Contents

1 Introduction ........................................................................................................ 1
   Dimitri Novitzky and David K.C. Cooper

2 Historical Aspects of the Diagnosis of Death ................................................. 7
   Félix Bacigalupo and Daniela A. Huerta Fernández

3 The Determination of Brain Death ................................................................. 13
   Curtis M. Keller, Boris Chulpayev, and Michael Hoffmann

4 Legal Aspects of Brain Death and Organ Donorship ................................. 21
   Ricky T. Munoz and Mark D. Fox

5 Ethical Issues in Organ Donation from Brain-Dead Donors ....................... 37
   Mark D. Fox and Ricky T. Munoz

6 Pathophysiology of Brain Death in Small Animal Models ......................... 55
   Bernhard Floerchinger, Nicholas L. Tilney, and Stefan G. Tullius

7 Pathophysiology of Brain Death and Effects of Hormonal Therapy in Large Animal Models ............................................................. 65
   Dimitri Novitzky, Winston N. Wicomb, and David K.C. Cooper

8 The Efficacy of Thyroid Hormone Therapy in Brain-Dead Heart Donors: A Review of Thyroid Function in Health and Disease ................................. 91
   Lawrence E. Shapiro and Tatiana Baron

9 The Inflammatory Response to Brain Death ................................................. 107
   Anne Barklin, Christine Lodberg Hvas, and Else Toennesen

10 The Influence of Brain Death and Intensive Care Management on Donor Organs: Assessment of Inflammatory Markers ........................................ 121
    Wayel Jassem and Susan V. Fuggle
11 Brain Death-Induced Inflammation: Possible Role of the Cholinergic Anti-inflammatory Pathway .......................... 131
Simone Hoeger and Benito A. Yard

12 Innate Immunity and Injury During Brain Death: Opportunities for Intervention .................................................. 139
Marc A. Seelen, Henri G.D. Leuvenink, and Rutger J. Ploeg

13 Selection of the Brain-Dead Potential Organ Donor ............ 147
Kadiyala V. Ravindra, Keri E. Lunsford, and Paul C. Kuo

14 Infectious Disease Aspects of the Brain-Dead Potential Organ Donor ................................................................. 155
Nicole M. Theodoropoulos and Michael G. Ison

15 Malignancy in the Brain-Dead Organ Donor ..................... 177
Michael A. Nalesnik, Ron Shapiro, and Michael G. Ison

16 Early Clinical Experience of Hormonal Therapy in the Brain-Dead Potential Organ Donor .......................... 191
Dimitri Novitzky, Burcin Ekser, and David K.C. Cooper

17 Assessment, Monitoring, and Management of the Brain-Dead Potential Organ Donor in the USA ............ 209
Demetrios Demetriades and Lydia Lam

18 Assessment, Monitoring, and Management of Brain-Dead Potential Organ Donors in Europe ................ 217
Gabriel J. Echeverri and Bruno G. Gridelli

19 Assessment, Monitoring, and Management of Brain-Dead Potential Organ Donors in Australia ................ 237
Peter S. Macdonald, Anders E.M. Aneman, Deepak Bhonagiri, Daryl A. Jones, Gerry O’Callaghan, Helen I. Opdam, William Silvester, and Geoffrey J. Dobb

20 Management of the Brain-Dead Organ Donor: Perspectives of the Transplant Coordinator .......................... 251
Nicole T. Farina and David K.C. Cooper

21 Surgical Aspects of Thoracic and Abdominal Organ Procurement from Brain-Dead Donors ................ 263
Michael J. Anstadt, Paul C. Kuo, and Kadiyala V. Ravindra

22 Impact of Brain Death on Storage of the Heart .................. 283
Winston N. Wicomb, and David K.C. Cooper
