Part I  Anatomy of the Cardiac Lymphatic System

1 A General Outline of the Cardiac Lymphatic System ........................................... 3
   Marios Loukas, Sameer Shah, Shivayogi Bhusnurmath,
   Bharti Shivayogi Bhusnurmath, and R. Shane Tubbs

2 Development and Patterning of the Cardiac Lymphatic Network..................... 17
   Jörg Wilting and Jörg Männer

Part II  The Cardiac Lymphatics and Heart Disease

3 The Link Between Lymphatic Obstruction and Congenital Heart Disease......................... 35
   Manish Bansal

4 The Role of Lymphatics in Atherogenesis, Myocardial Infarction,
   Congestive Heart Failure, and Cardiac Transplantation.................................. 45
   Shin Lin and Stanley G. Rockson

5 The Lymphatics in Normal and Pathological Heart Valves................................. 63
   Ivana Kholová, Galina Dragneva, and Seppo Ylä-Herttuala

6 Therapeutic Applications Targeting the Cardiac Lymphatics in Heart Disease............................................. 73
   Jae-Hyeong Park and Jin-Ok Jeong

7 Imaging the Lymphatic System in Heart Transplantation and Its Immunological Implications................................................. 87
   Kathryn Brown, Lindsey A. Edwards, and Wilson Wong
Part III   Cardiac Lymphatic Signaling

8   Tie Receptor Signaling in Cardiac Lymphangiogenesis .......................... 107
    Xianghu Qu and H. Scott Baldwin

9   VEGF Receptor Signaling in the Cardiac Lymphatics .......................... 125
    Alexey Dashkevich, Karl B. Lemström, and Antti I. Nykänen

10  Hypoxia and the Cardiac Lymphatic System ....................................... 145
    Todd R. Wuest and P. Charles Lin

11  The Potential of the Epicardium to Act as a Source of Lymphatic Cells ......................................................... 161
    Linda Klotz and Paul Riley
