</table>
11 Selective Attention Deficits in Children With Attention Deficit Hyperactivity Disorder: A Review of Behavioral and Electrophysiological Studies ............................ 255
Lisa M. Jonkman

12 Working Memory in Children With Attention Deficit Hyperactivity Disorder ..... 277
Jack Stevens

13 Developmental Underpinnings of the Association of Attention Deficit Hyperactivity Disorder and Its Subtypes to Neuropsychological and Academic Weaknesses................................................................. 293
Tuija Aro, Margaret Semrud-Clikeman, Anne-Mari Lapveteläinen, and Heikki Lyytinen

14 Social Functioning of Children With Attention Deficit Hyperactivity Disorder .... 317
Hana Tur-Kaspa

15 Reading Disabilities in Children With Attention Deficit Hyperactivity Disorder ..... 337
Juliana S. Bloom, Carlin J. Miller, Mauricio A. Garcia, and George W. Hynd

16 Attention Deficit Hyperactivity Disorder and the Brain: Evidence From Electrophysiological Studies .................................................................................... 359
Alexandra P. Fonaryova-Key, Melissa Ferguson and Dennis L. Molfese

17 Anatomical and Functional Neuroimaging Studies of Children and Adolescents With Attention Deficit Hyperactivity Disorder ........................................... 393
Jonathan C. Pfeifer, Melissa DelBello, and Scott Holland

18 State Regulation and Attention Deficit Hyperactivity Disorder ................................ 413
Jaap van der Meere

19 Sleep and Attention Deficit Hyperactivity Disorder .............................................. 435
Louise M. O’Brien and David Gozal

20 Neuropsychological Performance in Adults With Attention Deficit Hyperactivity Disorder .......................................................... 457
Lisa Lee Weyandt

21 Psychostimulants in Attention Deficit Hyperactivity Disorder: Theoretical and Practical Issues for the Community Practitioner ................................... 487
Daniel F. Connor

22 Pharmacokinetic and Pharmacodynamic Drug Interactions: Methylphenidate, Amphetamine or Atomoxetine in Attention Deficit Hyperactivity Disorder .......... 529
John S. Markowitz and Kennerly S. Patrick

Index ................................................................................................................................................. 551
Attention Deficit Hyperactivity Disorder
From Genes to Patients
Gozal, D.; Molfese, D.L. (Eds.)
2005, XII, 560 p. 24 illus., Hardcover
ISBN: 978-1-58829-312-1
