Preface ................................................................. v
Contributors ............................................................ ix

PART I SALAMANDERS

1 Variation in Salamanders: An Essay on Genomes, Development, and Evolution .................................................. 3
   Jeremy P. Brockes

2 Maintaining Eastern Newts (Notophthalmus viridescens) for Regeneration Research ...................................... 17
   Hans-Georg Simon and Shannon Odelberg

3 Housing and Maintenance of Ambystoma mexicanum, the Mexican Axolotl .................................................. 27
   Johanna E. Farkas and James R. Monaghan

4 Husbandry of Spanish Ribbed Newts (Pleurodeles waltl) .......................................................... 47
   Alberto Joven, Matthew Kirkham, and András Simon

5 Maintaining Plethodontid Salamanders in the Laboratory for Regeneration Studies .......................................... 71
   Claudia Marcela Arenas, Andrea Gómez-Molina, and Jean Paul Delgado

PART II EXPERIMENTAL MANIPULATION IN SALAMANDERS

6 Newt Lens Transdifferentiation: From Lentectomy to Immuno-FISH ...................................................... 81
   Nobuyasu Maki

7 Studying Newt Brain Regeneration Following Subtype Specific Neuronal Ablation ........................................ 91
   Matthew Kirkham and Alberto Joven

8 The Accessory Limb Model: An Alternative Experimental System of Limb Regeneration ................................ 101
   Tetsuya Endo, David M. Gardiner, Aki Makanae, and Akira Satoh

9 High-Efficiency Electroporation of the Spinal Cord in Larval Axolotl ...................................................... 115
   Aida Rodrigo Albors and Elly M. Tanaka

10 Pseudotyped Retroviruses for Infecting Axolotl .............. 127
    Tzu-Hsing Kuo and Jessica L. Whited

11 Thyroxine-Induced Metamorphosis in the Axolotl (Ambystoma mexicanum) ........................................ 141
    Peggy S. Coots and Ashley W. Seifert

12 Generation of Aneurogenic Larvae by Parabiosis of Salamander Embryos .............................................. 147
    Anoop Kumar and Jean Paul Delgado
In Vivo Modulation and Quantification of microRNAs During Axolotl Tail Regeneration

Jami R. Erickson and Karen Echeverri

PART III SALAMANDER CELLS IN CULTURE

Derivation and Long-Term Culture of Cells from Newt Adult Limbs and Limb Blastemas

Patrizia Ferretti and Anoop Kumar

Culture and Transfection of Axolotl Cells

Jean-François Denis, Fadi Sader, Patrizia Ferretti, and Stéphane Roy

Isolation and Culture of Neurospheres from the Adult Newt Brain

Liyakath Ali Shahul Hameed and András Simon

Methods for Axolotl Blood Collection, Intravenous Injection, and Efficient Leukocyte Isolation from Peripheral Blood and the Regenerating Limb

Ryan J. Debuque and James W. Godwin

Assessing Cardiomyocyte Proliferative Capacity in the Newt Heart and Primary Culture

Hans-Georg Simon and Shannon Odelberg

Long-Term Organ Cultures of Newt Hearts

Tanja Piatkowski and Thomas Braun

In Vitro Preparation of Newt Inner Ear Sensory Epithelia as a Model for Repair and Regeneration

Ruth R. Taylor

PART IV TRANSGENESIS IN SALAMANDERS

Transgenesis in Axolotl (Ambystoma mexicanum)

Shahryar Khattak and Elly M. Tanaka

Generating and Identifying Axolotls with Targeted Mutations Using Cas9 RNA-Guided Nuclease

G. Parker Flowers and Craig M. Crews

Gene Manipulation for Regenerative Studies Using the Iberian Ribbed Newt, Pleurodeles Waltl

Toshinori Hayashi and Takashi Takeuchi

PART V GENE EXPRESSION

Transcriptomics Using Axolotls

S. Randal Voss, Antony Athippozhy, and M. Ryan Woodcock

Sal-Site: Research Resources for the Mexican Axolotl

Nour W. Al Haj Baddar, M. Ryan Woodcock, Shivam Khatri, D. Kevin Kump, and S. Randal Voss

Data Mining in Newt-Omics, the Repository for Omics Data from the Newt

Mario Looso and Thomas Braun

Index
Salamanders in Regeneration Research
Methods and Protocols
