# Contents

1 **Introduction** ........................................ 1  
   1.1 Introduction ........................................ 1  
   1.2 The Role of Discussion ................................. 2  
   1.3 Asynchronous Online Discussion ....................... 3  
      1.3.1 Potential Benefits of Asynchronous Online Discussion ................................. 3  
      1.3.2 An Example of How Asynchronous Online Discussion Could be Integrated into Teaching and Learning ........................................ 4  
      1.3.3 Participation in Asynchronous Online Discussions ..................................... 7  
      1.3.4 Limited Student Contribution ............................. 9  
   1.4 The Purpose and Plan of this Book ..................... 10  
References ................................................. 11  

2 **Challenges: Findings from Previous Empirical Research** .................. 15  
   2.1 Sources of Data ........................................ 15  
   2.2 Factors Leading to Limited Student Contribution ........... 16  
      2.2.1 Not Seeing the Need for Online Discussion ........................................ 16  
      2.2.2 Behavior or Practice of Instructor or Participants .......................... 17  
      2.2.3 Student Personality Traits .................................. 18  
      2.2.4 Difficulty in Keeping Up with the Discussion ........................... 19  
      2.2.5 Not Knowing What to Contribute/Lack of Worthwhile Comments to Contribute ........... 19  
      2.2.6 Exhibiting Surface-Level/Lower Order Critical Thinking ......................... 20  
      2.2.7 Displaying Low-Level Knowledge Construction ................................ 21  
      2.2.8 Technical Aspects ........................................ 24  
      2.2.9 Lack of Time ............................................. 24  
      2.2.10 Risk of Being Misunderstood ............................. 25  
References ................................................. 25
3 Possible Strategies to Overcome Limited Student Contribution: Empirical Findings From Previous Research

3.1 Addressing Students Not Seeing the Need for Online Discussion
3.2 Addressing the Behavior of Other Participants
3.3 Addressing Personality Traits
3.4 Addressing Student Difficulty in Keeping Up with the Discussion
3.5 Addressing Students Being at Loss of What to Contribute
3.6 Addressing Students’ Surface-Level Critical Thinking
3.7 Addressing Students’ Low-Level Knowledge Construction
3.8 Addressing Technical Aspects
3.9 Addressing the Problem of Lack of Time
3.10 Addressing the Risk of Being Misunderstood

References

4 Discussion on Strategy Dilemmas

4.1 Use of Grades or Marks
4.2 Use of Number of Posting Guideline and Posting Deadlines
4.3 Use of Sentence Openers or Message Labels
4.4 Extending the Duration of the Online Discussion
4.5 Use of Instructor Facilitation
4.6 The Case for Peer Facilitation

References

5 Case Studies on Peer Facilitation: What Motivates Participants to Contribute?

5.1 Examining Habits of Mind
5.1.1 Peer Facilitators Should Display the Following Two Habits of Mind More Frequently: Awareness of Own Thinking and Open-Mindedness
5.2 Examining Other Possible Reasons Why Students Contribute in Online Discussions
5.2.1 Emphasize Efforts to Nurture Relational Capital Among Students
5.2.2 Remind Students to “Help Other People First”
5.2.3 Choose Interesting Discussion Topics or Questions, Especially Those That are Relevant and Controversial
5.2.4 Peer Facilitators Should Periodically Summarize the Main Points of a Discussion and Follow Up with Relevant Questions After the Summary

6 Case Studies on Peer Facilitation: How to Sustain Participants’ Online Discussion? .......................................................... 77
  6.1 Examining Thread Development Patterns .............................. 77
    6.1.1 The Mere Number of Peer Facilitator Postings Appears to Have No Influence. Also Avoid Trying To Resolve Differences Early .................... 78
  6.2 Investigating the Role of Questions and Other Facilitation Techniques .......................................................... 79
    6.2.1 The Use of Questions Appears to Sustain the Discussion ......................... 82
    6.2.2 Encourage Peer Facilitators to Convey Sincere Appreciation for Other People’s Contribution .......... 82
    6.2.3 Refrain from Citing Sources Too Often ......................... 83
    6.2.4 Show Openness to Feedback .................................. 83
References ............................................................................. 85

7 Case Studies on Peer Facilitation: How to Foster Higher Levels of Knowledge Construction ............................................. 87
  7.1 Investigating the Role of Group Size, Duration of Discussion, and Peer Facilitation Techniques ......................... 87
  7.2 Major Findings of Studies 8, 9, and 10 Regarding Possible Ways to Foster Higher Knowledge Construction Levels ........... 91
    7.2.1 Split the Online Discussion Into Groups of About 10 People Each .................. 91
    7.2.2 Higher Level Knowledge Construction Occurrences Not Linked to the Duration of the Online Discussion ............. 93
    7.2.3 Need to Explicitly Point Participants to Unresolved Issues .................... 93
    7.2.4 Summarizing ...................................................... 95
    7.2.5 Providing Own Opinions ........................................ 95
    7.2.6 Fostering an Open Environment for Argument ................. 96
References ............................................................................. 96

8 Peer Versus Instructor: Under What Conditions do Students Prefer? ........................................................................ 99
  8.1 Investigating Peer Versus Instructor Facilitation ...................... 99
  8.2 Major Findings Learned Regarding Conditions or Situations That May Best Be Addressed Using Peer or Instructor Facilitation ........................................ 100
    8.2.1 Conditions Under Which Students Prefer the Instructor as the Facilitator .................. 100
    8.2.2 Conditions Under Which Students Prefer Their Peers as the Facilitator ............... 101
