## Prologue

<b>1</b>	<b>An Introduction to HACCP and Its Role in Food Safety Control . . . .</b>	<b>1</b>
1.1	HACCP: The Basic Questions Answered . . . . .	2
1.1.1	What Is HACCP? . . . . .	2
1.1.2	What Are the Principles of HACCP? . . . . .	3
1.1.3	Where Did HACCP Come from? . . . . .	4
1.1.4	So, Why Should You Use HACCP? . . . . .	4
1.1.5	Why Can't We Rely on Inspection and Testing? . . . . .	6
1.1.6	What Are the Benefits? . . . . .	9
1.1.7	Is HACCP All I Need to Do for Food Safety? . . . . .	10
1.1.8	Can HACCP Be Used to Reduce Food Safety Risk in the Absence of Adequate PRPs? . . . . .	10
1.1.9	Is HACCP Applicable to Everyone? . . . . .	11
1.1.10	Why Should I Revisit My HACCP Program? I've Done This Already . . . . .	15
1.2	External Position and Drivers for HACCP Use . . . . .	16
1.2.1	Customers and Consumers . . . . .	17
1.2.2	International Government Regulation . . . . .	18
1.2.3	Government Inspectors and Enforcers . . . . .	23
1.2.4	International Standardization . . . . .	24
1.2.5	Media Issues and Brand Protection . . . . .	26
1.3	Problems with Effective Implementation of HACCP: Why HACCP Fails . . . . .	26
1.3.1	Examples of Food Safety Incidents . . . . .	27
1.3.2	Failure to Understand HACCP: Common Misconceptions . . . . .	34
1.4	Key Points Summary . . . . .	35

- 2 Preparation and Planning to Achieve Effective Food Safety Management** . . . . . 37
  - 2.1 The Key Stages of HACCP . . . . . 38
  - 2.2 Preparing the Way: Personnel and Training . . . . . 40
    - 2.2.1 Personnel Resources . . . . . 40
    - 2.2.2 What Are the Training Requirements? . . . . . 45
  - 2.3 What Is Our Current Status? Baseline Audit and Gap Analysis . . . . . 50
    - 2.3.1 Performing the Gap Analysis: Questions to Consider for PRP Assessment . . . . . 51
  - 2.4 Use of the Hazard Analysis and Risk Evaluation Process as an Enabler to GMP Improvement . . . . . 56
  - 2.5 How Do We Get There? Project Planning . . . . . 59
    - 2.5.1 What Structure Should the HACCP System Take? . . . . . 59
    - 2.5.2 Using Project Planning Techniques . . . . . 61
    - 2.5.3 Drawing up the Project Plan . . . . . 63
  - 2.6 Continuous Improvement . . . . . 65
  - 2.7 Key Point Summary . . . . . 66
- 3 Hazards, Their Significance, and Control** . . . . . 67
  - 3.1 Hazards and Their Significance . . . . . 67
    - 3.1.1 Hazards and the Consumer . . . . . 68
    - 3.1.2 Assessing Hazard Significance . . . . . 70
  - 3.2 Understanding Control Measures for Practical Hazard Control . . . . . 71
  - 3.3 Biological Hazards . . . . . 72
    - 3.3.1 Biological Hazards and the Consumer . . . . . 73
    - 3.3.2 Major Pathogenic Bacteria of Relevance to Food . . . . . 74
    - 3.3.3 Viruses . . . . . 79
    - 3.3.4 Parasites and Protozoa . . . . . 79
    - 3.3.5 Prions . . . . . 80
    - 3.3.6 Emerging Pathogens . . . . . 80
    - 3.3.7 Animal Pathogens of Relevance to the Global Food Supply Chain . . . . . 82
  - 3.4 Control of Biological Hazards . . . . . 82
    - 3.4.1 Intrinsic Factors . . . . . 82
    - 3.4.2 Process Technologies . . . . . 87
    - 3.4.3 Summary of Control Options for Biological Hazards . . . . . 89
  - 3.5 Chemical Hazards . . . . . 91
    - 3.5.1 Mycotoxins . . . . . 93
    - 3.5.2 Marine Toxins (Fish and Shellfish Poisoning) . . . . . 95
    - 3.5.3 Cleaning Chemicals . . . . . 95
    - 3.5.4 Pesticides . . . . . 97
    - 3.5.5 Allergens and Food Intolerances . . . . . 97

