# Contents

1 Chemistry and Classification of OP Compounds ............................... 1  
Beeta Balali-Mood

2 History of the Use and Epidemiology of Organophosphorus Poisoning ..................................................... 25  
Kambiz Soltaninejad and Shahin Shadnia

3 Acute Toxicity of Organophosphorus Compounds  ......................... 45  
Christopher M. Morris, Claire Savy, Sarah J. Judge and Peter G. Blain

4 Chronic Toxicity of Organophosphorus Compounds  .................... 79  
Leila Etemad, Mohammad Moshiri and Seyed Adel Moallem

5 Toxicity and Novel Biomarkers of OP Exposure  ............................ 119  
Tetsuo Satoh and Milan Jokanović

6 Clinical Management of Acute OP Pesticide Poisoning ..................... 141  
Darren M. Roberts and Jonathan Brett

7 Clinical Management of Organophosphorus Nerve Agents’ Poisonings .......................................................... 177  
Mohammad Moshiri, Anahita Alizadeh and Mahdi Balali-Mood

8 Occupational and Environmental Aspects of Organophosphorus Compounds ......................................................... 213  
Slavica Vučinić, Biljana Antonijević and Dragica Brkić

9 Summary, Discussion, and Conclusions  ....................................... 245  
Mahdi Balali-Mood and Mohammad Abdollahi

Index ........................................................................................................... 251
Basic and Clinical Toxicology of Organophosphorus Compounds
Balali-Mood, M.; Abdollahi, M. (Eds.)
2014, XII, 257 p. 31 illus., 6 illus. in color., Hardcover
ISBN: 978-1-4471-5624-6
