Contents

Part I

1 Graft and Patient Survival.......................................................... 3
   Machaiah M. Madhrira, Karl L. Womer, and Bruce Kaplan

2 Immunological Assessment of the Transplant Patient............... 23
   Rowena Delos Santos, Eric D. Langewisch,
   and Douglas J. Norman

3 Recipient Evaluation.......................................................... 35
   Eliyahu V. Khankin and Didier A. Mandelbrot

4 Wait List Management......................................................... 41
   John J. Friedewald, Darshika Chhabra, and Baris Ata

5 Approach to the Highly Sensitized Patient................................. 49
   Nadia Chaudhri and Joseph M. Nogueira

Part II

6 Simultaneous Paired Kidney Exchange..................................... 63
   Jennifer E. Verbesey and Matthew Cooper

7 Ethical Issues and Transplant Tourism..................................... 69
   Dominique E. Martin and Francis L. Delmonico

8 Live Donor Transplantation.................................................. 75
   Scott Reule, Arthur Matas, and Hassan N. Ibrahim

9 Extended Criteria Donors in Renal Transplantation..................... 85
   Todd E. Pesavento

10 Preoperative Cardiovascular Evaluation and Management............ 93
    Krista L. Lentine, Todd C. Villines, Kevin C. Abbott,
    and Salvatore P. Costa

Part III

11 Surgical Issues in the Transplant Recipient............................... 113
    Sunil S. Karhadkar and David B. Leeser

12 Mechanisms of Immunosuppressive Drugs................................ 127
    Adam Weltz, Joseph Scalea, Mihaela Popescu,
    Jiangnan Xu, and Jonathan S. Bromberg

13 Delayed Graft Function and Kidney Transplantation.................... 143
14 Evaluation and Initial Management of Graft Dysfunction
Alexander C. Wiseman and James E. Cooper
15 Recurrent and De Novo Diseases After Renal Transplantation
Geoffrey K. Dube and David J. Cohen
16 Psychosocial Issues in Renal Transplantation
Charles Cangro
17 Risks of Pregnancy in Renal Transplant Recipients
Dianne B. McKay and Michelle A. Josephson
18 The Prevention and Treatment of Coronary Artery Disease in Kidney Transplant Recipients
Deborah B. Adey
19 Dyslipidemia After Kidney Transplantation
Darshika Chhabra, Anil Vamsi Doppalapudi, Anurag Kumbham, and Edgar V. Lerma
20 Hypertension in the Kidney Transplant Recipient
Hani M. Wadei and Stephen C. Textor
21 Evaluation and Management of Transplant-Associated Hyperglycemia
Roy D. Bloom and Charles Moussallem
22 Hematologic Complications of Transplantation
Marissa M. Brokhof, David R. Hager, Arjang Djamali, and Vijay Vidyasagar
23 Liver Disease in Renal Transplant Recipients
Andres F. Carrion, Fabrizio Fabrizi, and Paul Martin
24 Management of Transplantation Renal Bone Disease: Interplay of Bone Mineral Density and Decisions Regarding Bisphosphonate Use
Hala M. Alshayeb, Stuart M. Sprague, and Michelle A. Josephson
25 Malignancies After Transplantation and Posttransplant Lymphoproliferative Disorder
Ahmed I. Kamal and Roslyn B. Mannon
26 Antibody-Mediated Rejection in Kidney Transplantation
Richard Ugarte, Boonsong Kiangkitiwan, and Abdolreza Haririan
27 Prevention and Management of Infectious Complications in Kidney Transplant Recipients
Rowena Delos Santos and Daniel C. Brennan
28 Human Polyomavirus (HPyV) and Organ Transplantation
Sabine Karam and Ravinder Wali
29 Post-transplant Proteinuria: Differential Diagnosis and Management
Ayub Akbari and Greg A. Knoll
30 Urologic Issues in the Renal Transplant Patient
Michael Phelan, Andrew Kramer, and Richard Bryson
31 Practical Renal Allograft Pathology
Cinthia B. Drachenberg and John C. Papadimitriou
