Contents

Preface ................................................................. v
Contributors ......................................................... xi

1 The Estrogen Receptors: An Overview from Different Perspectives .......... 1
   Kathleen M. Eyster

2 Competitive Binding Assay for the G-Protein-Coupled
   Receptor 30 (GPR30) or G-Protein-Coupled Estrogen Receptor (GPER) .... 11
   Thomas Thekkumkara, Russell Snyder, and Vardan T. Karamyan

3 The Use of Real-Time Reverse Transcription-PCR for Assessing
   Estrogen Receptor and Estrogen-Responsive Gene Expression ................. 19
   Michelle L. Booze and Kathleen M. Eyster

4 Bioinformatics Analysis of Estrogen-Responsive Genes ......................... 29
   Adam E. Handel

5 Electrophoretic Mobility Shift Assay (EMSA) and Supershift
   Assay of Cytochrome P450 2B6 in Response to Estrogen ....................... 41
   Kwi Hye Koh and Hyunyoung Jeong

6 Chromatin Immunoprecipitation Assay to Identify Genomic
   Binding Sites of Regulatory Factors ............................................. 53
   Meike Wagner, Johannes Jung, Michael Koslowski, Özlem Türeci,
   Vijay K. Tiwari, and Ugur Sahin

7 Chromatin Immunoprecipitation with Estrogen Receptor 1
   and the Promoter of Greb1, in TM4 Sertoli Cells ................................ 67
   Jing Lin and Zhenmin Lei

8 Chromatin Immunoprecipitation-Sequencing (ChIP-seq)
   for Mapping of Estrogen Receptor-Chromatin Interactions
   in Breast Cancer ............................................................................. 79
   Kelly A. Holmes, Gordon D. Brown, and Jason S. Carroll

9 RNA-Seq Experiment and Data Analysis ............................................. 99
   Hanquan Liang and Erliang Zeng

10 DNA Microarray Analysis of Estrogen-Responsive Genes ...................... 115
    Kathleen M. Eyster

11 Shotgun Proteomics Analysis of Estrogen Effects in the Uterus
   Using Two-Dimensional Liquid Chromatography
   and Tandem Mass Spectrometry .................................................... 131
    Eduardo A. Callegari

24 Use of Reporter Genes to Analyze Estrogen Response: 
The Transgenic Zebrafish Model .................................................. 315
Daniel A. Gorelick, Caroline Lucia Pinto, Ruxin Hao, 
and Maria Bondesson

25 Comparison of the Effects of the Selective Estrogen 
Receptor Modulators Ospemifene, Raloxifene, and Tamoxifen 
on Breast Tissue in Ex Vivo Culture ............................................. 327
Natalija Eigeliene, Risto Erkkola, and Pirkko Härkönen

26 Estrogen Receptor Agonists and Antagonists 
in the Yeast Estrogen Bioassay .................................................. 337
Si Wang and Toine F.H. Bovee

27 Silencing Estrogen Receptor-α with siRNA in the Intact Rodent Brain .... 343
Ana C. Ribeiro, Anders Ågmo, Sergei Musatov, and Donald W. Pfaff

28 Silencing Estrogen Receptor-β with siRNA in Cultured Cells ............. 353
Ren-Jun Hsu and Jui-Ming Liu

29 Experimental Procedures for Demonstration of MicroRNA 
Mediated Enhancement of Functional Neuroprotective Effects 
of Estrogen Receptor Agonists .................................................. 359
Mrinmay Chakrabarti and Swapan K. Ray

30 Expression Profiles of Estrogen-Regulated MicroRNAs 
in Breast Cancer Cells .............................................................. 373
Anne Katchy and Cecilia Williams

31 Estradiol-Induced Transcriptional Regulation of Long 
Non-Coding RNA, HOTAIR ..................................................... 395
Arunoday Bhan and Subhrangsu S. Mandal

32 Detection and Functional Analysis of Estrogen 
Receptor α Phosphorylated at Serine 216 in Mouse Neutrophils .......... 413
Sawako Shindo, Rick Moore, and Masahiko Negishi

33 Estrogen Receptor-α Knockout Mice ........................................ 425
Per Antonson, Patricia Humire, and Jan-Ake Gustafsson

34 Detection of Endogenous Selective Estrogen Receptor 
Modulators such as 27-Hydroxycholesterol .................................. 431
Erik R. Nelson

35 Phytoestrogens Activate the Estrogen Receptor in HepG2 Cells .......... 445
Lynne A. Kelly

36 Detection of the Phosphorylation of the Estrogen 
Receptor α as an Outcome of GPR30 Activation .............................. 457
Sara Clark, Kevin Pollard, Jennifer Rainville, 
and Nandini Vasudevan

37 GPER Mediates Non-Genomic Effects of Estrogen ......................... 471
Marco Pupo, Marcello Maggiolini, and Anna Maria Musti

38 GPER/GPR30 Knockout Mice: Effects of GPER on Metabolism .......... 489
Geetanjali Sharma and Eric R. Prossnitz
Contents

39 Analysis of G-Protein Coupled Receptor 30 (GPR30) on Endothelial Inflammation ........................................ 503
   Subhadeep Chakrabarti and Sandra T. Davidge

40 Atherosclerosis and Vascular Biologic Responses to Estrogens: Histologic, Immunohistochemical, Biochemical, and Molecular Methods ......................................................... 517
   Thomas C. Register, Susan E. Appt, and Thomas B. Clarkson

41 Assessing Direct Vascular Actions of Estrogens ........................................ 533
   Douglas S. Martin and Kathleen M. Eyster

42 Molecular Design, Synthesis, and Evaluation of SNIPER(ER) That Induces Proteasomal Degradation of ERα ........................................ 549
   Keiichiro Okuhira, Yosuke Demizu, Takayuki Hattori, Nobumichi Oboka, Norihito Shibata, Masaaki Kurihara, and Mikihiko Naito

43 Regulation of Activation Induced Deaminase (AID) by Estrogen ............. 561
   Siim Pauklin

Index ......................................................................................... 573
Estrogen Receptors
Methods and Protocols
