Contents

1 Problems Related to Redo Cardiac Surgery
Venkat R. Machiraju ........................................ 1

2 Practical Approaches to the Current “On-Pump” Redo Coronary Artery Bypass Surgery
Venkat R. Machiraju ........................................ 7

3 Off-Pump Coronary Artery Bypass Grafting for Repeat Coronary Revascularization
Richard J. Myung and John D. Puskas ................................. 21

4 Management of Perioperative Stroke
Amer M. Malik and Lawrence R. Wechsler ................................. 29

5 Acute Kidney Injury Associated with Cardiac Surgery
Mitchell H. Rosner ........................................ 37

6 Pulmonary Factors in Redo Open Heart Surgery
David O. Wilson ........................................ 53

7 Transfusion Therapy in Reoperative Cardiac Surgery
Anand Padmanabhan and Darrell J. Triulzi ................................. 57

8 Anesthesia for Redo Cardiac Surgery
Cynthia M. Wells and Andrew W. Murray ................................. 63

9 Options for Advanced Mechanical Support for Cardiogenic Shock Complicating Cardiac Reoperations
Christian Bermudez, Kenji Minakata, and Robert L. Kormos ................................. 67

10 Reoperations for Mitral Valve Disease: Surgical Approaches and Techniques
Hartzell V. Schaff and Arman Arghami ........................................ 81

11 Reoperation Following Mitral Valve Repair
Rakesh M. Suri and Hartzell V. Schaff ................................. 89

12 Reoperation for Prosthetic Mitral Valve Endocarditis
Kevin L. Greason and Hartzell V. Schaff ........................................ 99

13 Surgical Management of Atrial Fibrillation in Redo Cardiac Operations
John M. Stulak and Hartzell V. Schaff ........................................ 109
14 Surgical Management of Tricuspid Valve Disorders .......................... 121
Venkat R. Machiraju

15 Reoperation for Aortic Valve Disease ............................................. 125
Lars G. Svensson

16 Reoperation Following Homograft Aortic Valve Replacement ................................................................. 133
Thoralf M. Sundt III

17 Prosthetic Aortic Valve and Root Endocarditis ............................. 141
Gosta B. Pettersson, Rajesh Ramankutty, Brian Griffin, and Thomas Fraser

18 Reoperation on the Aortic Arch ..................................................... 151
Lars G. Svensson

19 Descending and Thoracoabdominal Aortic Reoperations ............. 157
Edward Soltesz

20 Reoperations Following Endovascular Aortic Repair .................. 171
Eric E. Roselli

21 Percutaneous Approaches to Valvular Heart Disease
   After Previous Cardiac Surgery ...................................................... 195
   John M. Stulak and Hartzell V. Schaff

Index ...................................................................................................... 201
Redo Cardiac Surgery in Adults
Machiraju, V.R.; Schaff, H.V.; Svensson, L.G. (Eds.)
2012, X, 205 p., Hardcover
ISBN: 978-1-4614-1325-7
