

Contents

1	Industrial Inspection with Open Eyes: Advance with Machine Vision Technology	1
	Zheng Liu, Hiroyuki Ukida, Kurt Niel and Pradeep Ramuhalli	
Part I Technology Advances		
2	Infrared Vision: Visual Inspection Beyond the Visible Spectrum	41
	Clemente Ibarra-Castanedo, Stefano Sfarra, Marc Genest and Xavier Maldague	
3	Inspection Methods for Metal Surfaces: Image Acquisition and Algorithms for the Characterization of Defects	59
	Reinhold Huber-Mörk, Gustavo Fernández Domínguez, Svorad Štolc, Daniel Soukup and Csaba Beleznai	
4	FlexWarp, a Fast and Flexible Method for High-Precision Image Registration: A Nonparametric Approach for Precise Image Registration Applied to Industrial Print Inspection	101
	Harald Penz, Franz Daubner, Ernst Bodenstorfer and Reinhold Huber-Mörk	
5	How Optical CMMs and 3D Scanning Will Revolutionize the 3D Metrology World	141
	Jean-Francois Larue, Daniel Brown and Marc Viala	
6	Fast Three-Dimensional Shape Inspection Using a Multi-sided Mirror	177
	Idaku Ishii	

7	Efficient Completeness Inspection Using Real-Time 3D Color Reconstruction with a Dual-Laser Triangulation System	201
	Matteo Munaro, Edmond Wai Yan So, Stefano Tonello and Emanuele Menegatti	
8	X-ray Computed Tomography for Non-destructive Testing and Materials Characterization	227
	Johann Kastner and Christoph Heinzl	
9	Defect Inspection for Curved Surface with Highly Specular Reflection	251
	Zhong Zhang and Changjiang Li	
 Part II Applications and System Integration for Vision-Based Inspection		
10	Robotic Inspection Systems	321
	Christian Eitzinger, Sebastian Zambal and Petra Thanner	
11	Machine Vision Techniques for Condition Assessment of Civil Infrastructure	351
	Christian Koch, Zhenhua Zhu, Stephanie German Paal and Ioannis Brilakis	
12	Smart Check 3D: An Industrial Inspection System Combining 3D Vision with Automatic Planning of Inspection Viewpoints	377
	Nicola Carlon, Nicolò Boscolo, Stefano Tonello and Emanuele Menegatti	
13	Ultrasonic Evaluation and Imaging	393
	Susan L. Crawford, Michael T. Anderson, Aaron A. Diaz, Michael R. Larche, Matthew S. Prowant and Anthony D. Cinson	
14	Nondestructive Visualization Using Electromagnetic Waves for Real and Practical Sensing Technology for Robotics	413
	Hiroyoshi Togo, Soichi Oka, Yoshihisa Fujii and Yuko Fujiwara	
15	Principles of Magneto-optic Imaging and Its Applications.	483
	Yiming Deng, Yuhua Cheng, Liang Xuan and Zhiwei Zeng
