Part I  Quality Management

A Multicriteria Multistep Approach for Evaluating Supplier Quality in Large Data Sets ................................. 3
Aqeel Al Salem, Anjali Awasthi and Chun Wang

Risk-Adjusted Performance Monitoring in Healthcare Quality Control ....................................................... 27
Li Zeng

Univariate and Multivariate Process Capability Analysis for Different Types of Specification Limits ................. 47
Ashis Kumar Chakraborty and Moutushi Chatterjee

Part II  Reliability Management

Modeling and Analyzing System Failure Behavior for Reliability Analysis Using Soft Computing-Based Techniques ................................................................. 85
Harish Garg

System Reliability Evaluation of a Multistate Manufacturing Network .......................................................... 117
Yi-Kuei Lin, Ping-Chen Chang and Cheng-Fu Huang

Systemability: A New Reliability Function for Different Environments ......................................................... 145
Alessandro Persona, Fabio Sgarbossa and Hoang Pham
Part III Maintenance Management

Innovative Maintenance Management Methods in Oil Refineries 197
M. Bevilacqua, F.E. Ciarapica, G. Giacchetta, C. Paciarotti
and B. Marchetti

Age Replacement Models with Random Works 227
Xufeng Zhao and Toshio Nakagawa

Availability of Systems with or Without Inspections 249
Kai Huang and Jie Mi

Reliability and Maintenance of the Surveillance Systems
Considering Two Dependent Processes 277
Yao Zhang and Hoang Pham

Part IV Design, Applications and Practices

Reliability Management 309
Fred Schenkelberg

Design for Reliability and Its Application in Automotive Industry 353
Guangbin Yang

Product Durability/Reliability Design and Validation Based
on Test Data Analysis 379
Zhigang Wei, Limin Luo, Fulun Yang, Burt Lin and Dmitri Konson

Turbine Fatigue Reliability and Life Assessment
Using Ultrasonic Inspection: Data Acquisition,
Interpretation, and Probabilistic Modeling 415
Xuefei Guan, El Mahjoub Rasselkorde, Waheed A. Abbasi
and S. Kevin Zhou

Fusing Wavelet Features for Ocean Turbine Fault Detection 435
Janell Duhaney, Taghi M. Khoshgoftaar and Randall Wald

Index 449
Quality and Reliability Management and Its Applications
Pham, H. (Ed.)
2016, XVII, 451 p., Hardcover
ISBN: 978-1-4471-6776-1