- 3.5.6 Toxic Metals (also known as heavy metals) . . . . . 99
- 3.5.7 Nitrites, Nitrates, and *N*-Nitroso Compounds . . . . . 100
- 3.5.8 Polychlorinated Biphenyls . . . . . 100
- 3.5.9 Dioxins and Furans . . . . . 101
- 3.5.10 Polycyclic Aromatic Hydrocarbons . . . . . 101
- 3.5.11 Plasticizers and Packaging Migration . . . . . 101
- 3.5.12 Veterinary Residues . . . . . 102
- 3.5.13 Melamine and Cyanuric Acid . . . . . 102
- 3.5.14 Chemical Additives . . . . . 102
- 3.6 Control of Chemical Hazards . . . . . 103
  - 3.6.1 Summary of Control Options for Chemical Hazards . . . . . 104
- 3.7 Physical Hazards . . . . . 105
  - 3.7.1 Glass . . . . . 105
  - 3.7.2 Metal . . . . . 106
  - 3.7.3 Stones . . . . . 106
  - 3.7.4 Wood . . . . . 107
  - 3.7.5 Plastic . . . . . 107
  - 3.7.6 Pests . . . . . 108
  - 3.7.7 Intrinsic Material . . . . . 108
- 3.8 Control of Physical Hazards . . . . . 108
  - 3.8.1 Summary of Control Options for Physical Hazards . . . . . 109
- 3.9 Radiological Hazards . . . . . 110
- 3.10 Conclusions . . . . . 110
- 3.11 Key Points Summary . . . . . 110
- 4 Prerequisites for Food Safety: PRPs and Operational PRPs . . . . . 113**
  - 4.1 Definitions and Standards . . . . . 113
    - 4.1.1 Definitions . . . . . 114
    - 4.1.2 Standards and Guidelines . . . . . 116
  - 4.2 Environment, Programs, and People . . . . . 122
    - 4.2.1 Environmental Focus: Design for Good Hygiene . . . . . 122
    - 4.2.2 Programs . . . . . 128
    - 4.2.3 People . . . . . 147
  - 4.3 Validation and Verification of PRPs . . . . . 153
  - 4.4 Key Points Summary . . . . . 153
- 5 Designing Food Safety . . . . . 155**
  - 5.1 Product Safety Design . . . . . 156
    - 5.1.1 Designing Your Recipe Formulation . . . . . 157
    - 5.1.2 Designing Safe Processes . . . . . 158
    - 5.1.3 Safe Raw Materials for Safe Product Design . . . . . 158
    - 5.1.4 Establishing a Safe and Achievable Shelf-Life . . . . . 159
  - 5.2 Prerequisite Program Design . . . . . 161
  - 5.3 Equipment and Factory Design for Product Safety . . . . . 161
  - 5.4 Product Safety Assessment . . . . . 163

- 5.4.1 Development Specification . . . . . 163
- 5.4.2 Product Concept Safety Considerations . . . . . 165
- 5.5 Key Points Summary . . . . . 173
- 6 How to Do a HACCP Study . . . . . 175**
  - 6.1 What Is the HACCP Plan? . . . . . 175
    - 6.1.1 The Process Flow Diagram . . . . . 176
    - 6.1.2 The HACCP Control Chart . . . . . 176
  - 6.2 Define Your Terms of Reference . . . . . 177
  - 6.3 Describe the Products and Their Intended Use . . . . . 180
  - 6.4 Constructing a Process Flow Diagram . . . . . 182
    - 6.4.1 Types of Data . . . . . 182
    - 6.4.2 Style . . . . . 183
    - 6.4.3 Verify as Correct During Manufacture . . . . . 183
  - 6.5 Carrying out the Hazard Analysis . . . . . 188
    - 6.5.1 The Structured Approach to Hazard Analysis . . . . . 188
    - 6.5.2 Questions to Be Considered . . . . . 190
    - 6.5.3 Ensuring Sufficient Detail . . . . . 192
    - 6.5.4 Severity and Hazard Significance . . . . . 193
    - 6.5.5 Reference Materials: Where to Find Them and How to Use Them . . . . . 198
    - 6.5.6 Identifying Control Measures . . . . . 199
  - 6.6 Making Food Safety Decisions . . . . . 210
    - 6.6.1 Where Are the Critical Control Points? . . . . . 210
    - 6.6.2 Use of CCP Decision Trees for Raw Materials . . . . . 211
    - 6.6.3 Use of CCP Decision Trees for Process Steps . . . . . 214
    - 6.6.4 Operational PRPs . . . . . 221
  - 6.7 Building Up the HACCP Control Chart . . . . . 226
    - 6.7.1 What Are the Critical Limits? . . . . . 226
    - 6.7.2 Validating Your Critical Limits . . . . . 230
    - 6.7.3 Confirming Process Capability . . . . . 233
    - 6.7.4 Finding the Right Monitoring Procedure . . . . . 237
    - 6.7.5 Corrective Action Requirements . . . . . 238
  - 6.8 Validation of the HACCP Plan . . . . . 244
  - 6.9 Key Point Summary . . . . . 249
- 7 Implementation, Verification, and Maintenance for Ongoing Risk Management . . . . . 251**
  - 7.1 Implementation of the HACCP Plan . . . . . 252
    - 7.1.1 Preliminary Steps: Challenging Your Controls and Corrective Action Systems . . . . . 253
    - 7.1.2 Implementation Requirements and Action Planning . . . . . 256
  - 7.2 Set Up CCP Management Systems: Monitoring, Corrective Action and Record Keeping Requirements . . . . . 259
    - 7.2.1 Developing Monitoring Records . . . . . 259

