## Contents

**Introduction** .............................................................................................................. 1  
Anna J. Osterholtz, Kathryn M. Baustian, and Debra L. Martin

**Part I  Long Term Usage Assemblages**

**Making Sense of Social Behavior from Disturbed and Commingled Skeletons: A Case Study from Çatalhöyük, Turkey** ......................... 17  
Başak Boz and Lori D. Hager

**Commingled Human Skeletal Assemblages: Integrative Techniques in Determination of the MNI/MNE** ......................................................... 35  
Anna J. Osterholtz, Kathryn M. Baustian, Debra L. Martin, and Daniel T. Potts

**Bioarchaeological Spatial Analysis of the Walker-Noe Crematory (15GD56)** ................................. 51  
Nicholas P. Herrmann, Joanne L. Devlin, and Jessica C. Stanton

**Into the Kettle: The Analysis of Commingled Remains from Southern Ontario** ................................................. 67  
Bonnie Glencross

**Part II  Episodic Assemblages**

**Crow Creek Bone Bed Commingling: Relationship Between Bone Mineral Density and Minimum Number of Individuals and Its Effect on Paleodemographic Analyses** ........................................ 85  
Ashley Kendell and P. Willey

**Extreme Processing at Mancos and Sacred Ridge: The Value of Comparative Studies** ...................................................... 105  
Anna J. Osterholtz
Disarticulated and Disturbed, Processed and Eaten? Cautionary Notes from the La Plata Assemblage (AD 1000–1150) ......................... 129
Debra L. Martin, Nancy J. Akins, and H.Wolcott Toll

Partible, Permeable, and Relational Bodies in a Maya Mass Grave .......... 149
William N. Duncan and Kevin R. Schwarz

Part III Caveats and Contributions from Other Disciplines

Unmingling Commingled Museum Collections:
A Photographic Method ................................................................. 173
Katie J. Zejdlik

Primary and Secondary Burials with Commingled Remains from Archaeological Contexts in Cyprus, Greece, and Turkey ............. 193
Sherry C. Fox and Kathryn Marklein

Commingled Bone Assemblages: Insights from Zooarchaeology and Taphonomy of a Bone Bed at Karain B Cave, SW Turkey .......... 213
Levent Atici

Normal Goat or Diseased Human? Disciplinary Boundaries and Methodological Traps in the Analysis of Fragmentary Remains at Franchthi Cave, Greece ..................................................... 255
Della Collins Cook

Taking Analyses of Commingled Remains into the Future:
Challenges and Prospects ............................................................... 265
Kathryn M. Baustian, Anna J. Osterholtz, and Della Collins Cook

Index ................................................................................................................. 275
Commingled and Disarticulated Human Remains
Working Toward Improved Theory, Method, and Data
Osterholtz, A.J.; Baustian, K.M.; Martin, D.L. (Eds.)
2014, XVI, 285 p., Hardcover
ISBN: 978-1-4614-7559-0
