1	Energy-Based Economic Development	1
1.1	Why EBED, Why Now?	2
1.2	Reaching a Diverse Audience.	4
1.3	Complex Challenges that Establish the Need for EBED	5
1.3.1	Reduce Greenhouse Gases and Other Emissions.	5
1.3.2	Improve Cost, Efficiency, and Energy Security	6
1.3.3	Reduce Energy Poverty.	8
1.3.4	Identify Energy-Based Economic and Employment Opportunities	9
1.3.5	Identify Energy Links to Alleviate Poverty	9
1.4	Outline of the Book	10
	References	12
2	Defining Energy-Based Economic Development	15
2.1	Definition	15
2.1.1	Other Definitions of the Energy–Development Nexus	17
2.2	Foundations	19
2.2.1	Economic Development	19
2.2.2	Energy Policy and Planning.	20
2.2.3	Convergence	22
2.3	EBED Goals	23
2.3.1	Energy Goals	23
2.3.2	Economic Development Goals	27
2.4	Conclusion.	32
	References	32
3	Process and Approaches	37
3.1	Process	38
3.1.1	Engage Stakeholders	40
3.1.2	Identify Goals and Objectives	40
3.1.3	Identifying Assets, Needs, and Gaps.	41
3.1.4	Select and Design Strategy and Approach.	43
3.1.5	Identify Metrics	44

3.1.6	Pilot and Implement	44
3.1.7	Monitor and Evaluate	45
3.2	EBED Approaches	45
3.2.1	Point of Intervention	45
3.2.2	Geographic Scale	49
3.2.3	Scale of Transformation	51
3.3	Conclusion	52
	References	53
4	Supportive Policies for Energy-Based Economic Development . . .	55
4.1	Technology Innovation Policies	58
4.2	Technology Adoption and Commercialization Policies	60
4.2.1	Feed-In Tariffs	60
4.2.2	Net Metering, Interconnection Standards, and Framework Laws	61
4.2.3	Loan Guarantees	62
4.2.4	Incentives	62
4.2.5	Government Procurement and Demonstration	63
4.2.6	Information and Education	64
4.2.7	Regulatory Standards	64
4.3	Entrepreneurship Policies	65
4.3.1	Start-Up and Expansion Capital	66
4.3.2	Access to Infrastructure and Services	67
4.3.3	Entrepreneurship Awareness and Training	67
4.4	Industrial Growth Policies	68
4.4.1	Business Climate Policies	70
4.4.2	Information and Coordination Policies	70
4.4.3	Import Substitution, Export Promotion, and Foreign Direct Investment Policies	71
4.4.4	R&D for Industrial Growth Policies	72
4.5	Workforce Development	73
4.6	Climate and Environmental Policies	74
4.6.1	Emission Performance Standards	74
4.6.2	Direct Emissions Regulation	74
4.6.3	Taxes and Cap-and-Trade Programs	75
4.7	Planning	75
4.7.1	Integrated Resource Planning	76
4.7.2	Comprehensive and Strategic Planning	76
4.7.3	Low Emission Development Planning	77
4.7.4	Sustainable Cities Planning	77
4.8	Conclusion	78
	References	78

5	Evaluation and Metrics	81
5.1	Outcome Metrics	82
5.2	Type of Initiative Evaluated	86
5.3	Methodological Approach	87
5.4	Timing and Research Design	89
	References	90
6	Case Study Approach	95
6.1	Selection of EBED Cases	96
7	Subnational EBED Cases	99
7.1	Case Study 1: The Bandeirantes Landfill Gas to Energy Project	100
	7.1.1 The Program	100
	7.1.2 EBED Framework	101
7.2	Case Study 2: Clean Energy Works Oregon	102
	7.2.1 The Program	103
	7.2.2 EBED Framework	103
7.3	Case Study 3: Copenhagen Cleantech Cluster	104
	7.3.1 The Program	105
	7.3.2 EBED Framework	106
7.4	Case Study 4: Kamworks, Rural Cambodia	106
	7.4.1 The Program	107
	7.4.2 EBED Framework	108
7.5	Case Study 5: Natural Gas Development in Southwestern Pennsylvania, United States	109
	7.5.1 The Program	110
	7.5.2 EBED Framework	112
7.6	Case Study 6: Nuru Energy	113
	7.6.1 The Program	113
	7.6.2 EBED Framework	114
	References	115
8	National Case Studies	119
8.1	Case Study 7: Biofuels in Singapore	119
	8.1.1 The Program	120
	8.1.2 EBED Framework	121
8.2	Case Study 8: China Golden Sun	122
	8.2.1 The Program	122
	8.2.2 EBED Framework	123
8.3	Case Study 9: Ethiopia National Cookstoves Program	124
	8.3.1 The Program	125
	8.3.2 EBED Framework	125

8.4	Case Study 10: Lao People’s Democratic Republic National Hydropower Initiative	126
8.4.1	The Program	127
8.4.2	EBED Framework	127
8.5	Case Study 11: Morocco Solar and Wind	128
8.5.1	The Program	129
8.5.2	EBED Framework	130
8.6	Case Study 12: South African Renewables Initiative.	131
8.6.1	The Program	132
8.6.2	EBED Framework	133

9.1	Overview of ARRA	138
9.2	Energy-Related Recovery Act Offices and Programs.	139
9.2.1	Office of Energy Efficiency and Renewable Energy	141
9.2.2	Office of Electricity Delivery and Energy Reliability	145
9.2.3	DOE Loan Programs Office.	145
9.2.4	Department of Housing and Urban Development’s Green Retrofit Program.	146
9.2.5	Commonalities Within Programs	147
9.3	Case Studies of Selected Local Recovery Act–Funded Initiatives	147
9.3.1	Green Launching Pad	147
9.3.2	Energize Phoenix	148
9.3.3	Summary of Case Studies	150
9.4	Early Evaluations of ARRA and Potential Implications.	150
9.5	Conclusions	152
	References	153
10	Common Themes and Conclusions	157
10.1	EBED Efforts Often Require a Multidimensional and Comprehensive Approach	158
10.2	There is no Single Prescription.	158
10.3	Timing is Crucial and Difficult	159
10.4	Strategic Investment may be Necessary.	160
10.5	Project Self-Sufficiency can be Challenging.	161
10.6	Public–Private Partnerships Play an Important Role	161
10.7	Attention to Economic Benefit and Burden is Important	162
10.8	EBED Efforts may be Met by Unintended Consequences	162

10.9	Political Will and a Consistent, Stable Policy Environment is Crucial	163
10.10	Community Participation is Important, Especially for Place-Based Approaches.	163
10.11	EBED in the 21st Century	164

Energy-Based Economic Development
How Clean Energy can Drive Development and
Stimulate Economic Growth

Carley, S.; Lawrence, S.

2014, XIV, 165 p. 13 illus., Hardcover

ISBN: 978-1-4471-6340-4
