1 Men Trapped in Men’s Bodies .............................................................. 1
  Two Types of Male-to-Female Transsexuals ........................................ 1
  Trapped in the Wrong Body .............................................................. 2
  An Autogynephilic Transsexual’s Case History .................................. 4
  The Concept of Autogynephilia ........................................................... 6
  Definitions and Terminology ............................................................. 7
  Early Development of the Concept of Autogynephilia ....................... 10
  Accounting for Departures from Theorized Associations with Sexual Orientation .............................................................. 11
  Additional Correlates of Sexual Orientation in MtF Transsexualism .......... 14
  Introducing the Term Autogynephilia ................................................. 15
  Blanchard’s Proposed Transsexual Typology: Brief Comments ............... 16
  Exploring the Implications of Autogynephilia ...................................... 17

2 Theory and Case Histories ................................................................. 19
  Further Research Studies of Autogynephilia in Transsexuals ................. 19
  Different Types of Autogynephilia ..................................................... 19
  Etiological Conjectures ..................................................................... 20
  Autogynephilia Competes with Heterosexual Attraction ....................... 22
  Anatomic Autogynephilia Predicts Gender Dysphoria .......................... 22
  Analogs of Autogynephilia in Men Attracted to Children, Amputees, and Animals .......................................................... 24
  Empirical Studies of Autogynephilia Published After 1993 .................. 26
  Reviews, Popular Accounts, and Critiques of Autogynephilia ............... 29
  Case Histories of Autogynephilic Transsexualism Are Rare .................. 30
  Missing Discourses and Forbidden Narratives .................................... 32
3 Narratives by Autogynephilic Transsexuals ........................................ 37
Rationale for the Narrative Project ......................................................... 37
Collecting the Narratives ........................................................................ 38
Editing and Analysis ................................................................................ 40
Validity Issues .......................................................................................... 44
Previous Publication of Selected Narratives ............................................ 46
Illustrative Examples of Narratives .......................................................... 46
Major Themes in the Narratives ............................................................... 53

4 Confronting Autogynephilia ................................................................. 55
Discovering the Concept of Autogynephilia ............................................ 55
Discovering an Accurate Description ...................................................... 56
Autogynephilia as a Revelation ............................................................... 56
Facilitating Understanding and Clarity .................................................... 57
Opening Eroticism to Discussion ........................................................... 58
Finding a Theory That Feels Applicable .................................................. 58
Discovering Others Feel Similarly ........................................................ 59
Feeling Legitimately Transsexual ............................................................ 59
No Longer Feeling Crazy ......................................................................... 60
Disconcerting Self-Recognition .............................................................. 61
Anxieties About Consequences .............................................................. 62
Invalidation by Psychotherapists ............................................................. 63
Reluctance to Discuss Autogynephilia with Therapists ......................... 63
Counternarratives: Acceptance by Psychotherapists ............................... 65
Invalidating Reactions from Peers .......................................................... 65
Reluctance to Alienate or Upset Others .................................................. 66
Considering Autogynephilia as a Motive ............................................... 66
   Autogynephilia as a Principal Motive .................................................. 67
   Autogynephilia as a Possible or Partial Motive ................................... 68
Desire to Engage in Sex as a Woman as a Principal Motive ................. 69
   Autogynephilia Not a Motive .............................................................. 70
Must Revelatory Knowledge Remain Private Knowledge? .................... 71

5 Developmental Histories ...................................................................... 73
Theorizing Developmental History in Autogynephilic Transsexualism ......... 73
Age of Onset of Cross-Gender Fantasies, Behaviors, and Associated Arousal .......................................................... 74
   Early Childhood Onset of Cross-Dressing and Associated Arousal ........ 75
   Early Childhood Onset of Cross-Dressing and Possible Erotic Feelings ...... 77
Early Childhood Onset of Cross-Dressing, Pubertal Onset of Erotic Feelings .......................................................... 78
Other Patterns of Onset of Cross-Gender Behavior and Erotic Feelings .............................................................................. 79
Gender Expression in Childhood and Adulthood .................................... 81
  Male-Typical Interests and Behaviors in Childhood
  and Adulthood ...................................................................................... 83
  Male- and Female-Typical Interests
  and Behaviors in Childhood ................................................................ 84
  Female-Typical Interests and Behaviors in Childhood ........................ 84
Male-Typical Versus Female-Typical Occupational
  Choices in Adulthood ............................................................................... 85
  Applicability of the “Woman Trapped
  in a Man’s Body” Trope ........................................................................... 87
Autogynephilia Over the Life Course and After SRS............................. 89
  Continuation of Autogynephilic Arousal
  over the Life Course ............................................................................... 90
  Continuation of Autogynephilic Arousal
  After Sex Reassignment ......................................................................... 90
  Cessation of Autogynephilic Arousal After SRS ................................... 92
Concluding Comments on Developmental History ................................. 93

