Contents

Part I  Lyophilization History and Fundamentals

History of Lyophilization .............................................................................................................. 3
Dushyant Varshney and Manmohan Singh

Heterogeneity of Protein Environments in Frozen Solutions and in the Dried State ......................................................... 11
Maya Salnikova, Dushyant Varshney and Evgenyi Shalaev

Advance Understanding of Buffer Behavior during Lyophilization ............ 25
Cindy Wu, Sheri Shamblin, Dushyant Varshney and Evgenyi Shalaev

Advances in Instrumental Analysis Applied to the Development of Lyophilization Cycles ...................................................... 43
William J. Kessler, Puneet Sharma and Mircea Mujat

New Developments in Controlled Nucleation: Commercializing VERISEQ® Nucleation Technology ........................................ 73
Joseph Brower, Ron Lee, Eugene Wexler, Steven Finley, Monica Caldwell and Peter Studer

Part II  Lyophilized Biologics and Vaccines – Modality Considerations

Lyophilized Biologics .................................................................................................................. 93
Byeong S. Chang, Michael Reilly, and Hana Chang

Lyophilization of Therapeutic Proteins in Vials: Process Scale-Up and Advances in Quality by Design ........................................ 121
Bingquan (Stuart) Wang, Timothy R. McCoy, Michael J. Pikal and Dushyant Varshney
Advances in Process Analytical Technology in Freeze-Drying .......................... 157
Bingquan (Stuart) Wang and Timothy R. McCoy

Process Scale-Up and Optimization of Lyophilized Vaccine Products...... 179
Jeffrey T. Blue, Jessica R. Sinacola and Akhilesh Bhambhani

Stabilization of Plasmid DNA and Lipid-Based Therapeutics as
Dehydrated Formulations ............................................................................. 211
Marion dC. Molina, Nicole M. Payton and Thomas J. Anchordoquy

Part III  Advances in Alternate Drying

Alternatives to Vial Lyophilization................................................................. 257
Jim Searles and Mathew Cherian

Spray-Drying of Biopharmaceuticals............................................................. 273
Grace A. Ledet, Richard A. Graves, Levon A. Bostanian and Tarun K. Mandal

Current Trends and Advances in Bulk Crystallization and
Freeze-Drying of Biopharmaceuticals.......................................................... 299
Hitent Gutka and Krishna Prasad

Case Studies and Examples of Biopharmaceutical Modalities
Processed by Bulk Crystallization or Bulk Freeze-Drying .................... 319
Hitent Gutka and Krishna Prasad

Part IV  Regulatory, Packaging and Technology Transfer Considerations

Lyophilization of Biologics: An FDA Perspective ................................. 341
David Awotwe-Otoo and Mansoor A. Khan

Recent Trends in Lyophilized Delivery Devices and Packaging ............ 361
Renaud Janssen

Lyophilization Process Technology Transfer Towards Product Launch... 381
Madhav Kamat and Dushyant Varshney

Index............................................................................................................. 399
Lyophilized Biologics and Vaccines
Modality-Based Approaches
Varshney, D.; Singh, M. (Eds.)
2015, XI, 401 p. 99 illus., 68 illus. in color., Hardcover
ISBN: 978-1-4939-2382-3
