Contents

Part I Essentials of Inguinal Hernia

1 Establishing a Hernia Program and Follow-Up Regimen: 
   A Complex Systems Design for Care and Improvement........ 3  
   Bruce Ramshaw

2 Prosthetic Choice in Open Inguinal Hernia Repair............. 19  
   Lisa C. Pickett

3 Prosthetic Choice in Laparoscopic Inguinal Hernia Repair..... 27  
   Emily L. Albright and J. Scott Roth

Part II Techniques for Inguinal Hernia Repair

4 Technique: Lichtenstein .................................................... 41  
   David C. Chen and Parviz K. Amid

5 Technique: Plug and Patch ............................................... 55  
   Carl Doerhoff

6 Technique: Laparoscopic TEP .......................................... 71  
   Guy Voeller and Benjamin S. Powell

7 Technique: Laparoscopic TAPP and IPOM ...................... 81  
   William S. Cobb IV

8 Strangulated Inguinal Hernia ......................................... 91  
   Jonathan P. Pearl and E. Matthew Ritter

9 Femoral Hernia.............................................................. 103  
   Daniel E. Swartz and Edward L. Felix

Part III Outcomes and Complications Following 
Inguinal Hernia Repair

10 Results of Laparoscopic Repair of Inguinal Hernia............ 117  
   Daniel Marcus
11 Outcomes After Transabdominal Preperitoneal Inguinal Hernia Repair

Nicole Fearing and Kimberly Ponnuru

12 Cord Structure Complications in Inguinal Hernia Surgery

Aaron M. Lipskar and Mark A. Reiner

13 Intraoperative Complications During Laparoscopic Hernia Repair

Davide Lomanto and Rajat Goel

14 Urinary Retention After Laparoscopic Inguinal Hernia Repair

David A. McClusky III

15 Recurrent Inguinal Hernia: The Best Approach

Abe Fingerhut and Mousa Khoursheed

16 Athletic Groin Pain and Sports Hernia

Nathaniel Stoikes and L. Michael Brunt

Part IV Current Debates in Inguinal Hernia Repair

17 TAPP vs. TEP

Alfredo M. Carbonell II

18 Fixation Versus No Fixation in Laparoscopic TEP and TAPP

Viney K. Mathavan and Maurice E. Arregui

19 Laparoscopic Versus Open Repair for the Uncomplicated Unilateral Inguinal Hernia

Pradeep Pallati and Robert J. Fitzgibbons Jr.

20 Polyester, Polypropylene, ePTFE for Inguinal Hernias: Does It Really Matter?

Dmitry Oleynikov and Matthew Goede

Part V Essentials of Ventral and Incisional Hernia Repair

21 Evolution of Incisional and Ventral Hernia Repair

Malini D. Sur and L. Brian Katz
22 Tissue Ingrowth: The Mesh–Tissue Interface: What Do We Know So Far?.............................. 253
   Gregory J. Mancini and A. Mariah Alexander

23 Patient Comorbidities Complicating a Hernia Repair: The Preoperative Workup and Postoperative Planning .......... 271
   Scott Philipp

24 What Is a Complex Abdominal Wall?............................................. 283
   Mickey M. Ott and Jose J. Diaz Jr.

Part VI  Techniques for Ventral and Incisional Hernia Repair

25 Synthetic Prosthetic Choices in Ventral Hernia Repair.......... 299
   Sheila A. Grant

26 Biologic Prosthetics: What Are They and How Do They Interact with the Body? ....................... 311
   Gina L. Adrales and Elizabeth Honigsberg

27 Open Component Separation for Abdominal Wall Reconstruction............................................. 323
   David Earle

28 Endoscopic Component Separation .............................................. 333
   Michael J. Rosen

29 Technique: Laparoscopic Ventral/Incisional Hernia Repair..... 341
   Archana Ramaswamy

30 Loss of Abdominal Domain.......................................................... 353
   Victor B. Tsirline, Igor Belyansky, David A. Klima, and B. Todd Heniford

31 Drains, Pain Pumps, and Abdominal Binders......................... 371
   Chris Edwards

Part VII  Outcomes and Complications Following Ventral and Incisional Hernia Repair

32 Skin Necrosis After Open Component Separation: Prevention and Management.......................... 381
   Jignesh V. Unadkat and Dinakar Golla
33 Recurrent Incisional Hernia Repair .......................................... 387
   John G. Linn and Dean J. Mikami

34 Chronic Mesh Infections .......................................................... 399
   Andrei Churyla and Andrew B. Lederman

35 Adhesions After Lap Ventral: Do They Matter? ...................... 405
   Dennis L. Fowler

36 Chronic Pain After Ventral Hernia Repair ............................... 411
   Victor B. Tsirline, David A. Klima, Igor Belyansky, and Kent W. Kercher

37 Enterotomy During Hernia Repair ........................................... 423
   Ross F. Goldberg and C. Daniel Smith

38 Chronic Seroma ........................................................................ 431
   Morris Franklin Jr., Richard Alexander, Gerardo Lozano, and Karla Russek

Part VIII  Current Debates in Ventral and Incisional Hernia Repair

39 Bridging Versus Closing the Defect During Laparoscopic Ventral Hernia Repair .............................................................. 439
   Yuri W. Novitsky

40 Bridging versus Closing the Defect During Laparoscopic Ventral Hernia Repair: It Is OK to Bridge .................. 445
   Stephen M. Kavic and Adrian Park

41 The Bariatric Patient with a Complex Ventral Hernia .............. 455
   Jenny J. Choi and Alfons Pomp

42 Open Versus Endoscopic Component Separation: How to Choose One or the Other ...................................................... 463
   Eduardo Parra-Davila, Juan J. Diaz-Hernandez, and Carlos M. Ortiz-Ortiz

43 Absorbable Fixation Materials: A Critical Appraisal .............. 475
   Kevin El-Hayek and Matthew Kroh

44 Biologic Mesh: When and Why — A Critical Appraisal ........... 487
   Jaime A. Cavallo, Corey R. Deeken, and Brent D. Matthews
