Contents

1 Old Dogmas, Surprising Complexities, and Novel Therapeutic Targets................................................................. 1
   Ulrich Dirnagl

2 The Critical Roles of Immune Cells in Acute Brain Injuries.......... 9
   Peiying Li, Yu Gan, Leilei Mao, Rehana Leak, Jun Chen, and Xiaoming Hu

3 Vascular Inflammation in Ischemic Stroke: Adhesion Receptors Controlling Leukocyte–Endothelial Interactions.............. 27
   Stephen F. Rodrigues and D. Neil Granger

4 Immune Cell-Derived Free Radicals in Acute Brain Injury........ 53
   Purnima Narasimhan, Hiroyuki Sakata, Joo Eun Jung, Tatsuro Nishi, Takuma Wakai, Carolina M. Maier, and Pak H. Chan

5 The Complement Cascade in Acute Brain Injury......................... 67
   Michael McDowell, Nicholas Shea, Gaurav Gupta, and E. Sander Connolly Jr.

6 Matrix Metalloproteinases as an Inflammatory Mediator in the Neurovascular Unit ................................................................. 87
   Changhong Xing, Takakuni Maki, Ji Hae Seo, Ken Arai, and Eng H. Lo

7 Toll-Like Receptors in Ischemic Stroke and Other Acute Brain Injuries .......................................................................................... 97
   Frances Rena Bahjat, Raffaella Gesuete, and Mary P. Stenzel-Poore

8 Ion Transporters in Microglial Function: New Therapeutic Targets for Neuroinflammation in Ischemic Stroke?......................... 121
   Hui Yuan, Yejie Shi, and Dandan Sun
9 Inflammation After Acute Brain Injuries Affects the Developing Brain Differently than the Adult Brain ...................... 135
David Fernández-López and Zinaida S. Vexler

10 Systemic Immune Responses after Experimental Stroke .................... 153
Halina Offner and Patricia D. Hurn

11 Infectious Burden and Risk of Stroke ................................................... 177
Jorge M. Luna and Mitchell S.V. Elkind

12 Inflammatory Biomarkers in Patients with Acute Brain Injuries .......................................................... 211
Glen C. Jickling

13 In Vivo Imaging of Neuroinflammation in Acute Brain Injury ............ 235
Alexander Thiel

14 Inflammation as a Therapeutic Target after Subarachnoid Hemorrhage: Advances and Challenges ......................... 249
Mutsumi Fujii, Sheng Chen, Damon Klebe, Yoshiteru Soejima, Alexander Vakhmyanin, and John H. Zhang

15 Minocycline, A Tetracycline Derivative, as a Potential Protective Agent for Acute Stroke .......................................................... 275
Jari Koistinaho and Milla Koistinaho

16 Tolerization to Brain and Vascular Antigens: Targeting Autoimmunity After Acute Brain Injuries and Preventing Stroke .................................................. 287
Kyra J. Becker and John Hallenbeck

17 The Role of PPARγ in Stroke ................................................................. 301
Xiurong Zhao and Jaroslaw Aronowski

18 CD36: An Inflammatory Mediator in Acute Brain Injury ................. 321
Sunghee Cho and Maria Febbraio

19 Cool Down the Inflammation: Hypothermia as a Therapeutic Strategy for Acute Brain Injuries ................................. 349
Yama Akbari, Maximilian Mulder, Ali Razmara, and Romergyko Geocadin

Index ................................................................................................................. 377
Immunological Mechanisms and Therapies in Brain Injuries and Stroke
Chen, J.; Hu, X.; Stenzel-Poore, M.; Zhang, J.H. (Eds.)
2014, X, 386 p. 34 illus., 21 illus. in color., Hardcover
ISBN: 978-1-4614-8914-6
