Dedication ................................................................. v
Foreword by Timothy M. Block and Baruch S. Blumberg ................... vii
Foreword by T. Jake Liang ......................................................... ix
Preface ................................................................................ xiii
Contributors ......................................................................... xvii
Contents for Volume 1 .............................................................. xxi

PART I. VIRAL-SPECIFIC IMMUNOLOGICAL AND OTHER HOST RESPONSES

1 Studying Host Immune Responses Against Duck Hepatitis B Virus Infection
   Darren S. Miller, Edward M. Bertram, Catherine A. Scougall,
   Irev Kotelarsi, and Allison R. Jilbert ....................................... 3

2 Measurement of Cell-Mediated Immune Response in Woodchucks
   Stephan Menne and Paul J. Cote ............................................. 27

3 Study of Liver-Specific Expression of Cytokines During
   Woodchuck Hepatitis Virus Infection
   Mengji Lu and Michael Roggendorf ....................................... 37

4 Induction of Anti-Hepatitis B Virus Immune Responses Through DNA Immunization
   Michael Geissler, Robert Weth, Christian F. Grimm,
   Dörte Ortmann, and Hubert E. Blum ..................................... 43

5 Monitoring Gene Expression Using DNA Microarrays During
   Hepatitis B Virus Infection
   Michael R. Beard and Stephen Locarnini .............................. 55

6 Determination of Hepatitis B Virus-Specific CD8+ T-Cell Activity
   in the Liver
   Micheline Nascimbeni and Barbara Rehermann ........................ 65

7 Determining the Precursor Frequency of HBV Nucleocapsid
   Antigen-Specific T Cells
   Jennifer A. Waters and Howard C. Thomas ............................ 85

8 Detection and Characterization of Virus-Specific CD8
   T Cells Using the Tetramer Approach
   Xiao-Song He and Harry B. Greenberg ................................. 89

9 In Vitro Analysis of Hepatitis B Virus Specific CD4+ T Cells
   Shilpa Chokshi and Nikolai V. Naoumov .............................. 97
10 Induction of Humoral and Cellular Immune Responses to Hepatitis Delta Virus Through DNA Immunization in BALB/c Mice
Ren-Shiang Lee, Shih-Jer Hsu, Li-Rung Huang, Hai-Lin Wu, Shiou-Lin Lin, Ding-Shinn Chen, and Pei-Jer Chen

PART II. IN VITRO AND IN VIVO MODELS

11 Infection of Primary Chimpanzee Hepatocytes with Recombinant Hepatitis D Virus Particles: A Surrogate Model for Hepatitis B Virus
Azeneth Barrera and Robert E. Lanford

12 Study of the Endocytosis and Intracellular Localization of Subviral Particles of Hepatitis B Virus in Primary Hepatocytes
Dieter Glebe and Wolfram H. Gerlich

13 The Tupaia Model for the Study of Hepatitis B Virus: Direct Infection and HBV Genome Transduction of Primary Tupaia Hepatocytes
Fritz von Weizsäcker, Josef Köck, Sabine MacNelly, Shaotang Ren, Hubert E. Blum, and Michael Nassal

14 Delivery of Hepatitis B Virus Therapeutic Agents Using Asialoglycoprotein Receptor–Based Liver-Specific Targeting
Masayoshi Konishi, Catherine H. Wu, and George Y. Wu

15 Woodchuck Hepatitis Virus Hepatocyte Culture Models
Norma D. Churchill and Tomasz I. Michalak

16 Duck Hepatitis B Virus Primary Hepatocyte Culture Model
Olivier Hantz and Fabien Zoulim

17 Enhancement of Infection of HepG2 Cells in Culture by Predigestion of Hepadnavirus with V8 Protease
Xuanyong Lu and Timothy M. Block

18 Construction of Recombinant Adenoviruses that Produce Infectious Hepatitis B Virus
Martin Sprinzl, Jérôme Dumortier, and Ulrike Protzer

19 Baculovirus-Mediated Gene Transfer for the Study of Hepatitis B Virus
Harriet C. Isom, Ayman M. Abdelhamed, John P. Bällo, and Thomas G. Miller

20 Transgenic Hepatitis B Virus Mouse Model in the Study of Chemotherapy
John D. Morrey
Contents xv

21 Transplantation of Human Hepatocytes in Immunodeficient
UPA Mice: A Model for the Study of Hepatitis B Virus
Jörg Petersen, Martin R. Burda, Maura Dandri,
and Charles E. Rogler ............................................................. 253

22 Duck Hepatitis B Virus Model in the Study of Hepatitis B Virus
Lucyna Cova and Fabien Zoulim .............................................. 261

23 Hepatitis B Virus Transgenic Severe Combined Immunodeficient
Mouse Model of Acute and Chronic Liver Disease
Mark A. Feitelson, Jonathan D. Larkin, and Raymond F. Schinazi... 269

24 The Chimpanzee Model: Contributions and Considerations
for Studies of Hepatitis B Virus
Pascal Gagneux and Elaine A. Muchmore ............................... 289

25 Hepatitis B in Liver Transplant Recipients as a Special Model
of Antiviral Drug Development
Robert G. Gish and Adil Wakil .................................................. 319

26 Hepatitis Delta Virus Transfection for the Mouse In Vivo Model
Jinhong Chang, Anthony Lerro, and John M. Taylor .................. 343

27 Hepatitis Delta Virus RNA Transfection for the Cell Culture Model
Thomas B. Macnaughton and Michael M. C. Lai ...................... 351

Part III. Antiviral Testing and Clinical Studies

28 Analysis of Hepatitis B Virus Dynamics and Its Impact
on Antiviral Development
Manuel Tsiang and Craig S. Gibbs .......................................... 361

29 Genotyping Anti-Hepatitis B Virus Drug Resistance
Eric J. Bourne, Joëlle Gauthier, Vincent A. Lopez,
and Lynn D. Condreay .............................................................. 379

30 A Parsimonious Method for Screening Drug Combinations for
Anthepadnaviral Activity Using a Parametric Dose–Response
Surface Approach
Tim Shaw and Stephen Locarnini .............................................. 387

31 Hepatitis B Virus: Where Are We and Where Are We Going?
Michael P. Manns, Johannes Hadem,
and Heiner Wedemeyer .......................................................... 415

32 Designing Studies to Evaluate Anti-Hepatitis B Virus Therapies:
From the Perspective of Studies for the Registration
of Pharmaceutical Products
Alison B. Murray .................................................................... 445
xvi Contents

33 Specific Considerations in the Design of Hepatitis B Virus Clinical Studies in the Far East
      Man-Fung Yuen and Ching-Lung Lai ................................................. 457
34 Studying the Treatment of Chronic Hepatitis B Viral Infection in Special Populations
      Robert G. Gish and Stephen Locarnini ............................................. 465
35 Designing Clinical Development Programs for Anti-Hepatitis B Virus Drugs
      Nathaniel A. Brown .......................................................................... 499
36 Testing Antivirals Against Hepatitis Delta Virus: Farnesyl Transferase Inhibitors
      Bruno B. Bordier and Jeffrey S. Glenn ............................................. 539
Index ............................................................................................................ 555
Hepatitis B and D Protocols
Volume 2: Immunology, Model Systems, and Clinical Studies
Hamatake, R.K.; Lau, J.Y.N. (Eds.)
2004, XXIII, 572 p., Hardcover
ISBN: 978-1-58829-108-0
A product of Humana Press
