Contents

1 Factorization Properties for a MAP-Modulated Fluid Flow Model Under Server Vacation Policies .................. 1
   Jung Woo Baek, Ho Woo Lee, Se Won Lee, and Soohan Ahn

2 A Compressed Cyclic Reduction for QBD processes with Low-Rank Upper and Lower Transitions .................. 25
   Dario A. Bini, Paola Favati, and Beatrice Meini

3 Bilateral Matrix-Exponential Distributions .................. 41
   Mogens Bladt, Luz Judith R. Esparza, and Bo Friis Nielsen

4 AutoCAT: Automated Product-Form Solution of Stochastic Models .......................................................... 57
   Giuliano Casale and Peter G. Harrison

5 Markovian Trees Subject to Catastrophes: Would They Survive Forever? .................................................. 87
   Sophie Hautphenne, Guy Latouche, and Giang T. Nguyen

6 Majorization and Extremal PH Distributions .................. 107
   Qi-Ming He, Hanqin Zhang, and Juan C. Vera

7 Acceptance-Rejection Methods for Generating Random Variates from Matrix Exponential Distributions and Rational Arrival Processes .................................................. 123
   Gábor Horváth and Miklós Telek

8 Revisiting the Tail Asymptotics of the Double QBD Process: Refinement and Complete Solutions for the Coordinate and Diagonal Directions ............................................. 145
   Masahiro Kobayashi and Masakiyo Miyazawa

9 Two-Dimensional Fluid Queues with Temporary Assistance ........ 187
   Guy Latouche, Giang T. Nguyen, and Zbigniew Palmowski
10 A Fluid Introduction to Brownian Motion and Stochastic Integration 209
Vaidyanathan Ramaswami

11 Impact of Dampening Demand Variability in a Production/Inventory System with Multiple Retailers ................................................................. 227
B. Van Houdt and J.F. Pérez

Index ........................................................................................................ 251
Matrix-Analytic Methods in Stochastic Models
Latouche, G.; Ramaswami, V.; Sethuraman, J.; Sigman, K.; Squillante, M.S.; Yao, D. (Eds.)
2013, XIV, 258 p., Hardcover
