CONTENTS

Preface ............................................................................................................................ v
Contributors................................................................................................................... ix

PART I INTRODUCTION ........................................................................ 1
  1 Cardiogenic Shock: Clinical Features ......................................................... 3
    David Hasdai
  2 Cardiogenic Shock: Physiological and Biochemical Concepts .............. 7
    Simon G. Williams, Bing Hsiean Tzeng, and Lip-Bun Tan

PART II CARDIOGENIC SHOCK COMPLICATING ACUTE
  CORONARY SYNDROMES .................................................. 33
  3 Cardiogenic Shock Complicating Non–ST-Segment
    Elevation Acute Coronary Syndrome ......................................................... 35
    David R. Holmes, Jr. and David Hasdai
  4 Cardiogenic Shock Complicating ST-Segment Elevation
    Acute Coronary Syndrome ......................................................................... 43
    Peter B. Berger and David Hasdai

PART III CONTEMPORARY TREATMENT OF THE PATIENT WITH
  CARDIOGENIC SHOCK COMPLICATING ACUTE
  CORONARY SYNDROMES .................................................. 57
  5 Medical Treatment for Cardiogenic Shock .............................................. 59
    John K. French, Cheuk-Kit Wong, and Harvey D. White
  6 Technical Approaches to Percutaneous Revascularization
    in the Patient with Cardiogenic Shock ....................................................... 73
    David R. Holmes, Jr.
  7 Operative Strategies for Cardiogenic Shock Complicating
    Acute Coronary Syndromes ........................................................................ 77
    Ehud Raanani, Aharon Avramovich, David Hasdai,
    and Bernardo A. Vidne

PART IV MECHANICAL COMPLICATIONS OF ACUTE MYOCARDIAL
  INFARCTION CAUSING CARDIOGENIC SHOCK .......... 93
  8 Mechanical Complications of Acute Myocardial Infarction
    Causing Cardiogenic Shock ........................................................................ 95
    Yochai Birnbaum and Robert J. Siegel
  9 Percutaneous Treatment of Acute Mechanical Complications of
    Myocardial Infarction ................................................................................. 125
    Elchanan Bruckheimer and Kevin P. Walsh
10 Surgical Management of Mechanical Complications of Acute Coronary Syndromes Causing Cardiogenic Shock
Harold M. Burkhart and Joseph A. Dearani

PART V CARDIOGENIC SHOCK RELATED TO VALVULAR HEART DISEASE

11 Cardiogenic Shock Related to Valvular Heart Disease
Alex Sagie and Yaron Shapira

12 Percutaneous Valvuloplasty in Cardiogenic Shock
Alec Vahanian, Bernard Iung, and Olivier Nallet

13 Operative Management of Nonischemic Cardiogenic Shock
David G. Cable and Joseph A. Dearani

PART VI CARDIOGENIC SHOCK RELATED TO OTHER CARDIAC CONDITIONS

14 Myocarditis and Cardiogenic Shock
Mordehay Vaturi, David Hasdai, and Alexander Battler

15 Pericardial Disease and Cardiogenic Shock
Avir Mager and David Hasdai

16 Heart Disease in the Child and Cardiogenic Shock
Amiram Nir, Azaria J. J. T. Rein, and David J. Driscoll

17 Congenital Heart Disease in the Adult and Cardiogenic Shock
Rafael Hirsch

PART VII TRANSPORT, ASSIST DEVICES, AND FUTURE PERSPECTIVES

18 Transport of the Patient with Cardiogenic Shock
Eric R. Bates, Michael J. Lim, and Mark J. Lowell

19 Percutaneous Mechanical Assist Devices for Severe Left Ventricular Dysfunction
Suresh R. Mulukutla, John J. Pacella, and Howard A. Cohen

20 Mechanical Alternatives to the Human Heart
Jacob Lavee

21 Treatment of Cardiogenic Shock: Future Perspective
Jonathan Leor, Israel M. Barbash, Alexander Battler, and Robert A. Klener

Index
Cardiogenic Shock
Hasdai, D.; Berger, P.B.; Battler, A.; Holmes Jr., D.R.
(Eds.)
2002, X, 381 p., Hardcover
ISBN: 978-1-58829-025-0
