, Subha Ghosh, and Subha V. Raman

18 Extravascular and Extracardiac Findings on MDCT for Transcatheter Aortic Valve Planning ........... 215
   Cameron John Hague

19 Transcatheter Aortic Valve Replacement in Patients with Chronic Kidney Disease: Pre-procedural Assessment and Procedural Techniques to Minimize Risk for Acute Kidney Injury ........................................ 227
   Israel M. Barbash, Danny Dvir, Wm. Guy Weigold, Lowell F. Satler, Ron Waksman, and Augusto D. Pichard

20 Transcatheter Aortic Valve Replacement and Adverse Cerebrovascular Events ........................................ 239
   Brian G. Hynes and Josep Rodés-Cabau

21 Aortoiliofemoral Assessment: MDCT ........................................ 257
   Theodore Blake and Dominik Fleischmann

22 Aortoiliofemoral Assessment: MRA ........................................ 273
   Chesnal D. Arepalli and Stamatios Lerakis

23 Aortoiliofemoral Angiography and IVUS ........................................ 289
   Amar Krishnaswamy and E. Murat Tuzcu

24 Aortic Annular Geometry and Sizing: Echocardiography ........... 297
   Gerald S. Bloomfield, Zainab Samad, and Pamela S. Douglas

25 Aortic Annular Geometry and Sizing: CT ........................................ 311
   Reza Arsanjani, Jonathon Leipsic, Daniel S. Berman, and James K. Min

26 Coaxial Angle Prediction for TAVR: CT ........................................ 319
   Mathew Brooks and Ronen Gurvitch

27 Use of Multidetector Computed Tomography for Planning Transcatheter Aortic Valve Sizing ........................................ 327
   Adam Berger, Alexander Bruce Willson, James K. Min, Daniel Grafstein, and Jonathon Leipsic

28 Imaging for Transfemoral Versus Transapical Approaches to TAVR: What Differences Are Important? ........... 337
   Mark J. Kearns and Anson Cheung

29 Common Uses of Echocardiography for TAVR ........................................ 345
   Rebecca T. Hahn

30 Angiography and Rotational Angiography for TAVR ........................................ 355
   Benoit Daneault and Jeffrey W. Moses