- 7.2.2 Monitoring Methods: Use of Statistical Techniques . . . . . 260
- 7.2.3 Corrective Action: Requirements for Reporting and Acting on Deviations . . . . . 262
- 7.2.4 Feedback on Results . . . . . 263
- 7.3 Additional Facilities and Equipment for HACCP Implementation . . 263
  - 7.3.1 Facilities . . . . . 264
  - 7.3.2 Equipment . . . . . 264
  - 7.3.3 CCP Identification on Facilities and Equipment . . . . . 265
  - 7.3.4 Modifications: Are They Complete? . . . . . 265
- 7.4 Education and Training . . . . . 265
  - 7.4.1 Foundation Training . . . . . 266
  - 7.4.2 CCP Monitors . . . . . 267
- 7.5 Confirm Implementation Actions Are Complete: Verification of Implementation . . . . . 268
- 7.6 Verification as a Way of Life . . . . . 268
  - 7.6.1 Records Review: Analysis of Data . . . . . 269
  - 7.6.2 Calibration . . . . . 272
  - 7.6.3 Verification Through Observation and Scheduled Audit . . . 272
- 7.7 HACCP System Maintenance . . . . . 282
  - 7.7.1 Safety Review for Product and Process Changes . . . . . 285
  - 7.7.2 Information Searching: Keeping Up to Date with Emerging Issues/Hazards . . . . . 291
  - 7.7.3 Formal Periodic System Review . . . . . 293
  - 7.7.4 Documentation Update: Amending Your HACCP Plan . . . . 294
  - 7.7.5 Ongoing Training Requirements . . . . . 295
  - 7.7.6 Incident Management . . . . . 297
  - 7.7.7 Ongoing Documentation and Record Keeping . . . . . 298
- 7.8 Key Points Summary . . . . . 299
- 8 Considerations for HACCP Application in Different Supply Chain Sectors . . . . . 301**
  - 8.1 Introduction . . . . . 301
  - 8.2 HACCP Application in Packaging Production . . . . . 302
  - 8.3 HACCP Application in Animal Feed . . . . . 306
    - 8.3.1 Introduction . . . . . 306
    - 8.3.2 What Are the Hazards? . . . . . 307
    - 8.3.3 Typical Control Measures . . . . . 308
    - 8.3.4 Approach(es) Taken . . . . . 308
    - 8.3.5 Difficulties and Issues . . . . . 308
  - 8.4 HACCP Application in Primary Production . . . . . 310
  - 8.5 HACCP Application at Slaughter/Harvest . . . . . 313
  - 8.6 HACCP in Manufacturing . . . . . 313
  - 8.7 HACCP Application in Retail: The Supermarket . . . . . 314
    - 8.7.1 Introduction: HACCP in the Supermarket . . . . . 314
    - 8.7.2 Approach Taken . . . . . 317

- 8.7.3 What Are the Hazards? . . . . . 318
- 8.7.4 Benefits . . . . . 318
- 8.7.5 Challenges and Issues . . . . . 318
- 8.8 HACCP Application in Catering . . . . . 326
  - 8.8.1 Introduction . . . . . 326
  - 8.8.2 What Are the Hazards? . . . . . 326
  - 8.8.3 Typical Control Measures . . . . . 327
  - 8.8.4 Approaches Taken . . . . . 327
  - 8.8.5 Difficulties and Issues . . . . . 328
- 8.9 Special Considerations for HACCP Application in Chain Restaurants . . . . . 330
  - 8.9.1 Introduction . . . . . 330
  - 8.9.2 What Are the Key Differences? . . . . . 331
- 8.10 HACCP in Storage and Distribution . . . . . 331
  - 8.10.1 Introduction . . . . . 331
  - 8.10.2 What Are the Hazards? . . . . . 332
  - 8.10.3 Typical Control Measures . . . . . 332
  - 8.10.4 Approaches Taken . . . . . 333
  - 8.10.5 Difficulties and Issues . . . . . 333
- 8.11 The Consumer . . . . . 335
- 8.12 Reflections of HACCP Application Throughout the Food Supply Chain . . . . . 336
- Epilogue . . . . . 339**
- Appendix A Case Studies . . . . . 345**
- Appendix B Pathogen Profiles . . . . . 435**
- Appendix C Glossary . . . . . 451**
- Appendix D Abbreviations and Definitions . . . . . 455**
- References . . . . . 457**
- Index . . . . . 467**
