Preface.................................................................................................................. vii
About the Author................................................................................................. xi
Acknowledgements............................................................................................. xiii

1. Because We Live on One! – or – Why Planets and Exoplanets Are Important ................................................. 1
2. A Quick Tour of the Exoplanet Menagerie ............................................... 7
3. An Exoplanet Retrospective ........................................................................ 15
4. In the Beginning – The First Exoplanet Discoveries...... 45
5. On the Track of Alien Planets – The Radial Velocity or Doppler Method (~70% of All Exoplanet Primary Discoveries) ........................................................................................................ 71
6. On the Track of Alien Planets – The Transit Method (~23% of All Exoplanet Primary Discoveries) ......................77
7. On the Track of Alien Planets – Direct Imaging and Observation (~2.9% of All Exoplanet Primary Discoveries or ~6% if Free Floating Planets are Included)............................................................................. 105
8. On the Track of Alien Planets – Gravitational Microlensing (~2.3% of All Exoplanet Primary Discoveries) ........................................................................................................ 119
9. On the Track of Alien Planets – Timing (~1.9% of All Exoplanet Primary Discoveries) .............................. 127
10. On the Track of Alien Planets – Other Approaches (0% of All Exoplanet Primary Discoveries) ................... 133
Contents

11. Where Do We Go from Here? – Future Approaches to Exoplanet Detection and Study .................................. 143

12. Exoplanets Revealed – What They Are Really Like ....... 157

14. Future Homes for Humankind? ................................................. 203

Appendix I Nomenclature – or – What’s in a Name? ........ 233
Appendix II Note on Distances, Sizes and Masses, etc....... 239
Appendix III Further Reading ...................................................... 243
Appendix IV Technical Background – Some of the Mathematics and Physics Involved in the Study of Exoplanets ............. 247
Appendix V Names, Acronyms and Abbreviations .............. 269

Index ......................................................................................... 273
Exoplanets
Finding, Exploring, and Understanding Alien Worlds
Kitchin, C.R.
2012, XVI, 281 p. 76 illus., 36 illus. in color., Softcover
