Contents

Preface .......................................................... v
Contributors .................................................... ix

1 WT1 Mutation in Childhood Cancer ................. 1
   Jocelyn Charlton and Kathy Pritchard-Jones

2 Clinical Aspects of WT1 and the Kidney .......... 15
   Eve Miller-Hodges

3 The Role of WT1 in Embryonic Development and Normal
   Organ Homeostasis ......................................... 23
   Bettina Wilm and Ramon Muñoz-Chapuli

4 Tools and Techniques for Wt1-Based Lineage Tracing............... 41
   Bettina Wilm and Ramon Muñoz-Chapuli

5 Biological Systems and Methods for Studying WT1 in the Epicardium...... 61
   Víctor Velecela, Janat Fazal-Salom, and Ofelia M. Martínez-Estrada

6 Isolation and Colony Formation of Murine Bone and Bone Marrow Cells.... 73
   Sophie McHaffie and You-Ying Chau

7 Isolation and Fluorescence-Activated Cell Sorting
   of Murine WT1-Expressing Adipocyte Precursor Cells ................ 81
   Louise Cleal and You-Ying Chau

8 In Vivo Assays for Assessing the Role of the Wilms’ Tumor
   Suppressor 1 (Wt1) in Angiogenesis ........................ 93
   Richard J. McGregor, R. Ogley, PWF Hadoke, and Nicholas Hastie

9 Multiphoton Microscopy for Visualizing Lipids in Tissue .............. 105
   Martin Lee and Alan Serrels

10 Function and Regulation of the Wilms’ Tumor Suppressor 1 (WT1)
    Gene in Fish ............................................. 119
    Birgit Perner, Thomas J. D. Bates, Uta Naumann, and Christoph Englert

11 Immunofluorescence Staining of WT1 on Sections of Zebrafish Embryos
    and Larvae ............................................. 129
    Birgit Perner and Christoph Englert

12 Fluorescence-Activated Cell Sorting (FACS) Protocol for Podocyte
    Isolation in Adult Zebrafish ................................ 133
    Thomas J.D. Bates, Uta Naumann, and Christoph Englert

13 In Vitro Transcription to Study WT1 Function ..................... 137
    Stefan G.E. Roberts

14 Measuring Equilibrium Binding Constants for the WT1-DNA Interaction
    Using a Filter Binding Assay ................................ 155
    Paul J. Romaniuk
