# Contents

Preface ........................................................................................................................... v
Contributors....................................................................................................................... ix

1 Analysis of the Germinal Center Reaction in Tissue Sections ......................... 1  
*David Dominguez-Sola and Giorgio Cattoretti*

2 Detecting Gene Expression in Lymphoid Microenvironments  
by Laser Microdissection and Quantitative RT-PCR. ................................. 21  
*Yang Zhang, Laura Garcia-Ibanez, Geoffrey Brown, and Kai-Michael Toellner*

3 Tracking Plasma Cell Differentiation in Living Mice  
with Two-Photon Microscopy .............................................................................. 37  
*Carolin Ulbricht, Randall L. Lindquist, Laura Tech, and Anja E. Hauser*

4 Microanatomical Labeling of Germinal Center Structures  
for Flow Cytometry Using Photoactivation ................................................... 51  
*Johanne T. Jacobsen and Gabriel D. Victora*

5 Fate Mapping and Transcript Profiling of Germinal Center Cells  
by Two-Photon Photoconversion ......................................................................... 59  
*Imogen Moran and Tri Giang Phan*

6 Intravital Microscopy of T–B Cell Interactions in Germinal Centers ............. 73  
*Changming Shih and Hai Qi*

7 Identifying Follicular Regulatory T Cells by Confocal Microscopy .................. 87  
*Ine Vanderleyden and Michelle A. Linterman*

8 Cytokine Expression by T Follicular Helper Cells ........................................... 95  
*Christoph Jandl, Claudia Loetsch, and Cecile King*

9 Follicular Dendritic Cell Isolation and Loading of Immune Complexes .......... 105  
*Balthasar A. Heesters, Cees E. Van der Poel, and Michael C. Carroll*

10 Isolation and Characterization of Mouse and Human Follicular  
Dendritic Cells ............................................................................................................. 113  
*Mohey Eldin M. El Shikh, Riham El Sayed, and Costantino Pitzalis*

11 In Vitro-Induced Germinal Center B Cell Culture System ............................ 125  
*Kei Haniuda, Takuya Nojima, and Daisuke Kitamura*

12 CRISPR/Cas9-Mediated In Vitro Mutagenesis in GC-Like  
B Cells ......................................................................................................................... 135  
*Van Trung Chu, Robin Graf, and Klaus Rajewsky*

13 Germinal Center Formation with Retrovirally Transduced B Cells  
for Determining the Role of Specific Molecules In Vivo ................................... 147  
*Rinako Nakagawa*

14 Characterization of the B Cell Transcriptome Bound by RNA-Binding  
Proteins with iCLIP ..................................................................................................... 159  
*Manuel D. Díaz-Muñoz, Elisa Monzón-Casanova, and Martin Turner*