6 Manifestations of Autogynephilia ......................................................... 95
  Four Main Types of Autogynephilia ........................................................ 95
  Transvestic Autogynephilia ..................................................................... 96
  Transvestism as a Relaxing or Comfortable Activity ............................ 99
  Anatomic Autogynephilia ....................................................................... 100
  Anatomic Autogynephilia Without the Desire
  to Live in Cross-Gender Role ................................................................ 103
  Physiologic Autogynephilia ................................................................. 105
  Behavioral Autogynephilia ..................................................................... 106
Concluding Comments on the Diverse Manifestations
  of Autogynephilia ..................................................................................... 110

7 Autogynephilia and Heterosexuality .................................................... 111
  Autogynephilia Resembles and Complicates
  Heterosexuality ..................................................................................... 111
  Autogynephilia Feels Closely Related to Heterosexual Attraction ........ 112
  Autogynephilia Competes with Heterosexual Attraction ..................... 114
  Autogynephilia Complicates Heterosexual Expression ....................... 116
  Integration of Autogynephilic Elements into
  Heterosexual Lovemaking ..................................................................... 119
  Autogynephilia Is Sometimes Associated
  with Marital Discord or Divorce ......................................................... 120
  Autogynephilia Sometimes Overshadows
  and Replaces Heterosexual Attraction ................................................ 121
  Late Loss of Virginity in Autogynephilic Transsexuals ....................... 123
  Autogynephilia Versus Heterosexuality ............................................... 124

Late Loss of Virginity in Autogynephilic Transsexuals ........................... 123

Concluding Comments on Developmental History ................................. 93
8 Sex with Men ................................................................. 127
   Autogynephilic Fantasies of Sex with Men Are Prevalent .............. 127
   Attraction to Men Often Reflects Desire for Validation of One’s Femininity ................................................. 129
   Imagined Male Partners Are Often Vague or Anonymous Figures .......................................................... 130
   Male Partners Are Often Arousing in Fantasy but Unattractive in Reality .................................................. 131
   Attraction to Men Rarely Extends to Feelings of Romantic Love .............................................................. 133
   Attraction to Men Sometimes Reflects Men’s Propensity to Mistreat Women .............................................. 134
   Reports of Increased Attraction to Men During Transition Are Frequent ..................................................... 134
   Repression of Genuine Attraction to Men Due to Homophobia .................................................................... 136
   An Autogynephilic Transsexual “Exclusively Attracted to Men” (with Limitations) .................................................. 138
   An Autogynephilic Transsexual with Substantial Sexual Experience with Men .............................................. 139
   Making Sense of Autogynephilic Attraction to Men ................................................................. 140

9 Other Aspects of Autogynephilic Sexuality ........................................ 143
   Autogynephilic Fantasies Required for Orgasm .................................................. 143
   Discomfort with Autogynephilic Arousal .......................................................... 144
   Postorgasmic Reactions: Disgust, Remorse, and Remission of Gender Dysphoria .............................................. 145
   Postorgasmic Remission of Gender Dysphoria Implies that Transsexualism Is Paraphilic ........................................ 147
   Effects of Hormone Therapy ........................................................................ 149
   Co-occurring Paraphilias ........................................................................ 152
      Sexual Masochism .............................................................................. 152
      Forced Feminization ........................................................................... 153
      Gynemimetophilia and Gynandromorphophilia .............................................. 155
      Pedophilia ........................................................................................ 156
      Autonepiophilia (Paraphilic Infantilism or Adult Baby Syndrome) ...................................................... 157
      Abasiophilia and Autoabasiophilia (Leg Brace Paraphilia) ...................................................... 157
      Unspecified Paraphilias ........................................................................ 159
   Concluding Comments on Other Aspects of Autogynephilic Sexuality ...................................................... 159

10 Debating the Meaning of Autogynephilia ........................................ 161
   What Is the Meaning and Explanatory Significance of Autogynephilia? .................................................... 161
   Autogynephilia Might Be a Symptom of Transsexualism ................................................................. 162
Contents

11 Narratives by Nontranssexual Autogynephiles .................................................. 179

Transsexual and Nontranssexual Autogynephiles ................................. 179

Representative Narrative by a Nontranssexual ...................................... 180

Autogynephile ......................................................................................... 180

Nontranssexuals’ Identification with the Concept of Autogynephilia .... 182

Early Childhood Onset of Cross-dressing and Associated Arousal ......... 182

Fantasizing Being Female During Cross-dressing .................................. 183

Comfort and Prolonged Erotic Arousal with Cross-dressing ................. 184

Autogynephilic Fantasies Are Necessary for Orgasm ................................. 184

Competition with Heterosexual Attraction ................................................ 185

Sex with Men ............................................................................................ 186

Specificity of Autogynephilic Arousal ...................................................... 186

Autogynephilia and Female Beauty ........................................................... 187

Desire to Eliminate or Control Autogynephilic Feelings ......................... 187

Wide-Ranging Autogynephilic Interests .................................................... 188

Partial Anatomic Autogynephilia ............................................................... 189

Co-occurring Paraphilias ......................................................................... 191

Sexual Masochism ................................................................................... 191

Acrotomophilia and Apotemnophilia ....................................................... 191

(Amputation Paraphilia) ........................................................................... 193

Gynemimetophilia and Gynandromorphophilia .................................. 194

Other Paraphilias ..................................................................................... 195
