

Contents

1	Introduction	1
1.1	Aim and Scope of This Book.	1
1.2	Outline of This Book	2
1.2.1	Cognitive Approaches to Concept Generation	2
1.2.2	New Research Methods for Concept Generation.	3
1.2.3	Practice of Concept Generation	4
1.2.4	Discussion	4
1.2.5	Towards the Future.	4
1.2.6	Organization of This Book	6
1.2.7	Authors' Previous Publications Related to This Book	6
	References	6
2	Perspectives on Concept Generation and Design Creativity	9
2.1	Very Early Stage of Design	9
2.2	Interdisciplinary View of Research on Concept Generation	10
2.3	Creativity in Design	11
2.4	Phases of Concept Generation	13
2.4.1	Concept.	13
2.4.2	Problem–Driven Phase	13
2.4.3	Inner Sense–Driven Phase	14
2.5	Definitions of Concept Generation and Design Creativity	15
	References	17
3	Design Competence for Design Creativity	21
3.1	Design Competence	21
3.2	Types of Design Competence.	21
3.2.1	Competence to Inspire the Motivation from Inside a Thought Space.	22
3.2.2	Competence to Abstract the Concepts.	22

- 3.2.3 Competence to Control the Back-and-Forth Issue 24
- References 26
- 4 Theory of Concept Generation 27**
 - 4.1 Abstract Concept Versus Entity Concept 27
 - 4.2 Classification of Concept Generation 28
 - 4.2.1 First-Order Concept Generation Based on the Similarity-Recognition Process 28
 - 4.2.2 High-Order Concept Generation Based on the Dissimilarity-Recognition Process 32
 - 4.3 How to Select the Appropriate Base Concepts for Concept Generation 36
 - 4.4 Role of High-Order Concept Generation 37
 - 4.4.1 Relationships between the Phases of Concept Generation and the Types of Concept Generation 37
 - 4.4.2 Meanings of High-Order Concept Generation 39
 - References 39
- 5 Methods and Essence of Concept Generation. 41**
 - 5.1 Concept Synthesis 41
 - 5.2 Concept Synthesis Versus Linguistic Interpretation 42
 - 5.3 Experiment to Capture the Essence of Concept Generation 45
 - 5.3.1 Outline of the Experiment 45
 - 5.3.2 Method of the Experiment 46
 - 5.3.3 Method of Analysis 48
 - 5.3.4 Results 51
 - 5.4 Relevance of the Definition of Concept Generation 59
 - References 60
- 6 Thinking Pattern in Concept Synthesis (1): Expansion of the Thought Space 63**
 - 6.1 Divergent Thinking in Design 63
 - 6.2 Experiment to Identify the Expansion of Thought Space in Concept Generation 64
 - 6.2.1 Extended Protocol Analysis Method 64
 - 6.2.2 Procedure of the Experiment 65
 - 6.2.3 Results of the Experiment 65
 - 6.2.4 Creativity Evaluation of Design Concepts 66
 - 6.2.5 Expansion of Thought Space and Creativity 67
 - 6.2.6 Association Process to Expand the Thought Space 70
 - 6.3 Paradox of Divergent Thinking 71
 - References 73

7	Thinking Pattern in Concept Synthesis (2): Complexity of the Thinking Process	75
7.1	Constructive Simulation Versus Imitative Simulation	75
7.2	Method for Constructive Simulation of Concept Synthesis	77
7.2.1	Target Concept Synthesis Process	77
7.2.2	Method of Constructing the Virtual Concept Synthesis Process	79
7.2.3	Method of Confirming the Relevance of the Virtual Concept Synthesis Process	80
7.2.4	Method of Synthetic Verification of the Virtual Concept Synthesis Process	85
7.3	Execution of Constructive Simulation for the Concept Synthesis	87
7.3.1	Design Ideas Used for the Simulation	87
7.3.2	Construction of the Virtual Concept Synthesis Process	88
7.3.3	Confirmation of the Relevance of the Virtual Concept Synthesis Process	90
7.3.4	Synthetic Verification of the Virtual Concept Synthesis Process	92
7.3.5	Inference of the Characteristics of the Actual Concept Synthesis Process or Patterns from the Virtual Concept Synthesis Process	97
7.4	Towards the Dynamic Simulation	101
	References	102
8	Constraints in Concept Synthesis: Distance Between and Association of Base Concepts	105
8.1	Distance Between the Base Concepts	105
8.1.1	Method of the Experiment	106
8.1.2	Results	107
8.2	Association of the Base Concepts	108
8.2.1	Method of the Experiment	109
8.2.2	Results	110
	References	113
9	Synthesis of Abstract Shape: Practice of Concept Generation (1)	115
9.1	Blending of Abstract Shapes	115
9.2	Method of Blending the Abstract Form Features	115
9.2.1	Evaluation Function Acquiring Process	116
9.2.2	Evaluation Function Blending Process	118
9.2.3	Blended Shape Creating Process	118
9.2.4	Abstract Shape Representation	119

9.3	Experiment	119
	References	121
10	Synthesis of Motions: Practice of Concept Generation (2)	123
10.1	Creative and Emotional Motion	123
10.2	Method of Generating Creative and Emotional Motion	124
10.2.1	A Mimic of Natural Objects	125
10.2.2	Blending of Motions	125
10.2.3	Emphasis on Rhythmic Features	125
10.2.4	Rhythmic Feature–Based Motion Blending	126
10.3	Procedure to Generate Creative and Emotional Motion	127
10.4	Experiment	128
10.4.1	Generation of Creative and Emotional Motion Using RFM Blending	128
10.4.2	Evaluation of Generated Motions	128
	References	132
11	Synthesis of Functions: Practice of Concept Generation (3)	133
11.1	Design of Function	133
11.2	Function Synthesis	135
11.2.1	Definition of the Function Synthesis in the FDP	136
11.2.2	Classification of the Function Synthesis in the FDP	136
11.2.3	Definition of the Word Abstraction–Concretion Operation	138
11.2.4	Definition of the Word Match	138
11.2.5	Formulation of the Function Synthesis in the FDP	139
11.3	Thesaurus	144
11.4	System for Function Synthesis in the FDP	147
11.5	A Trial to Generate a New Function Structure	148
	References	148
12	Summary and Discussion	151
12.1	Summary	151
12.1.1	Consideration of Concept Generation	151
12.1.2	Findings and Inferences from the Experiments and Simulation	153
12.1.3	New Research Methods for Concept Generation	155
12.1.4	Practice of Concept Generation	156
12.2	Discussion	156
12.2.1	What are the Inner Criteria?	156
12.2.2	What is an Ideal in Concept Generation?	157
12.2.3	How Should the Very Early Stage of Design be Investigated?	158

12.3	Towards the Future.	159
12.3.1	Beyond the Scope of this Book	160
12.3.2	Towards the Next Generation of Design	160
12.3.3	Approach to Understanding Human Beings	160
	References	161
	About the Authors.	163
	Index	165

Concept Generation for Design Creativity
A Systematized Theory and Methodology

Taura, T.; Nagai, Y.

2013, XII, 172 p., Hardcover

ISBN: 978-1-4471-4080-1
