## Contents

1 Why We Need This Book .......................................................... 1  
James K. Min, Jonathon Leipsic, and Daniel S. Berman

2 Transcatheter Aortic Valve Implantation:  
Review of Current Evidence .................................................... 3  
Philippe Généreux and Martin B. Leon

3 Transcatheter Aortic Valve Replacement:  
Current Evidence from Large Multicenter Registries ....................... 19  
Shikhar Agarwal and Samir Kapadia

4 Transcatheter Aortic Valve Replacement: An Interventionist’s View ....... 39  
Melanie Freeman and John G. Webb

5 Transcatheter Aortic Valve Replacement: A Surgeon’s View ............... 53  
Gregory P. Fontana, Carlos E. Ruiz, and Chad Kliger

6 Transcatheter Aortic Valve Replacement (TAVR):  
A Clinician’s Perspective Aortic Stenosis:  
Natural and Unnatural (Treated) History ...................................... 65  
Blase A. Carabello

7 Transcatheter Aortic Valve Replacement:  
What the Near-Term Future Holds and What Evidence Is Needed? ........... 71  
Hasan Jilaihawi, Tarun Chakravarty, and Raj Makkar

8 Structural Design of Transcatheter Aortic Valves:  
General Concepts Related to Imaging ......................................... 85  
Jeffrey J. Popma, Alexandra Almonacid, Diana Litmanovich,  
and George Gellert

9 Native and Prosthetic Valve Stenosis .......................................... 115  
Pei-Hsiu Huang and David P. Faxon

10 Low-Flow and Low-Gradient Aortic Stenosis Consideration  
in the Context of TAVR ............................................................ 129  
Alper Ozkan and Paul Schoenhagen

11 Pathologic Findings in Aortic Stenosis ...................................... 145  
Elena Ladich, Mastataka Nakano, and Renu Virmani

12 Echocardiographic Evaluation of Aortic Stenosis  
.......................................................... 157  
Robert R. Moss

13 CT Evaluation of Aortic Stenosis ............................................. 171  
Gudrun Feuchtner, Fabian Plank, and Hatem Alkadhi
14 MRI Evaluation of Aortic Stenosis
   Eric Larose
   179

15 Positron Emission Tomography Evaluation of Aortic Stenosis
   Mark R. Dweck, James H.F. Rudd, and David E. Newby
   189

16 Coronary Artery Disease and Aortic Stenosis
   Jean-Michel Paradis and Susheel K. Kodali
   197

17 Common Cardiac Pathologies Associated with Aortic Stenosis
   Yasmin Siddiqui, Sean Moore, Subha Ghosh, and Subha V. Raman
   203

18 Extravascular and Extracardiac Findings on MDCT
   for Transcatheter Aortic Valve Planning
   Cameron John Hague
   215

19 Transcatheter Aortic Valve Replacement in Patients with
   Chronic Kidney Disease: Pre-procedural Assessment
   and Procedural Techniques to Minimize Risk
   for Acute Kidney Injury
   Israel M. Barbash, Danny Dvir, Wm. Guy Weigold,
   Lowell F. Satler, Ron Waksman, and Augusto D. Pichard
   227

20 Transcatheter Aortic Valve Replacement and Adverse
   Cerebrovascular Events
   Brian G. Hynes and Josep Rodés-Cabau
   239

21 Aortoiliofemoral Assessment: MDCT
   Theodore Blake and Dominik Fleischmann
   257

22 Aortoiliofemoral Assessment: MRA
   Chesnal D. Arepalli and Stamatios Lerakis
   273

23 Aortoiliofemoral Angiography and IVUS
   Amar Krishnaswamy and E. Murat Tuzcu
   289

24 Aortic Annular Geometry and Sizing: Echocardiography
   Gerald S. Bloomfield, Zainab Samad,
   and Pamela S. Douglas
   297

25 Aortic Annular Geometry and Sizing: CT
   Reza Arsanjani, Jonathon Leipsic, Daniel S. Berman, and James K. Min
   311

26 Coaxial Angle Prediction for TAVR: CT
   Mathew Brooks and Ronen Gurvitch
   319

27 Use of Multidetector Computed Tomography for Planning
   Transcatheter Aortic Valve Sizing
   Adam Berger, Alexander Bruce Willson, James K. Min,
   Daniel Grafstein, and Jonathon Leipsic
   327

28 Imaging for Transfemoral Versus Transapical Approaches
   to TAVR: What Differences Are Important?
   Mark J. Kearns and Anson Cheung
   337

29 Common Uses of Echocardiography for TAVR
   Rebecca T. Hahn
   345

30 Angiography and Rotational Angiography for TAVR
   Benoit Daneault and Jeffrey W. Moses
   355
