*Dedication* ...................................................... 1
*Preface* ........................................................... 3
*Contributors* .................................................... 11

### Part I  Genetic, Structural Biology, Transcriptional and Post-transcriptional Analysis of Opioid Receptors

1 Overview of Genetic Analysis of Human Opioid Receptors ................. 3  
   *Santi M. Spampinato*

2 Computational Structural Biology of Opioid Receptors ...................... 13  
   *Davide Provasi*

3 Analysis of Epigenetic Mechanisms Regulating Opioid Receptor Gene Transcription ...................................................... 39  
   *Cheol Kyu Hwang, Yadav Wagley, Ping-Yee Law, Li-Na Wei, and Horace H. Lob*

4 Renilla Luciferase Reporter Assay to Study 3′UTR-Driven  
   Posttranscriptional Regulations of OPRM1 .................................. 53  
   *Gabriele Vincelli and Andrea Bedini*

5 High-Throughput Gene Expression Profiling  
   of Opioid-Induced Alterations in Discrete Brain Areas ..................... 65  
   *Michal Korostynski, Marcin Piechota, Slawomir Golda, and Ryszard Przewlocki*

### Part II  Cellular Detection and Analysis of Opioid Receptors

6 Real-Time Imaging of Mu Opioid Receptors  
   by Total Internal Reflection Fluorescence Microscopy ..................... 79  
   *Cristina Roman-Vendrell and Guillermo Ariel Yudowski*

7 In Vivo Techniques to Investigate the Internalization Profile  
   of Opioid Receptors ..................................................... 87  
   *Amynah A. Pradhan, Vivianne L. Tawfik, Alycia F. Tipton, and Grégory Scherrer*

8 Monitoring Opioid Receptor Dimerization in Living Cells  
   by Bioluminescence Resonance Energy Transfer (BRET) .................... 105  
   *Monica Baiula*

9 Bioluminescence Resonance Energy Transfer (BRET)  
   to Detect the Interactions Between Kappa Opioid Receptor  
   and Non-visual Arrestins .................................................. 115  
   *Andrea Bedini*
10 Identification and Verification of Proteins Interacting with the Kappa Opioid Receptor (KOPR) ........................................ 129
Chongguang Chen, Peng Huang, and Lee-Yuan Liu-Chen

11 Detection of Mu Opioid Receptor (MOPR) and Its Glycosylation in Rat and Mouse Brains by Western Blot with Anti-µC, an Affinity-Purified Polyclonal Anti-MOPR Antibody ........................................ 141
Peng Huang, Chongguang Chen, and Lee-Yuan Liu-Chen

12 Immunohistochemical Analysis of Opioid Receptors in Peripheral Tissues ........................................ 155
Yvonne Schmidt and Halina Machelska

PART III ANALYSIS OF SIGNALING EVENTS MODULATED BY OPIOID RECEPTORS

13 [35S]GTPγS Autoradiography for Studies of Opioid Receptor Functionality ........................................ 169
Alfhild Grönlåd and Mathias Hallberg

14 Fluorescence-Based, High-Throughput Assays for µ-Opioid Receptor Activation Using a Membrane Potential-Sensitive Dye ........................................ 177
Alisa Knapman and Mark Connor

15 Analysis of Potassium and Calcium Imaging to Assay the Function of Opioid Receptors ........................................ 187
Viola Spahn, Dinah Nockemann, and Halina Machelska

16 Electrophysiological Patch Clamp Assay to Monitor the Action of Opioid Receptors ........................................ 197
Viola Spahn, Dinah Nockemann, and Halina Machelska

PART IV MODEL SYSTEMS TO STUDYING OPIOID RECEPTOR-MEDIATED FUNCTIONS

17 Skin–Nerve Preparation to Assay the Function of Opioid Receptors in Peripheral Endings of Sensory Neurons ........................................ 215
Rabih Moshourab, Yvonne Schmidt, and Halina Machelska

18 Mechanical Nociception Measurement in Mice and Rats with Automated Von Frey Equipment ........................................ 229
Gabriele Campana and Roberto Rimondini

19 Detecting Zinc Release Induced by Mu-Opioid Receptor Agonists in Brain Slices ........................................ 233
María Rodríguez-Muñoz, Pilar Sánchez-Blázquez, Concha Bailón, and Javier Garzón

20 Opioid Receptors: Methods for Detection and Their Modes of Actions in the Eye ........................................ 243
Shahid Husain

21 Evaluation of Murine Macrophage Cytokine Production After In Vivo Morphine Treatment ........................................ 253
Silvia Franchi, Mara Castelli, Sarah Moretti, Alberto Panerai, and Paola Sacerdote
22 Measurement of Macrophage Toll-Like Receptor 4 Expression
   After Morphine Treatment .................................................. 263
   Mara Castelli, Alberto Panerai, Paola Sacerdote, and Silvia Franchi

23 The Role of Opioid Receptors in Migration and Wound Recovery
   In Vitro in Cultured Human Keratinocytes and Fibroblasts ............. 273
   Mei Bigliardi-Qi and Paul L. Bigliardi

PART V  BEHAVIORAL EFFECTS MEDIATED BY OPIOID RECEPTORS

24 Role of Opioid Receptors in the Reinstatement
   of Opioid-Seeking Behavior: An Overview ................................. 281
   Liana Fattore, Paola Fadda, Silvia Antinori, and Walter Fratta

25 Analysis of Opioid-Seeking Reinstatement in the Rat ..................... 295
   Liana Fattore, Paola Fadda, Mary Tresa Zanda, and Walter Fratta

26 Induction of a High Alcohol Consumption in Rats and Mice:
   Role of Opioid Receptors ..................................................... 309
   Roberto Rimondini and Gabriele Campana

27 Evaluation of Social and Nonsocial Behaviors Mediated
   by Opioids in Mouse Pups .................................................... 313
   Francesca R. D’Amato

Index ....................................................................................... 323
Opioid Receptors
Methods and Protocols
Spampinato, S.M. (Ed.)
2015, XV, 326 p. 56 illus., 26 illus. in color., Hardcover
