Contents

1 What Is This Book About? ........................................................................ 1
   The Focus of This Book.......................................................................... 1
   Probing Beyond .................................................................................... 3
   Interdisciplinary Issues .......................................................................... 3
   Contributors to This Book .................................................................... 4
   References.............................................................................................. 4

2 Visions of Not-Earth: Space Arts ............................................................. 5
   Stories of Not-Earth ............................................................................... 5
   Voyages of Discovery ............................................................................ 7
   Emerging Science Fiction and a Sense of the Future............................. 7
   Early Science Fiction ........................................................................... 8
   Modern Science Fiction and Actual Spaceflight ..................................... 8
   Not-Earth in Movies, Television, and Games ........................................ 10
   Poetry About Not-Earth ......................................................................... 11
   Space Art and Illustrations ................................................................... 13
   Dancing in Space .................................................................................. 14
   Music of the Spheres ............................................................................ 15
   Popular Space Music ............................................................................ 16
   References.............................................................................................. 17

3 Dreams, Rockets, Rivalries, and Jobs ..................................................... 19
   Why Did the Space Age Happen? ......................................................... 19
   How Did the Space Age Happen? ......................................................... 20
   Three “Fathers” of the Space Age ......................................................... 22
   The Space Age and World War II ......................................................... 24
   The Cold War ....................................................................................... 26
   Is the Space Age Over? ........................................................................ 27
   Jobs for Space on Earth ....................................................................... 29
   References.............................................................................................. 29
# Contents

## 4 Cultural Rationales for Space
- All Rationales Are Cultural Rationales
- From Nomads to Civilization
- Cultures and the Stars
- Religion and Not-Earth
- Sex and Space
- Culture and Space Policies
- Earthrise! and Sunset?
- References

## 5 Humans in Space
- Humans in Space
- Earth Analogs for Not-Earth
- Social Science About Human Behavior in Space
- Social Science Findings About Humans in Space
- What Happens Without Good Social Science?
- Social Scientists and Space Research
- References

## 6 Humans, Robots, Artificial Intelligence, and Autonomous Entities in Space
- “We Shape Our Tools and Thereafter Our Tools Shape Us”
- Right Stuff or Right Robots?
- Space: Just an Ordinary Job
- Humans and Robots Together
- Robot Ethics
- Beyond the Uncanny Valley
- References

## 7 Governance for Space Settlements
- Society Is an Invention
- New Governance for Space?
- We’re Made for Small Groups
- States, Kings, Empires
- New Classes, New Governance
- Old Cosmologies, Old Technologies
- Direct Democracy?
- Direct Bureaucracy?
- Direct Adjudication?
- Beyond the “Three Branches”
- Freedom or Order?
- Governance for Not-Earth: Back to Basics
- Our Best Hope for Better Governance in Space?
- References
